Prison Crowding:

Prison Crowding United States. General Accounting Office, 1989 *Prison Crowding* Alfred Blumstein, 1986 **The Politics of Prison Crowding** Simone Santorso, 2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths The Politics of Prison Crowding offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice *The Effect of Prison Crowding on Inmate Behavior* Garvin McCain, 1981

Prisons Crowding: A Psychological Perspective Paul Paulus, 2012-12-06 This volume is a summary of a 15 year effort to determine the effects of prison crowding and their relationship to the broader realm of crowding phenomena and theories Although the writing of this volume was for the most part a solitary effort the data and ideas it is based on were mostly the result of a collaborative effort with Verne Cox and Garvin McCain Their schedules limited their ability to contribute to this volume but they provided much constructive feedback and assistance Cox also wrote a preliminary draft of Chapter 3 and both McCain and Cox made major contributions to Chapter 5 and assisted with several other chapters I am greatly indebted to these two fine scholars for their efforts and support over the course of our joint research endeavors In recognition of this fact the pronoun we is used throughout this volume This research would not have been possible without the cooperation and support of thousands of inmates and hundreds of prison officials The unconditional support throughout the project from Director Norman Carlson and former regional research director Jerome Mabli both of the Federal Bureau of Prisons is also greatly appreciated Thanks are due to the National Institute of Justice for financial support during various phases of this project The support of John Spevacek of the Institute was indispensable Funds were also provided by the Hogg Foundation U S Department of Justice Civil Rights Division and the University of Texas at Arlington *International Crime and Justice*
