Prison Crisis Critical Readings:

Prison Crisis Edward Sbarbaro, Robert L. Keller, 1995-01-01 **Wounded Cities** Jane Schneider, Ida Susser, 2020-06-29

Although the seemingly apocalyptic scale of the World Trade Center disaster continues to haunt people across the globe it is only the most recent example of a city tragically wounded. Cities are in fact perpetually caught up in cycles of degeneration and renewal. As with the WTC from time to time these cycles are severely ruptured by a sudden unpredictable event. In the wake of recent terrorist activities this timely book explores how urban populations are affected by wounds inflicted through violence, civil wars, overbuilding, drug trafficking, and the collapse of infrastructures, as well as natural disasters such as earthquakes. Mexico City, New York, Beirut, Belfast, Bangkok, and Baghdad are just a few examples of cities riddled with problems that undermine on a daily basis the quality of urban life. What does it mean for urban dwellers when the infrastructure of a city collapses: transport, communication, grids, heat, light, roads, water, and sanitation? What are the effects of foreign investment and huge construction projects on urban populations, and how does this change the look and character of a city? How does drug trafficking intersect with class, race, and gender, and what impact does it have on vulnerable urban communities? How do political corruption and mafia networks distort the built environment? Drawing on in-depth case studies from across the globe, this book answers these intriguing questions through its rigorous consideration of changing global and national contexts, social movements, and corrosive urban events. Adopting a grass roots up approach, it places emphasis on people's experiences of uneven development and inequality, their engagement with memory in the face of continual change, and the relevance of political activism to bettering their lives. It is especially attentive to the historical interaction of particular cities with wider political and economic forces, as these interactions have shaped local governance over time.

Total Confinement Lorna A. Rhodes, 2004-02-26

In this rare firsthand account, Lorna Rhodes takes us into a hidden world that lies at the heart of the maximum security prison. Focusing on the supermaximums and the mental health units that complement them, Rhodes conveys the internal contradictions of a system mandated to both punish and treat. Her often harrowing, sometimes poignant exploration of maximum security confinement includes vivid testimony from prisoners and prison workers, describes routines and practices inside prison walls, and takes a hard look at the prison industry. More than an exposé, *Total Confinement* is a theoretically sophisticated meditation on what incarceration tells us about who we are as a society. Rhodes tackles difficult questions about the extreme conditions of confinement, the treatment of the mentally ill in prisons, and an ever-advancing technology of isolation and surveillance. Using her superb interview skills and powers of observation, she documents how prisoners, workers, and administrators all struggle to retain dignity and a sense of self within maximum security institutions. In settings that place in question the very humanity of those who live and work in them, Rhodes discovers complex interactions, from the violent to the tender, among prisoners and staff. *Total Confinement* offers an indispensable close-up of the implications of our dependence on prisons to solve long-standing

problems of crime and injustice in the United States **New Black Renaissance** Manning Marable, Adina Popescu, Khary Jones, Patricia Lespinasse, 2015-12-03 Against a backdrop of multiculturalism and Afrocentricity in the intellectual traditions of African American studies this book sets new standards and directions for the future It is the first book to systematically address the many themes that have changed the political and social landscape for African Americans Among these changes are new transnational processes of globalization the devastating impact of neoliberal public policies upon urban minority communities increasing imprisonment and attendant loss of voting rights especially among black males the surging of Hispanic population and widening class differences as deindustrialization crack cocaine and gentrification entered urban communities Marable and a cast of influential contributors suggest that a new beginning is needed for African American scholarship They explain why Black Studies needs to break its conceptual and thematic limitations exploring blackness in new ways and in different geographic sites They outline the major intersectionalities that should shape a new Black Studies the complex relationships between race gender sexuality class and youth They argue that African American Studies scholarship must help shape and redirect public policies that affect black communities working with government foundations and other private institutions on such issues as housing health care and criminal justice **The Politics of Prison**

Crowding Simone Santorso, 2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths The Politics of Prison Crowding offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice *Women Exiting Prison* Bree Carlton, Marie Segrave, 2013-05-02 Women's incarceration is on the rise globally and this has significant intergenerational economic and humanitarian costs for communities across the world While there have been efforts to implement reform particularly in countries such as Canada UK US and Australia the growing

evidence suggests women's prisons and the support structures surrounding them are in crisis. This collection of critical essays presents groundbreaking research on women's post-imprisonment policy practice and experiences. It is the first collection to offer international perspectives on gender criminalisation, the effects of imprisonment and women-centred approaches to the short and long-term support of women exiting prison. It offers cutting-edge insights into contemporary policy developments and women's experiences across the US, the UK, Australia, Canada, and Northern Ireland. The collection makes two important contributions. First, it marks a departure from an instrumental and individual focus on what works to reduce women's offending and re-offending behaviour, a prevailing approach within competing collections focused on post-release issues. Second, it presents critical original research with robust empirical foundations to revive feminist criminological engagement around gender imprisonment and, most critically, post-release management support and survival. The collection will appeal to academics and community-based advocates, activists, lawyers, and practitioners engaged in advocacy and service provision for imprisoned women. It is also an important and unique analysis for undergraduate and postgraduate students studying criminological and social science courses, particularly those related to gender and crime, imprisonment and correctional policy, and qualitative research methods.

The English Prison Health System After a Decade of Austerity, 2010-2020 Nasrul Ismail, 2022-11-21

Austerity has reconfigured and scaled back the governance and delivery of public services and negatively affected society's most vulnerable groups. This book opens up the closed world of English prisons to examine its impact on prison health governance and healthcare delivery. It argues that austerity has been a decade-long large-scale political experiment that has caused debt to balloon, eroded the prison health system, and perpetuated a cycle of punishment resulting in sicker prisoners. In short, austerity has violated prisoners' human rights. Drawing on interviews and data from existing longitudinal and economic analyses, the book demonstrates how austerity has resulted in high rates of recidivism, diminished what remains of the welfare state, and increased inequality and punitiveness. Despite a decade of failure, there is a marked political reluctance to dispense with austerity, and the governmental juggernaut continues to produce the same result. As the spectre of recession increases, caused in part by Brexit and COVID-19, these failures are ever more perilous. This book blends the interdisciplinary perspectives of criminology, public health, sociology, law, social policy, politics, and economics to enable greater understanding of the impact of austerity on health governance, prison healthcare, the prison workforce, and prisoners' health and safety. It challenges current policy practice and thinking and is a must-read for anyone who wants to reflect on how the political-economic structure can affect the governance and delivery of healthcare services in marginalised settings, beyond prisons and indeed beyond England.

Keramet Reiter, 2016-10-31

How America's prisons turned a brutal and inhumane practice into standard procedure. Originally meant to be brief and exceptional solitary confinement, in US prisons, it has become long-term and common. Prisoners spend twenty-three hours a day in featureless cells with no visitors or human contact for years on end, and they are held entirely at

administrators discretion Keramet Reiter tells the history of one supermax California s Pelican Bay State Prison whose extreme conditions recently sparked a statewide hunger strike by 30 000 prisoners This book describes how Pelican Bay was created without legislative oversight in fearful response to 1970s radicals how easily prisoners slip into solitary and the mental havoc and social costs of years and decades in isolation The product of fifteen years of research in and about prisons this book provides essential background to a subject now drawing national attention
