Prisoners Of War From Gallipoli To Korea:

Prisoners of War Patsy Adam-Smith, 1992 Tells the stories of Australian prisoners of war largely through pictures and their own words Includes a list of further reading and an index Joint winner of the 1992 TAGE Book of the Year Award The author's previous books include *The Shearers* *Australian Women at War* *Hear the Train Blow* and *The Anzacs* which was joint winner of the 1978 TAGE Book of the Year Award **Prisoners of War** Patsy Adam-Smith, 1992 *The Prisoners of War and German High Command* V. Vourkoutiotis, 2003-07-08 Based on archival research in Germany Great Britain the USA and Canada this study provides the first complete examination of the relationship between the Oberkommando der Wehrmacht German Armed Forces High Command and Anglo American prisoners of war German military policy is compared with reports of almost one thousand visits by Red Cross and Protecting Power inspectors to the camps allowing the reader to judge how well the policies were actually put into practice and what their impact was on the lives of the captured soldiers sailors and airmen **Cultural Heritage and Prisoners of War** Gilly Carr, Harold Mytum, 2012-04-27 This book focuses on the numerous examples of creativity produced by POWs and civilian internees during their captivity including paintings cartoons craftwork needlework acting musical compositions magazine and newspaper articles wood carving and recycled Red Cross tins turned into plates mugs and makeshift stoves all which have previously received little attention The authors of this volume show the wide potential of such items to inform us about the daily life and struggle for survival behind barbed wire Previously dismissed as items which could only serve to illustrate POW memoirs and diaries this book argues for a central role of all items of creativity in helping us to understand the true experience of life in captivity The international authors draw upon a rich seam of material from their own case studies of POW and civilian internment camps across the world to offer a range of interpretations of this diverse and extraordinary material **Remembered Prisoners of a Forgotten War** Lewis H. Carlson, 2025-06-25 *Remembered Prisoners of a Forgotten War* presents a devastating oral history of Korean War POWs The Korean War POW remains the most maligned victim of all American wars For nearly half a century the media general public and even scholars have described hundreds of these prisoners as brainwashed victims who uncharacteristically caved in to their Communist captors or even worse as turncoats who betrayed their fellow soldiers In either case these boys apparently lacked the right stuff required of our brave sons Here at long last is a chance to hear the true story of these courageous men in their own words a story that until now has gone largely untold Dr Carlson debunks many of the popular myths of Korean War POWs in this devastating oral history that is as compelling and moving as it is informative From the Tiger Death March to the paranoia here at home Korean POWs suffered injustices on a scale few can comprehend More than 40 percent of the 7 140 Americans taken prisoner died in captivity and as haunting tales of the survivors unfold it becomes clear that the goal of these men was simply to survive under the most terrible conditions Each survivor's story is a unique and personal experience from missionary teacher Larry Zeller's imprisonment in the death cells of Pyongyang and his first encounter with the

infamous killer known as The Tiger to Rubin Townsend's daring escape from a death march by jumping off a bridge in a blinding snowstorm From capture to forced marches isolation permanent camps and torture Remembered Prisoners of a Forgotten War is one of the most fascinating and disturbing books on the Korean War in years and a brutally honest account of the Korean POW experience in the survivors own words Prisoners of the Japanese Roger Bourke, 2006 Between December 1941 and May 1942 the Japanese army took more than 130 000 allied prisoners of war more than a quarter did not survive their imprisonment Here Bourke analyses the major novels and films of the prisoners of war experience under the Japanese and uncovers the extent to which these fictions have influenced our beliefs *Forgotten Captives in Japanese-Occupied Asia* Kevin Blackburn, Karl Hack, 2007-12-14 Using archival oral and literary sources Blackburn and Hack along with an impressive team of international contributors rectify the obscured picture of the Japanese captive by bringing together for the first time a collection of essays covering an extremely broad range of forgotten captives **Australian POWs** David Coombes, 2021-02-03 Comrades in distress we were and it was now that one felt the existence of a brotherhood that establishes itself in circumstances of this kind A few of the men are very dejected and appear to be losing all interest in themselves their habits and practices not being approved by the majority In some cases for the most miserable reward they cringe to the Germans for the chance of being of some service others also despite the fact their bodies can ill afford the sacrifice trade their boots and other clothing in exchange for food and smokes This is regrettable but censure has no effect on the few Most of us have resolved to maintain some sort of dignity though tis difficult So wrote Australian prisoner of war POW Corporal Lancelot Davies who was captured at the First Battle of Bullecourt on 11 April 1917 where Allied forces were badly smashed up Davies was one of almost 1 200 Australians captured that day facing an uncertain future at the hands of their German captors he described the future as blank and unpredictable The experiences of Australian prisoners of war POWs or Kriegsgefangenen held captive in Germany has been largely forgotten or ignored overshadowed by the horrid stories of Australians imprisoned by the Japanese during World War Two Yet as David Coombes makes known the stories are interesting and significant not only providing an account of what those young Australian soldiers experienced and the spirit they showed in responding to captivity but also for the insight it provides into Germany in the last eighteen months of the war Coombes draws upon previous inaccessible records including the interviews conducted many years before by Chalk as well as private papers and unpublished manuscripts He paints a vivid picture of young soldiers who survived the trauma of battle only to find themselves facing an unknown fate at the hands of an often vindictive and cruel enemy These comrades in distress many wounded and traumatised by trench warfare quickly discovered the bond of brotherhood often the key to survival in a harsh environment with little food poor medical treatment back breaking work and the anguish of confinement What emerges in the pages of this amazingly detailed account is the typical Australian sense of humour and the sheer will to live that marked these men Above all it was their determination to be free and to return once more to their families that

ensured their survival often against overwhelming odds Crossing the Wire is a fitting tribute to the World War One soldiers and POWs David Coombes highlights the ordeals these men went through their stoicism in enduring their mistreatment and the fearlessness of a few in launching ingenious attempts to escape He proves beyond doubt that their stories are by no means less compelling than those of their World War II brothers **Captive Anzacs** Kate Ariotti,2018-05 Captive Anzacs explores the experiences of the 198 Australians who became prisoners of the Ottomans during the First World War Kate Ariotti intertwines rich detail from letters diaries and other personal papers with official records to provide a comprehensive nuanced account of this aspect of Australian war history The Battle Within Christina Twomey,2018-02-01
