Inventions of Difference Rodolphe Gasché, 1994 Rodolphe Gasché one of the world's foremost and most provocative authorities on Jacques Derrida has news for deconstruction's devotees whose traffic in the terms of difference signals privileged access to the most radically chic of intellectual circles they do not know their Derrida A deconstruction of the criticism that goes by deconstruction's name this book reveals the true philosophical nature of Derrida's thought its debt to the tradition it engages and its misuse by some of its most fervent admirers Gasché's *Inventions of Difference* explodes the current myth of Derrida's singularity and sets in its place a finely informed sense of the philosopher's genuine accomplishment Derrida's recent turn from philosophical concerns to matters literary historical and political has misled many of his self-styled followers Gasché contends Though less overtly philosophical Derrida's later writings can be properly understood only in relation to a certain philosophical tradition which *Inventions of Difference* cogently traces Gasché shows that terms like difference and other are devoid of meaning outside the context of identity a context that draws not only on Husserl's phenomenology and Heidegger's writings but also on the work of Hegel By setting forth this affinity with Hegel Gasché clarifies the philosophical weight and direction of Derrida's recent work and the philosophical engagement of his larger project His book puts a stop to the loose talk of deconstruction and points to the real rigors and pleasures of knowing Derrida

The Real of Reality: The Realist Turn in Contemporary Film Theory, 2021-08-30 This book provides philosophical insight into the nature of reality by reflecting on

its ontological qualities through the medium of film The main question is whether we have access to reality through film that is not based on visual representation or narration Is film in spite of its immateriality a way to directly grasp and reproduce reality Why do we perceive film as real at all What does it mean to define its own reproducibility as an ontological feature of reality And what does film as a medium exactly show The contributions in this book provide from a cinematic perspective diverse philosophical analyses to the understanding of the challenging concept of the real of reality
