Bucciferro has assembled a collection of essays that draw from work in communication cultural studies and media studies. With contributions from a diverse group of scholars the chapters analyze issues that include gender sexuality disability class and race. The contributors pose intriguing questions about the franchise such as What do mutants really represent? What role do women and people of color play in the narratives? Why does it matter that Professor X is disabled? Why is Mystique often shown naked? What facilitated Wolverine's rise to prominence? And how do topics regarding identity trauma and bioethics figure in the stories? Exploring issues relevant for a multicultural world and connecting thematic elements from the films to political debates and social struggles the book seeks to make a thoughtful contribution to the scholarship of popular culture. The X-Men Films will appeal to media scholars and students as well as to anyone interested in the X-Men series.
