Private Enterprise and Public Intervention Arthur William Knight, 1974 **Industrial Policies--strategy Debate Since 1970**, 1985 **Subject Catalog** Library of Congress, **Political Responsibility and Industry** Edmund Dell, 2024-12-02
First published in 1973 *Political Responsibility and Industry* discusses the nature of industrial policy and the capacity of the British governmental system to conduct it This theme is illustrated by particular examples of the working of government industry relations with which the author was intimately connected such as the aluminium smelter project and the textile industry enquiry and by discussion of particular instruments of industrial policy such as the Industrial Reorganisation Corporation and the Geddes Report on shipbuilding The author is critical of the tendency to regard industrial policy as some new catalyst of industrial growth He describes it at its best as simply casework in the public interest In a penetrating analysis of the machinery of government in Britain he shows that this is inadequate as an instrument for the effective control of industrial policy This in turn leads on to a discussion of the myth of ministerial responsibility which the author suggests rather than locating effective responsibility for policy ensures that it is not located anywhere at all The arguments presented should be of interest not only to those concerned with Government industry relations but to anyone worried about the working of Parliamentary government in Britain **British Industry and the North Sea** Michael Jenkin, 1981-06-18

English Culture and the Decline of the Industrial Spirit, 1850-1980 Martin J. Wiener, 2004-09-13 Drawing upon a wide array of sources Martin Wiener explores the English ambivalence to modern industrial society **Public Administration Series--Bibliography**, 1985-11 *Institutions and the Evolution of Modern Business* Mark Casson, Mary B. Rose, 2014-01-14 The papers in this volume demonstrate that it can be fruitful to apply institutional theory to business history In addition the volume shows that the wider study of the institutional environment is inseparable from the study of business It is clear however that although institutionalism in business history has a long pedigree many areas of research and potential interaction with theory remain to be explored The extent to which this will occur inevitably depends upon the degree to which the interests of theoreticians serve the needs of historians and vice versa **Capitalism in Contention** Jonathan Boswell, James Peters, 1997-11-06 Examining the ideas of British business leaders on political economic and ethical issues since 1960 this book draws on hitherto unexplored records wide ranging interviews and biographical narrative and conceptual approaches and aims to shed new light on the Wilson Heath and Thatcher periods the mixed economy and the New Right the peak representative organisations of business and business relationships with government The authors intend to show how three main tendencies of business thinking have struggled for influence with radically differing visions of the role of business in society They argue that although elite business ideas were often obscured they did make a distinctive contribution to public policy business thinking and the development of capitalism in Britain **Conservative Economic Policymaking and the Birth of Thatcherism, 1964-1979** Adrian Williamson, 2016-01-12 In this book Adrian Williamson

investigates the processes by which Thatcherism became established in Tory thinking and questions to what extent the politician herself is responsible for Thatcherism within the Conservative Party
