**Voting in Presidential Elections** Herbert F. Weisberg, Clyde Wilcox, 2004 Chapters in this book were originally commissioned for a conference held at the Mershon Center on the Ohio State University campus March 7 10 2002 Preface

The Electoral College Thomas Neale, 2012-11-21 When Americans vote for President and Vice President they are actually choosing presidential electors known collectively as the electoral college It is these officials who choose the President and Vice President of the United States The complex elements comprising the electoral college system are responsible for one of the most important processes of the American political and constitutional system election of the President and Vice President A failure to elect or worse the choice of a chief executive whose legitimacy might be open to question could precipitate a profound constitutional crisis that would require prompt judicious and well informed action by Congress Article II Section 1 of the Constitution as amended in 1804 by the 12th Amendment sets forth the requirements for election of the President and Vice President It authorizes each state to appoint by whatever means the legislature chooses a number of electors equal to the combined total of its Senate and House of Representatives delegations for a contemporary total of 538 including three electors for the District of Columbia Since the Civil War the states have universally provided for popular election of the presidential electors Anyone may serve as an elector except Members of Congress and persons holding offices of Trust or Profit under the Constitution In each presidential election year the political parties and other groups that have secured a place on the ballot in each state nominate a slate or ticket of candidates for elector When voters cast a single vote for their favored candidates on general election day Tuesday after the first Monday in November November 6 in 2012 they are actually voting for the slate of electors pledged to those candidates The entire slate of electors winning the most popular votes in the state is elected a practice known as winner take all or the general ticket system Maine and Nebraska use an

alternative method the district plan which awards two electors to the popular vote winners statewide and one to the popular vote winners in each congressional district Electors assemble in their respective states on the Monday after the second Wednesday in December December 17 in 2012 They are expected to vote for the candidates they represent Separate ballots are cast for President and Vice President after which the electoral college ceases to exist until the next presidential election State electoral vote results are reported to Congress and are counted and declared at a joint session of Congress usually held on January 6 of the year succeeding the election a date that may be altered by legislation Since January 6 falls on a Sunday in 2013 Congress will likely set another date for the joint session in 2013 possibly January 8 A majority of electoral votes currently 270 of 538 is required to win but the results submitted by any state are open to challenge at the joint session as provided by law Past proposals for change by constitutional amendment have included various reform options and direct popular election which would eliminate the electoral college system but no substantive action on this issue has been taken in Congress for more than 20 years At present however a non governmental organization the National Popular Vote NPV campaign proposes to reform the electoral college by action taken at the state level eight states and the District of Columbia have approved the NPV compact to date

**Presidential Elections in Iran** Mahmoud Pargoo, Shahram Akbarzadeh, 2021-05-06 By looking at all the presidential elections since the revolution this book offers a new analysis of politics in Iran

Candidate Character Traits in Presidential Elections David B. Holian, Charles L. Prysby, 2014-10-03 Voter perceptions of the personal traits of presidential candidates are widely regarded to be important influences on the vote Media pundits frequently explain the outcome of presidential elections in terms of the personal appeal of the candidates Despite the emphasis on presidential character traits in the media the scholarly investigation in this area is limited In this book David Holian and Charles Prysby set out to examine the effect that trait perceptions have on the vote how these perceptions are shaped by other attitudes and evaluations and what types of voters are most likely to cast a ballot on the basis of the character traits of the presidential candidates Using the American National Election Studies ANES surveys the authors find that traits do have a very substantial effect on the vote that different candidates have advantages on different traits and that the opinions expressed by media pundits about how the candidates are viewed by the voters are often simplistic and sometimes quite mistaken Character traits are important to voters but we need a better and more complete understanding of how and why these factors influence voters An essential read which provides a clear and original argument to all those interested in furthering their understanding of the importance of candidate character traits for the quality of American elections and democracy

The Electoral College that governs America has been with us since 1804 when Thomas Jefferson s supporters redesigned it for his re election The Jeffersonians were motivated by the principle of majority rule Gone were the days when a president would be elected by acclamation as George Washington had been Instead given the emergence of intense two party competition the Jeffersonians wanted to make sure that the Electoral College awarded the presidency to the candidate of the majority rather than minority party They also envisioned that a candidate would win by amassing a majority of Electoral College votes secured from states where the candidate s party was in the majority For most of American history this system has worked as intended producing presidents who won Electoral College victories derived from state based majorities In the last quarter century however there have been three significant aberrations from the Jeffersonian design 1992 2000 and 2016 In each of these years the Electoral College victory depended on states where the winner received only a minority of votes In this authoritative history of the American Electoral College system Edward Foley analyzes the consequences of the unparalleled departure from the Jeffersonians original intent and delineates what we can do about it He explains how states by simply changing their Electoral College procedures could restore the original Jeffersonian commitment to majority rule There are various ways to do this all of which comply with the Constitution If only a few states had done so before 2016 the outcome might have been different Doing so before future elections can prevent another victory that contrary to the original Jeffersonian intent a majority of voters did not want      Presidential Elections and Independence Referendums in the Baltic States, the Soviet Union and Successor States ,1992      **United States Presidential Elections, 1788-1860** Michael J.
