Breaking the Pendulum Philip Goodman, Joshua Page, Michelle Phelps, 2017-03-20 In *Breaking the Pendulum* Philip Goodman Joshua Page and Michelle Phelps debunk the pendulum model of American criminal justice arguing that it distorts how and why punishment changes From the birth of the penitentiary through recent reforms the authors show how the struggle of players in the penal field shapes punishment

Coxsackie Joseph F. Spillane, 2014-06-15 How progressive good intentions failed at Coxsackie once a model New York State prison for youth offenders Should prisons attempt reform and uplift inmates or by means of principled punishment deter them from further wrongdoing This debate has raged in Western Europe and in the United States at least since the late eighteenth century Joseph F Spillane examines the failure of progressive reform in New York State by focusing on Coxsackie a New Deal reformatory built for young male offenders Opened in 1935 to serve adolescents adrift Coxsackie instead became an unstable and brutalizing prison From the start the liberal impulse underpinning the prison's mission was overwhelmed by challenges it was unequipped or unwilling to face drugs gangs and racial conflict Spillane draws on detailed prison records to reconstruct a life behind bars in which ungovernable young men posed constant challenges to racial and cultural order The New Deal order of the prison was unstable from the start the politics of punishment quickly became the politics of race and social exclusion and efforts to save liberal reform in postwar New York only deepened its failures In 1977 inmates took hostages to focus attention on their grievances The result was stricter discipline and an end to any pretense that Coxsackie was a reform institution Why did the prison fail For answers Spillane immerses readers in the changing culture and racial makeup of the U S prison system and borrows from studies of colonial prisons which emblemized efforts by an exploitative regime to impose cultural and racial restraint on others In today's era of mass incarceration prisons have become conflict ridden warehouses and powerful symbols of racism and inequality This account challenges the conventional wisdom that America's prison crisis is of comparatively recent vintage showing instead how a racial and punitive system of control emerged from the ashes of a progressive ideal

Prison Work William Richard Wilkinson, 2005 What do we know first hand about prisons We have accounts from many top administrators There is a large literature of convict reports and memoirs But we have almost no personal accounts written by the people who were engaged in the day to day work of guarding and keeping prison inmates In *Prison Work* former California prisons corrections officer William Richard Wilkinson candidly tells what it was like to try to handle problems that can arise in prison from furnishing three meals a day to quelling a riot Constructed around a series of interviews with Wilkinson this book recounts his extensive experience with discipline problems wrong headed administrators contraband and escapes Wilkinson's story presents a blunt unabashed view of daily life in prison including fascinating discussions of racial and religious conflict gangs and prison violence as well as the institutional culture and more human side of life as experienced by a prison employee The duration of Wilkinson's career 1951-1981 saw the greatest change in the

American prison system He was responsible for implementing change on the level of the prison block At the California Institution for Men in Chino he started out under the inspiring leadership of one of the most famous reform figures in penology At the California Medical Facility in Vacaville he participated in one of the great prison experiments when medical officials ran a maximum security prison And at Soledad he experienced the reaction to earlier liberal policies Over the years he accumulated much wisdom concerning how to handle convicts wisdom that still has importance for corrections workers

The Recovery Revolution Claire D. Clark, 2017-05-02 In the 1960s as illegal drug use grew from a fringe issue to a pervasive public concern a new industry arose to treat the addiction epidemic Over the next five decades the industry's leaders promised to rehabilitate the casualties of the drug culture even as incarceration rates for drug related offenses climbed In this history of addiction treatment Claire D Clark traces the political shift from the radical communitarianism of the 1960s to the conservatism of the Reagan era uncovering the forgotten origins of today's recovery movement Based on extensive interviews with drug rehabilitation professionals and archival research *The Recovery Revolution* locates the history of treatment activists influence on the development of American drug policy Synanon a

controversial drug treatment program launched in California in 1958 emphasized a community based approach to rehabilitation Its associates helped develop the therapeutic community TC model which encouraged peer confrontation as a path to recovery As TC treatment pioneers made mutual aid profitable the model attracted powerful supporters and spread rapidly throughout the country The TC approach was supported as part of the Nixon administration s law and order policies favored in the Reagan administration s antidrug campaigns and remained relevant amid the turbulent drug policies of the late twentieth and early twenty first centuries While many contemporary critics characterize American drug policy as simply the expression of moralizing conservatism or a mask for racial oppression Clark recounts the complicated legacy of the ex addict activists who turned drug treatment into both a product and a political symbol that promoted the impossible dream of a drug free America
