Radical Islam Rising Muslim Extremism In The West:

Radical Islam Rising Quintan Wiktorowicz, 2005-07-21 This unique book represents one of the first systematic attempts to explain why thousands of Westerners heed international calls to jihad and join radical Islamic groups Drawing on his unprecedented access to a radical Islamic group Quintan Wiktorowicz details the subtle process that can turn seemingly unreligious people into supporters of religious violence The author's extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail the case study explains the larger question of why ordinary people join extremist movements

Radical Islam and International Security Efraim Inbar, Hillel Frisch, 2007-12-12 Radical Islam poses a political challenge in the modern world which is like that of no other radical religious movement Ideologically it is perceived by Western policy makers as threatening the liberal democratic ideology by which most states in the West abide and which most other states rhetorically espouse This book serves as a welcome addition to the intellectual and policy debate on the nature of the radical Islam phenomenon and how to respond to it The collection is divided into three parts the first part seeks to understand the Islamic challenge in broad comparative and historical terms while the second part deals with specific regional case studies which seek to identify patterns of uniformity and variation in radical Islam across a wide swath of terrain The third part is policy oriented suggesting possible responses to the Islamic challenge The contributors include distinguished researchers from Europe North America and the Middle East This book will be of much interest to students of Islamism political violence international security and Middle Eastern politics

'Home-grown' Jihad: Understanding Islamist Terrorism In The Us And Uk Samuel John Mullins, 2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid

analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike **The Politics of Terrorism and Counterterrorism in Bangladesh** Saimum Parvez, Mohammad Sajjadur Rahman, 2022-12-30 This book examines contemporary issues and debates of terrorism in Bangladesh including national and transnational terrorist outfits operating within the country their narratives and counternarratives ideologues women and the youth media representation counterterrorism laws and challenges Bangladesh is a fascinating and often paradoxical case study for terrorism studies The book examines major terrorist groups in contemporary Bangladesh and their international connections and narratives as well as a case study of an influential ideologue who encouraged some Bangladeshis to engage in violence The chapters discuss how women and youth play a role in Bangladeshi terrorism how the internet is used for recruiting terrorists the discourses of the media and state regarding terrorism as well as the politics of law and counterterrorism initiatives including critically evaluating non state actors and government responses In addition to providing an up to date analysis of terrorism and counterterrorism in Bangladesh this book offers a balanced and unbiased perspective on this subject It will appeal to academics and international policymakers who are researching violence and extremism in South Asia *ISIS and the Pornography of Violence* Simon

members within the party Factors such as institutional and non institutional opportunities within the Indonesian political system HTI s resource mobilization strategies and the anti systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party s growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general
