Air Power Supremo William Pyke, 2022-04-13 Sir John Slessor was one of the twentieth century's most distinguished wartime commanders and incisive military thinkers and William Pyke's comprehensive new biography reveals how he earned this remarkable reputation Slessor a polio victim who always walked with a stick became a First World War pilot in the Sudan and on the Western Front and a squadron and wing commander in India between the wars When aerial warfare was still a new concept he was one of the first to develop practical tactics and strategies in its application In the Second World War as the Commander in Chief of Coastal Command during the Battle of the Atlantic and the RAF in the Mediterranean during the Italian and Balkan campaigns he made a remarkable contribution to the success of Allied air power Then after the war as a senior commander he established himself as one of the foremost experts on strategic bombing and nuclear deterrence That is why this insightful biography of a great British airman and his achievements is so timely and important as we enter a new era of strategic doubts and deterrence at the beginning of the twenty first century William Pyke follows each stage of Slessor's brilliant career as a pilot and commander in vivid detail In particular he concentrates on Slessor's writings from his treatise on the application of air power in support of land armies to his thinking on nuclear deterrence and Western strategy
