Cognitive Style and Perceptual Difference in Browning's Poetry Suzanne Bailey, 2010-01-21 Current work on speech pragmatics and visual thinking calls for a radical reassessment of the problem of obscurity or difficulty in Robert Browning's work In this innovative study Bailey reinterprets Browning's life and work in the context of contemporary theories of language and attention drawn from the cognitive sciences Specifically new readings of under examined historical sources show the extent to which Browning's cognitive and perceptual worlds differed from the norm aligning him with Victorians like Sir Francis Galton or fellow artist William Wetmore Story Exploring how perceptual biases are transformed in the language of the poems Bailey demonstrates how the cognitive sciences can ground a new biographical practice drawing attention to such matters as the creative process and the ethics of understanding individuals who think differently In doing so she reenergizes debates about this unusual Victorian poet his later works and the nature of literary style

Changing Minds Howard Gardner, 2006-09-01 Think about the last time you tried to change someone's mind about something important a voter's political beliefs a customer's favorite brand a spouse's decorating taste Chances are you weren't successful in shifting that person's beliefs in any way In his book *Changing Minds* Harvard psychologist Howard Gardner explains what happens during the course of changing a mind and offers ways to influence that process Remember

Jacqueline Stordy, Ph.D.,Malcolm J. Nicholl,2001-02-20 This important new book documents a major breakthrough in the treatment of the three most widespread learning disabilities ADHD dyslexia and dyspraxia clumsy child syndrome Although these conditions have reached epidemic proportions treatment has been limited to ineffective behavioral therapies or the controversial prescription drug Ritalin Now Dr B Jacqueline Stordy a leading researcher in the field reveals a stunning new treatment based on a simple nutritional supplement LCP long chain polyunsaturated fatty acids The LCP Solution is the first book to describe this new natural treatment and to explain how children and adults can incorporate it into their daily lives As a member of a family with a long history of dyslexia Dr Stordy discovered in a pioneering experiment that dyslexic and dyspraxic children who began taking a dietary supplement consisting of LCP experienced dramatic transformations in the quality of their lives At the same time parallel studies conducted at Purdue University came up with similar results with children who had ADHD The effect of this dietary supplement was nothing short of revolutionary after only a few weeks dyslexic and ADHD children became calmer more focused easier to teach while dyspraxics improved significantly in dexterity and balance showing markedly less anxiety In *The LCP Solution* Dr Stordy documents how this life changing treatment came about and explains step by step how sufferers of each of the three major conditions can use it to change their lives at home at school and at work Illuminating vividly presented and authoritative in its findings this book will revolutionize our approach to learning disabilities LCPs are natural simple to use and amazing in their benefits If you or someone you love suffers from a learning disability this book is essential reading **Resources in Education** ,2001-10 *Dyslexia and Stress* Thomas Richard Miles,2004-01-26 Though a good deal is known about the remediation of dyslexics of all ages there is growing awareness among teachers and others that there is much more to their work than teaching literacy skills Most of us experience stress at some point in our lives but experience suggests that dyslexics are particularly vulnerable to it This book presents documented evidence on the subject The second edition has been substantially rewritten and contains contributions from both dyslexics and non dyslexics Many of the contributors to the first edition have substantially rewritten their original chapters Among the new contributors are Morag Kiziewicz herself dyslexic and a learning support manager at the University of Bath Michael Lea a professional musician and Julian Cox who in the editor's view was unjustly convicted of murder by the courts when the whole event leading to this was a tragic accident brought about by his disabilities All describe the ways in which dyslexia has influenced their lives There are also chapters by Lindsay Peer who writes from her standpoint as education officer of the British Dyslexia
