Kendall, 1999-01-01 The inadequacy of the foster care system has long been recognized One of the biggest obstacles to reforming the system is the relative unavailability of research data from the field information that would shed light on key empirical trends and pressing issues This long overdue volume provides a much needed overview of the current state of foster care Leading researchers and practitioners summarize and discuss the results of their current

research providing through their data an unparalleled detailed glimpse of the inner workings of the foster care system in its entirety The volume is also valuable for its survey and syntheses of important issues and trends affecting foster care Subjects discussed include welfare reform reporting systems family reunification mental health services and the needs of minority children Wide ranging and detailed in its coverage this collection is destined to become an essential reference and guide to the foster care system Success in Early Intervention Arthur J. Reynolds,2000-01-01 This book is a valuable source of information on the long term effects of early intervention programs on the education of children living in economically disadvantaged areas and in other contexts Early intervention programs such as Head Start enjoy popular and legislative support but until now policymakers and practitioners have lacked hard data on the long term consequences of such locally and federally mandated efforts Success in Early Intervention focuses on the Child Parent Center CPC program in Chicago the second oldest after Head Start federally funded early childhood intervention program Begun in 1967 the program currently operates out of twenty four centers which are located in proximity to the elementary schools they serve The CPC program s unique features include mandatory parental involvement and a single sustained educational system that spans preschool through the third grade Central to this study is a 1986 cohort of nearly twelve hundred CPC children and a comparison group of low income children whose subsequent activities challenges and achievements are followed through the age of fifteen The lives of these children amply demonstrate the positive long term educational and social consequences of the CPC program
