Principles Of Lutheran Theology:

Principles of Lutheran Theology Carl E. Braaten, 1985 First published in 1983 *Principles of Lutheran Theology* has guided students into theological reflection on the landmarks of Christian faith as understood in the Lutheran confessional heritage for a generation The book sets forth the main principles of classical Lutheran theology but with an eschatological accent Canon confession ecumenicity Christ centeredness sacrament law gospel and two kingdoms are all examined not only in terms of their original meaning and historical development but also in light of current reflections In this new edition Braaten takes stock of the research and reflection of the last twenty five years and also adds a chapter on the distinctive Archimedean Lutheran insight into the hiddenness of God as a fount or ground of all theologizing This new edition cross referenced to key readings in Luther's Works and The Book of Concord will both equip and facilitate the search for a contemporary articulation of Christian identity in light of the church's historic commitments
