Radio Nation Communication Popular Culture And Nationalism In Mexico 1920 1950

Matthew Lasar

Radio Nation Communication Popular Culture And Nationalism In Mexico 1920 1950:

Radio Nation Joy Elizabeth Hayes, 2020-04-21 The role of mass communication in nation building has often been underestimated particularly in the case of Mexico Following the Revolution the Mexican government used the new medium of radio to promote national identity and build support for the new regime Joy Hayes now tells how an emerging country became a radio nation This groundbreaking book investigates the intersection of radio broadcasting and nation building Hayes tells how both government controlled and private radio stations produced programs of distinctly Mexican folk and popular music as a means of drawing the country's regions together and countering the influence of U S broadcasts Hayes describes how both during and after the period of cultural revolution Mexican radio broadcasting was shaped by the clash and collaboration of different social forces including U S interests Mexican media entrepreneurs state institutions and radio audiences She traces the evolution of Mexican radio in case studies that focus on such subjects as early government broadcasting activities the role of Mexico City media elites the paternal voice of presidential addresses and U S propaganda during World War II More than narrative history Hayes's study provides an analytical framework for understanding the role of radio in building Mexican nationalism at a critical time in that nation's history *Radio Nation* expands our appreciation of an overlooked medium that changed the course of an entire country [Cultural Nationalism and Ethnic Music in Latin America](#)

William H. Beezley, 2018-10-15 Music has been critical to national identity in Latin America especially since the worldwide emphasis on nations and cultural identity that followed World War I Unlike European countries with unified ethnic populations Latin American nations claimed blended ethnicities indigenous Caucasian African and Asian and the process of national stereotyping that began in the 1920s drew on themes of indigenous and African cultures Composers and performers drew on the folklore and heritage of ethnic and immigrant groups in different nations to produce what became the music representative of different countries Mexico became the nation of mariachi bands Argentina the land of the tango Brazil the country of Samba and Cuba the island of Afro Cuban rhythms including the rhumba The essays collected here offer a useful introduction to the twin themes of music and national identity and melodies and ethnic identification The contributors examine a variety of countries where powerful historical movements were shaped intentionally by music *Sound in the Age of Mechanical Reproduction* David Suisman, Susan Strasser, 2011-10-11 During the twentieth century sound underwent a dramatic transformation as new technologies and social practices challenged conventional aural experience As a result sound functioned as a means to exert social cultural and political power in unprecedented and unexpected ways The fleeting nature of sound has long made it a difficult topic for historical study but innovative scholars have recently begun to analyze the sonic traces of the past using innovative approaches *Sound in the Age of Mechanical Reproduction* investigates sound as part of the social construction of historical experience and as an element of the sensory relationship people have to the world showing how hearing and listening can inform people's feelings ideas decisions and actions The essays in *Sound in the Age of*

Mechanical Reproduction uncover the varying dimensions of sound in twentieth century history Together they connect a host of disparate concerns from issues of gender and technology to contests over intellectual property and government regulation Topics covered range from debates over listening practices and good citizenship in the 1930s to Tokyo Rose and Axis radio propaganda during World War II to CB radio culture on the freeways of Los Angeles in the 1970s These and other studies reveal the contingent nature of aural experience and demonstrate how a better grasp of the culture of sound can enhance our understanding of the past

Unrevolutionary Mexico Paul Gillingham, 2021-05-25 An essential history of how the Mexican Revolution gave way to a unique one party state In this book Paul Gillingham addresses how the Mexican Revolution 1910 1940 gave way to a capitalist dictatorship of exceptional resilience where a single party ruled for seventy one years Yet while soldiers seized power across the rest of Latin America in Mexico it was civilians who formed governments moving punctiliously in and out of office through uninterrupted elections Drawing on two decades of archival research Gillingham uses the political and social evolution of the states of Guerrero and Veracruz as starting points to explore this unique authoritarian state that thrived not despite but because of its contradictions Mexico during the pivotal decades of the mid twentieth century is revealed as a place where soldiers prevented military rule a single party lost its own rigged elections corruption fostered legitimacy violence was despised but decisive and a potentially suffocating propaganda coexisted with a critical press and a disbelieving public

A Companion to Mexican History and Culture William H. Beezley, 2011-03-16 A Companion to Mexican History and Culture features 40 essays contributed by international scholars that incorporate ethnic gender environmental and cultural studies to reveal a richer portrait of the Mexican experience from the earliest peoples to the present Features the latest scholarship on Mexican history and culture by an array of international scholars Essays are separated into sections on the four major chronological eras Discusses recent historical interpretations with critical historiographical sources and is enriched by cultural analysis ethnic and gender studies and visual evidence The first volume to incorporate a discussion of popular music in political analysis This book is the recipient of the 2013 Michael C Meyer Special Recognition Award from the Rocky Mountain Conference on Latin American Studies

Sounds of Belonging Dolores Ines Casillas, 2014-10-17 How Spanish language radio has influenced American and Latino discourse on key current affairs issues such as citizenship and immigration Winner Book of the Year presented by the American Association of Hispanics in Higher Education Honorable Mention for the 2015 Latino Studies Best Book presented by the Latin American Studies Association The last two decades have produced continued Latino population growth and marked shifts in both communications and immigration policy Since the 1990s Spanish language radio has dethroned English language radio stations in major cities across the United States taking over the number one spot in Los Angeles Houston Miami and New York City Investigating the cultural and political history of U S Spanish language broadcasts throughout the twentieth century *Sounds of Belonging* reveals how these changes have helped Spanish language radio secure its dominance in the

major U S radio markets Bringing together theories on the immigration experience with sound and radio studies Dolores In s Casillas documents how Latinos form listening relationships with Spanish language radio programming Using a vast array of sources from print culture and industry journals to sound archives of radio programming she reflects on institutional growth the evolution of programming genres and reception by the radio industry and listeners to map the trajectory of Spanish language radio from its grassroots origins to the current corporate sponsored business it has become Casillas focuses on Latinos use of Spanish language radio to help navigate their immigrant experiences with U S institutions for example in broadcasting discussions about immigration policies while providing anonymity for a legally vulnerable listenership Sounds of Belonging proposes that debates of citizenship are not always formal personal appeals but a collective experience heard loudly through broadcast radio

Building the Fourth Estate Chappell Lawson, 2002-08-05 *Building the Fourth Estate* reveals the crucial part played by the Mexican media in the country s remarkable recent political transformation Based on an in depth examination of Mexico s print and broadcast media over the last twenty five years Chappell Lawson traces the role of the media in that country s move toward democracy demonstrating the reciprocal relationship between changes in the press and changes in the political system In addition to illuminating the nature of political change in Mexico Lawson s findings have broad implications for understanding the role of the mass media in democratization around the world from back cover

Radio 2.0 Matthew Lasar, 2016-03-14 Welcome to the uncertain world of Radio 2 0 where podcasts mobile streaming and huge music databases are the new reality as are tweeting deejays and Apple s Siri serving as music announcer and understand the exciting status this medium has and will continue to have in our digitally inclined society How did popular radio in past decades from President Franklin D Roosevelt s Fireside Chats in the 1930s through Top 40 music and Rush Limbaugh s talk radio empire shape American society How did devices and systems like the iPhone Pandora and YouTube turn the radio industry upside down Does radio still have a future and if so what will we want it to look like Radio 2 0 Uploading the First Broadcast Medium covers the history and evolution of Internet radio explaining what came before where Internet radio came from and where it is likely headed It also gives readers a frame of reference by describing radio from its introduction to American audiences in the 1920s a medium that brought people together through a common experience of the same broadcast and shows how technologies like digital music and streaming music services put into question the very definition of radio By examining new radio and media technologies the book explores an important societal trend the shift of media toward individualized or personalized forms of consumption

This Is Jerusalem Calling Andrea L. Stanton, 2013-09-01 Stanton s analysis of radio as a new tool of the colonial state contributes a great deal to studies of Mandate Palestine and imperialism *Journal of Palestinian Studies* Modeled after the BBC the Palestine Broadcasting Service was launched in 1936 to serve as the national radio station of Mandate Palestine playing a pivotal role in shaping the culture of the emerging middle class in the region Despite its significance the PBS has become nearly forgotten by scholars of

twentieth century Middle Eastern studies Drawn extensively from British and Israeli archival sources *This Is Jerusalem Calling* traces the compelling history of the PBS's twelve years of operation illuminating crucial aspects of a period when Jewish and Arab national movements simultaneously took form Andrea L Stanton describes the ways in which the mandate government used broadcasting to cater to varied audiences including rural Arab listeners in an attempt to promote a modern vision of Arab Palestine as an urbane politically sophisticated region In addition to programming designed for the education of the peasantry religious broadcasting was created to appeal to all three main faith communities in Palestine which ultimately may have had a disintegrating separatist effect Stanton's research brings to light the manifestation of Britain's attempts to prepare its mandate state for self governance while supporting the aims of Zionists While the PBS did not create the conflict between Arab Palestinians and Zionists the service reflected articulated and magnified such tensions during an era when radio broadcasting was becoming a key communication tool for emerging national identities around the globe

The Routledge Companion to Sound Studies Michael Bull, 2018-10-29 The Routledge Companion to Sound Studies is an extensive volume presenting a comparative and historically informed understanding of the workings of sound in culture while also mapping potential future directions for research in the field Experts from a variety of disciplines within sound studies cover such diverse topics as politics gender media race literature and sport Individual sections that consider the importance of sound in an increasingly mediated world the role that sound media play in the construction of experience and the ways in which sound has been theorized to produce a distinctive sensory contribution to knowledge This wide ranging and vibrant collection provides a rich resource for scholars and students of media and culture
