Heath Robinson, 1935 **Railway Ribaldry, Etc. [Drawings.].** William Heath Robinson, 1935 **The GWR Handbook** David Wragg, 2017-08-01 For many the GWR was synonymous with holidays by the sea in the West Country but it was built to serve as a fast railway line to London especially for the merchants and financiers of Bristol Its operations stretched as far as Merseyside it provided most services in Wales and it was the main line to Cardiff Bristol Cornwall and Birmingham This book a classic first published in 2006 reveals the equipment stations network shipping and air services bus operations including Western National and overall reach and history of the GWR Forming part of a series along with The LMS Handbook The LNER Handbook and The Southern Railway Handbook this new edition provides an authoritative and highly detailed reference of information about the GWR **The Railway Haters** David L. Brandon, Alan Brooke, 2019-04-30 This unique social history examines 200 years of controversy surrounding British Railways from the dawn of industrialization to contemporary light rail During the Industrial Revolution the power of landowning aristocrats was challenged by the emergent wealth and influence of the urban middle class There was no greater symbol of this seismic shift in society than the British Railways Companies Railways with their powers of compulsory purchase intruded brutally into the previously sacrosanct estates and pleasure grounds of Britain's traditional ruling elite Aesthetes like Ruskin and poets like Wordsworth ranted against railways Sabbatarians attacked them for providing employment on the Lord's Day antiquarians accused them of vandalism by destroying ancient buildings others claimed their noise would make cows abort and chickens cease laying And while the complaints have certainly changed railways have continued to provoke debate ever since Arguments have raged over railway nationalization and privatization about the Beeching Plan to increase efficiency and around urban light rail systems Examining railways from their beginnings to the present this book provides insights into social economic and political attitudes and emphasizes both change and continuity over 200 years Railways and Culture in Britain Ian Carter, 2001 The 19th century steam railway epitomized modernity's relentlessly onrushing advance Ian Carter delves into the cultural impact of the train Why for example did Britain possess no great railway novel He compares fiction and images by canonical British figures Turner Dickens Arnold Bennett with selected French and Russian competitors Tolstoy Zola

Monet Manet He argues that while high cultural work on the British steam railway is thin British popular culture did not ignore it Detailed discussions of comic fiction crime fiction and cartoons reveal a popular fascination with railways tumbling from vast and hitherto unexplored stores of critically overlooked genres

Night Mail Scott Anthony,2019-07-25 Night Mail 1936 is one of the best loved and best known films in the canon of British documentary cinema Bringing together the creative talents of Harry Watt Basil Wright W H Auden and Benjamin Britten the film gave John Grierson s documentary school its first popular success Its collectivist politics and its peculiarly modest brand of modernism is as redolent of the inter war age as Agatha Christie Penguin Books or The Shell Guides But it was also a corporate promo part of a publicity campaign initiated by Clement Attlee to stave off Post Office part privatisation and to improve the morale of postal workers Scott Anthony s study provides a lively appreciation of this vivid witty and often just plain eccentric masterpiece In doing so he uncovers the remarkable stories of civic minded idealism creative intrigue and political trickery that underpin this classic documentary

record breakers and mighty achievements waiting to be retold to a modern age Public relations and the making of modern Britain Scott Anthony, 2018-04-30 Public relations was established in Britain by a group of liberal intellectuals in the aftermath of the slump Central to the startling story of Britain's early public relations pioneers is Sir Stephen Tallents the inaugural President of the Institute of Public Relations Tallents was a public sector entrepreneur who lent his patronage to John Grierson's documentary film movement the BBC Overseas Service the development of Listener Research and the staging of the Festival of Britain A compelling portrait of how the social economic and media revolutions of early twentieth century reshaped national life Public relations and the making of modern Britain reveals a country struggling to cope with austerity and crisis that is at once very different from and yet surprisingly similar to our own This book includes the first reprint of Tallents influential *The Projection of England* for over fifty years It will interest students and scholars of media studies and modern British culture history and politics Railway Gazette, 1935 *Computer Control and Human Error* Trevor Kletz, 1995-09-18 *Computer Control and Human Error* presents accounts of various incidents at computer controlled plants These incidents include equipment and software faults treating the computer as a black box misjudging the way operators respond to the computer errors in the data entry failure to inform operators of changes in data or programs and unauthorized interference with peripheral equipment The discussion then turns to the use of hazard and operability studies Hazops to prevent or reduce errors in computer controlled plants The book describes the conventional Hazop as used in the process industry and an overview of the different Hazop frameworks guidelines suggested by engineers and researchers It then presents new Hazop methodology which is based on incident analysis The final chapter presents reasons for failures in computerized systems each of which is illustrated with an example Most of the examples did not cause an actual safety problem simply because they occurred within systems that are not safety related Some of these examples appear in the literature others are from personal experience or from private communications *The Trains Now Departed* Michael Williams, 2015-05-07 SOMETIMES you come across a lofty railway viaduct marooned in the middle of a remote country landscape Or a crumbling platform from some once bustling junction buried under the buddleia If you are lucky you might be able to follow some rusting tracks or explore an old tunnel leading to well who knows where Listen hard Is that the wind in the undergrowth Or the spectre of a train from a golden era of the past panting up the embankment These are the ghosts of *The Trains Now Departed* They are the railway lines and services that ran on them that have disappeared and gone forever Our lost legacy includes lines prematurely axed often with a gripping and colourful tale of their own as well as marvels of locomotive engineering sent to the scrapyard and grand termini felled by the wrecker's ball Then there are the lost delights of train travel such as haute cuisine in the dining car the grand expresses with their evocative names and continental boat trains to romantic far off places *The Trains Now Departed* tells the stories of some of the most fascinating lost trains of Britain vividly evoking the glories of a bygone age In his personal odyssey around Britain Michael Williams tells the tales of

the pioneers who built the tracks the yarns of the men and women who operated them and the colourful trains that ran on them It is a journey into the soul of our railways summoning up a magic which although mired in time is fortunately not lost for ever THIS EDITION REVISED AND UPDATED TO INCLUDE MAPS
