Roger Zelazny A Primary And Secondary Bibliography:

Roger Zelazny, a Primary and Secondary Bibliography Joseph L. Sanders, 1980 *Roger Zelazny* F. Brett Cox, 2021-05-11 Challenging convention with the SF nonconformist Roger Zelazny combined poetic prose with fearless literary ambition to become one of the most influential science fiction writers of the 1960s Yet many critics found his later novels underachieving and his turn to fantasy a disappointment F Brett Cox surveys the landscape of Zelazny's creative life and contradictions Launched by the classic 1963 short story *A Rose for Ecclesiastes* Zelazny soon won the Hugo Award for Best Novel with *And Call Me Conrad* and two years later won again for *Lord of Light* Cox looks at the author's overnight success and follows Zelazny into a period of continued formal experimentation the commercial triumph of the *Amber* sword and sorcery novels and renewed acclaim for Hugo winning novellas such as *Home Is the Hangman* and *24 Views of Mt Fuji* by Hokusai Throughout Cox analyzes aspects of Zelazny's art from his preference for poetically alienated protagonists to the ways his plots reflected his determined individualism Clear eyed and detailed Roger Zelazny provides an up to date reconsideration of an often misunderstood SF maverick *Robert Silverberg, a Primary and Secondary Bibliography* Thomas D. Clareson, 1983 **Andre Norton, a Primary and Secondary Bibliography** Roger C. Schlobin, 1980 *Science Fiction Literature through History* Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics authors works and subgenres written by a distinguished scholar This encyclopedia deals with written science fiction in all of its forms not only novels and short stories but also mediums often ignored in other reference books such as plays poems comic books and graphic novels Some science fiction films television programs and video games are also mentioned particularly when they are relevant to written texts Its focus is on science fiction in the English language though due attention is given to international authors whose works have been frequently translated into English Since science fiction became a recognized genre and greatly expanded in the 20th century works published in the 20th and 21st centuries are most frequently discussed though important earlier works are not neglected The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field *Modern Retellings of Chivalric Texts* Gloria Allaire, 2018-12-21 Published in 1999 the ten essays in this collection identify and examine reworkings of identifiable source texts from the medieval or Renaissance periods The reasons for the modern adaptations depend variously on an individual author's personal perspectives the worldview of his or her society and the individual's place in it The various chapters therefore address issues such as why a particular model was chosen and how its retelling depends on the modern author's misreading or rereading of medieval chivalric conventions This book compliments numerous existing studies of medievalism in the Enlightenment and Victorian eras by examining more recent adaptations of the much studied Arthurian romances but primarily extends the discussion on the nature of revivals to other medieval or Renaissance chivalric texts

especially the Carolingian cycle epic The collection includes not only literary retellings of medieval texts but also some in different media such as theatre and cinema
