Changing Governance and Public Policy in East Asia Ka Ho Mok, Ray Forrest, 2008-11-24 This book offers critical analysis of the search for new governance in Asia comparing and contrasting the experiences of different Asian societies including China Japan Hong Kong Singapore Taiwan South Korea Malaysia and Thailand *The Fate of Cities* Roger Biles, 2011 The first major comprehensive treatment of urban revitalization in 35 years Examines the federal government's relationship with urban America from the Truman through the Clinton administrations Provides a telling critique of how in the long run government turned a blind eye to the fate of cities **Public Policy and the Public Interest** Lok-sang Ho, 2013-07-03 As a book on public policy this book is unique in addressing explicitly the role of human nature Only with a good understanding of human nature can policy makers address their foremost needs and anticipate how people may respond to specific designs in policy This way policy makers can avoid unintended consequences The book also provides a new perspective on the meaning of public interest which is based on intellectual roots dating back to J S Mill and more recently Harsanyi and Rawls Traditionally economists have referred to either the Hicksian criterion or the Kaldorian criterion as the yardstick to whether a policy is welfare enhancing not realizing that both of these criteria fail abjectly in producing a convincing test for welfare improvement This is because ex post typically some people will gain and some people will lose from any policy The author argues for an alternative ex ante welfare increase criterion that is based on how people would assess a policy if they were completely impartial and totally ignored their personal interests It applies the principles to key policy concerns such as health policy tort law reform education and cultural policy and pension reform The healthcare reform proposals in the book illustrate the application of the principles The author proposes a basic protection plan under which standard basic healthcare services are priced the same whether they are provided by public or private caregivers at levels that can contain both demand side and supply side moral hazard Annual eligible healthcare expenses are capped to alleviate worries A Lifetime Healthcare Supplement that includes an element of risk sharing adds to patients choice and protection without compromising fiscal sustainability **Understanding Mobility as a Service (MaaS)** David A.
