A History of Organized Labor in Panama and Central America Robert J. Alexander, 2008-07-30 This volume is a pioneering study of the history of organized labor in the Central American republics It traces the history in the various countries from the early nineteenth century to the end of the twentieth century It also discusses why they appeared what organizational and ideological tendencies characterized the movement in these countries the role of collective bargaining the economic influence of organized labor as well as the relations of the movement in the individual countries with one another and with the broader labor movement outside of the countries involved in this volume *Latin America 2012* Robert T. Buckman, 2012 A comprehensive timely and entertaining account of the political cultural and economic dynamics of more than 30 discrete countries of the Western Hemisphere this book is updated each year providing students with the most recent information possible The information is presented in an objective balanced non ideological context allowing the readers to formulate their own opinions In addition to examining individual countries the book views Latin America as a mosaic region as a whole and emphasizes its growing influence on the world stage Besides providing accurate and timely information on the historical and political forces that have shaped each nation it also examines the leading cultural figures and forces from 18th century writers to 20th century composers and singing stars to 21st century filmmakers and actors Finally it describes the social and economic challenges that continue to afflict this exciting and emerging region

A History of Organized Labor in Cuba Robert J. Alexander, 2002-11-30 Robert J Alexander traces organized labor from its origins in colonial Cuba examining its evolution under the Republic noting the successive political forces within it and the development of collective bargaining culminating after 1959 in its transformation into a Stalin model labor movement In Castro s Cuba organized labor has been subordinate to the Party and government and has been converted into a movement to control the workers and stimulate production and productivity instead of being a movement to defend the interests and desires of the workers Starting with the organization of tobacco workers and a few other groups in the last years of Spanish colonial rule Robert J Alexander traces the growth of the labor movement during the early decades of the republic noting particularly the influence of three political tendencies anarchosyndicalists Marxists and independents He examines the generally unfavorable attitudes of early republican governments to the labor movement and he discusses the first central

labor body the CNOC which was at first under anarchist influence and soon captured by the Communists The role of the CNOC vis vis the Machado dictatorship including the deal with Machado in 1933 is also discussed Alexander then looks at the unions during the short Grau San Martine nationalist regime of 1933 and the near destruction of organized labor by the Batista dictatorship of 1934 1937 the revival of the labor movement after the 1937 deal of the Communists with Batista and the establishment of the Confederacion de Trabajadores de Cuba as well as the struggles for power within it resulting in a split in the CTC in 1947 with the dominance of the Autentico party controlled group During this period regular collective bargaining became more or less the rule He then describes the deterioration of the Confederacion of Trabajadores de Cuba under the Batista dictatorship of 1952 1959 Alexander ends with a description of organized labor during the Castro regime the early attempt of revolutionary trade unionists to establish an independent labor movement followed by the Castro government s seizure of control of the CTC and its unions and the conversion of the Cuban labor movement into one patterned after the Stalinist model of a movement designed to stimulate production and productivity under government control instead of defending the rights and interests of the unions members Based on an extensive review of Cuban materials as well as Alexander s numerous interviews correspondence and conversations with key figures from the late 1940s onward this is the most comprehensive English language examination of organized labor in Cuba ever written Essential reading for all scholars and students of Cuban and Latin American labor and economic affairs as well as important to political scientists and historians of the region

Crossing Boundaries Brian D. Behnken, Simon Wendt, 2013-06-27 *Crossing Boundaries* Ethnicity Race and National Belonging in a Transnational World explores ethnic and racial nationalism within a transnational and transcultural framework in the long twentieth century late nineteenth to early twenty first century The contributors to this volume examine how national solidarity and identity with their vast array of ideological political intellectual social and ethno racial qualities crossed juridical territorial and cultural boundaries to become transnational how they altered the ethnic and racial visions of nation states throughout the twentieth century and how they ultimately influenced conceptions of national belonging across the globe Human beings live in an increasingly interconnected transnational global world National economies are linked worldwide information can be transmitted around the world in seconds and borders are more transparent and fluid In this process of transnational expansion the very definition of what constitutes a nation and nationalism in many parts of the world has been expanded to include individuals from different countries and more importantly members of ethno racial communities But crossing boundaries is not a new phenomenon In fact transnationalism has a long and sordid history that has not been fully appreciated Scholars and laypeople interested in national development ethnic nationalism as well as world history will find *Crossing Boundaries* indispensable

Red and Black in Haiti Matthew J. Smith, 2009-05-15 In 1934 the republic of Haiti celebrated its 130th anniversary as an independent nation In that year too another sort of Haitian independence occurred as the United States ended nearly two decades of occupation In the first comprehensive political history of postoccupation Haiti Matthew Smith argues that the period from 1934 until the rise of dictator Francois Papa Doc Duvalier to the presidency in 1957 constituted modern Haiti's greatest moment of political promise Smith emphasizes the key role that radical groups particularly Marxists and black nationalists played in shaping contemporary Haitian history These movements transformed Haiti's political culture widened political discourse and presented several ideological alternatives for the nation's future They were doomed however by a combination of intense internal rivalries pressures from both state authorities and the traditional elite class and the harsh climate of U S anticommunism Ultimately the political activism of the era failed to set Haiti firmly on the path to a strong independent future
