Privacy Patricia Meyer Spacks, 2003-06 And perhaps most important she explores the idea of privacy as a societal threat one that bred pretense and hypocrisy in its practitioners Through inspired readings of novels by Defoe Richardson Fielding and Sterne along with a penetrating glimpse into diaries autobiographies poems and works of pornography written during the period Spacks ultimately shows how writers charted the imaginative possibilities of privacy and its social repercussions

The Classical Liberal Case for Privacy in a World of Surveillance and Technological Change Chris Berg, 2018-09-21 How should a free society protect privacy Dramatic changes in national security law and surveillance as well as technological changes from social media to smart cities mean that our ideas about privacy and its protection are being challenged like never before In this interdisciplinary book Chris Berg explores what classical liberal approaches to privacy can bring to current debates about surveillance encryption and new financial technologies Ultimately he argues that the principles of classical liberalism the rule of law individual rights property and entrepreneurial evolution can help extend as well as critique contemporary philosophical theories of privacy

Imagining New Legalities Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2012-03-14 *Imagining New Legalities* reminds us that examining the right to privacy and the public private distinction is an important way of mapping the forms and limits of power that can legitimately be exercised by collective bodies over individuals and by governments over their citizens This book does not seek to provide a comprehensive overview of threats to privacy and rejoinders to them Instead it considers several different conceptions of privacy and provides examples of legal inventiveness in confronting some contemporary challenges to the public private distinction It provides a context for that consideration by surveying the meanings of privacy in three domains the first involving intimacy and intimate relations the second implicating criminal procedure in particular the 4th amendment and the third addressing control of information in the digital age The first two provide examples of what are taken to be classic breaches of the public private distinction namely instances when

government intrudes in an area claimed to be private The third has to do with voluntary circulation of information and the question of who gets to control what happens to and with that information Madam Britannia Emma Major,2012 Using Britannia as a central figure this book explores the neglected relationship between women church and nation It argues that Britannia became established as an emblem of nation from 1688 and gained in importance over the following century It draws on an exciting range of material to explore the extent and significance of women s involvement in debates about the new British nation and the Church of England Discussing a wide range of printed sources including letters poetry novels plays journals sermons devotional literature political tracts and travel writing it also uses manuscript sources and frontspieces paintings drawings and graphicsatire to bring to life debates about identity faith and nation Writers discussed include Elizabeth Burnet Elizabeth Carter Catherine Talbot Samuel Richardson Thomas Amory Samuel Foote Elizabeth Montagu Hester Lynch Thrale Piozzi Anna Laetitia Barbauld Hannah More along with images by William Hogarth John Flaxman Francis Hayman James Gillray and the Cruikshanks The Rise of the Novel Nicholas Seager,2017-09-16 Why have scholars located the emergence of the novel in eighteenth century England What historical forces and stylistic developments helped to turn a disreputable type of writing into an eminent literary form This Reader s Guide explores the key critical debates and theories about the rising novel from eighteenth century assessments through to present day concerns Nicholas Seager Surveys major criticism on authors such as Aphra Behn Daniel Defoe Samuel Richardson Henry Fielding and Jane Austen Covers a range of critical approaches and topics including feminism historicism postcolonialism and print culture Demonstrates how critical work is interrelated allowing readers to discern trends in the critical conversation Approachable and stimulating this is an invaluable introduction for anyone studying the origins of the novel and the surrounding body of scholarship **Longing** Tamara S. Wagner,2004 By revealing the origins of common misunderstandings about nostalgia this book aims moreover to show that it creatively fosters a personal and imaginative memory Jacket *Public Parts* Jeff Jarvis,2011-09-27 A visionary and optimistic thinker examines the tension between privacy and publicness that is transforming how we form communities create identities do business and live our lives Thanks to the internet we now live more and more in public More than 750 million people and half of all Americans use Facebook where we share a billion times a day The collective voice of Twitter echoes instantly 100 million times daily from Tahrir Square to the Mall of America on subjects that range from democratic reform to unfolding natural disasters to celebrity gossip New tools let us share our photos videos purchases knowledge friendships locations and lives Yet change brings fear and many people nostalgic for a more homogeneous mass culture and provoked by well meaning advocates for privacy despair that the internet and how we share there is making us dumber crasser distracted and vulnerable to threats of all kinds But not Jeff Jarvis In this shibboleth destroying book Public Parts argues persuasively and personally that the internet and our new sense of publicness are in fact doing the opposite Jarvis travels back in time to show the amazing parallels of fear and resistance that met the advent of

other innovations such as the camera and the printing press The internet he argues will change business society and life as profoundly as Gutenberg s invention shifting power from old institutions to us all Based on extensive interviews Public Parts introduces us to the men and women building a new industry based on sharing Some of them have become household names Facebook s Mark Zuckerberg Google s Eric Schmidt and Twitter s Evan Williams Others may soon be recognized as the industrialists philosophers and designers of our future Jarvis explores the promising ways in which the internet and publicness allow us to collaborate think ways how we manufacture and market buy and sell organize and govern teach and learn He also examines the necessity as well as the limits of privacy in an effort to understand and thus protect it This new and open era has already profoundly disrupted economies industries laws ethics childhood and many other facets of our daily lives But the change has just begun The shape of the future is not assured The amazing new tools of publicness can be used to good ends and bad The choices and the responsibilities lie with us Jarvis makes an urgent case that the future of the internet what one technologist calls the eighth continent requires as much protection as the physical space we share the air we breathe and the rights we afford one another It is a space of the public for the public and by the public It needs protection and respect from all of us As Secretary of State Hillary Clinton said in the wake of the uprisings in the Middle East If people around the world are going to come together every day online and have a safe and productive experience we need a shared vision to guide us Jeff Jarvis has that vision and will be that guide **Making British Culture** David Allan,2008-05-09

Making British Culture explores an under appreciated factor in the emergence of a recognisably British culture Specifically it examines the experiences of English readers between around 1707 and 1830 as they grappled in a variety of circumstances with the great effusion of Scottish authorship including the hard edged intellectual achievements of David Hume Adam Smith and William Robertson as well as the more accessible contributions of poets like Robert Burns and Walter Scott that distinguished the age of the Enlightenment British Women's Life Writing, 1760-1840 A. Culley,2014-07-22 **British Women s Life Writing 1760 1840** brings together for the first time a wide range of print and manuscript sources to demonstrate women s innovative approach to self representation It examines canonical writers such as Mary Wollstonecraft Mary Robinson and Helen Maria Williams amongst others
