Private Justice:

Private Justice Stuart Henry, 2015-07-30 This book first published in 1983 looks at discipline in industry and shows how private justice is integrally bound up with formal law It is a timely examination of the forms of social control that exist ostensibly outside the formal legal system but on which it crucially depends *Private Justice Towards Integrated Theorising in the Sociology of Law* will be of interest to students of law sociology and criminology Dr Stuart Henry is currently Professor and Director of the School of Public Affairs at San Diego State University where he has been since 2006 Since leaving Trent Polytechnic now Nottingham Trent University in 1983 he has held positions in the United States at Eastern Michigan University Wayne State University and the University of Texas at Arlington He is the author or editor of 30 books and over 100 articles on crime deviance and social control

The Unity of the Common Law Alan Brudner, 2013-10-03 In this classic study Alan Brudner investigates the basic structure of the common law of transactions For decades that structure has been the subject of intense debate between formalists who say that transactional law is a private law for interacting parties and functionalists who say that it is a public law serving the collective ends of society Against both camps Brudner proposes a synthesis of formalism and functionalism in which private law is modified by a common good without being subservient to it Drawing on Hegel's legal philosophy the author exhibits this synthesis in each of transactional law's main divisions property contract unjust enrichment and tort Each is a whole composed of private law and public law parts that complement each other and the idea connecting the parts to each other is also latently present in each Moreover Brudner argues a single narrative thread connects the divisions of transactional law to each other Not a row of disconnected fields transactional law is rather a story about the realization in law of the agent's claim to be a dignified end master of its body its acquisitions and the shape of its life Transactional law's divisions are stages in the progress toward that goal each generating a potential developed by the next Thus contract law fulfils what is incompletely realized in property law negligence law what is germinal in contract law public insurance what is seminal in negligence law and transactional law as a whole what is underdeveloped in public insurance The end point is the limit of what a transactional law can contribute to a life sufficient for dignity Reconfigured and expanded with a contribution by Jennifer Nadler *The Unity of the Common Law* stands out among contemporary theories of private law in that it depicts private law as purposive without being instrumental and as autonomous without being emptily formal

What Works for Crime Victims Alline Pedra Jorge, 2021-01-26 After the Second World War the role of the victim in criminal conflict became an object of interest for academics But it was only in the 1960s that the importance of providing protection and assistance to crime victims was highlighted in particular by the victims movement which inaugurated a new era of criminal justice in systems throughout the world Moving beyond just the role of controlling crime and punishing the offender the criminal justice system also began to contribute to the victims rehabilitation and to help the victim to move on from the event psychologically and emotionally Although some criminological research was conducted on this topic the effect that the criminal justice system and victim support services have on the well being of crime victims is still uncertain The current study sought to understand the healing process of victims of crime the potential consequences of their participation on the criminal justice system and the support of victim centers Moreover it aimed to find out whether the existence of a Victim Support Act would change the treatment that the victim receives in the criminal justice system Thus this research was conducted based in two countries Switzerland and Brazil where the outcome of the victims movement on the criminal justice system was different as was the participation of the victim in the criminal justice system and the government's provision of support In order to conduct this research the qualitative method was employed which is the most efficient to gather sensitive information Interviews with crime victims were the main source of information Hearing observation and document research were used as complementary sources The results of this research show that victims who have contact with the criminal justice system and victim services are not more likely to recover than those who had no contact This is to say the support offered has no major effects the influence of the criminal justice system and the victim support services in the emotional well being of crime victims is rather neutral However considering that the sample is not representative findings are not expected to be generalized Instead findings may give insight to practitioners or to future criminal justice policy makers suggesting what may work to improve the emotional well being of crime victims as well as suggesting further studies

Justice and Power in Sociolegal Studies Bryant G. Garth, Austin Sarat, 1998 Justice and Power in the Sociolegal Studies asks what interdisciplinary work in the law and society tradition tells us about the relationship of law and justice as well as the way power operates in and through law The fundamental concepts of justice and power provide points of departure for leading

scholars to explore the various domains of socio legal research As they note the explicitness of the engagement with issues of power and the relative silence about or indirectness in taking on questions of justice found in most law and society research they ask how engagement with issues of power and silence about justice constituted law and society as a research field caught between a desire to have political impact and at the same time to maintain its scientific respectability **The**
