years of the war Paul an engineering graduate from Yale joins the Army as a second lieutenant to begin an eventful career as a code breaker radar designer and rocket man He takes part in two of the war s little known but highly significant secret missions that led to America s dominance in outer space The four heroes connect in ways the reader learns as the story unfolds The author scrutinizes various forms of discrimination from misogyny to anti-Semitism and examines forgotten aspects of the war such as the incarceration of American citizens of German and Italian descent the exchange of German for American prisoners in Sweden and legacy of American POW camps And each hero has a love story to tell Reboot! Phil Burgess, 2011-08 Reboot to work retirement is a disease It s better to wear out than rust out That is the message of Reboot While American culture glamorizes the Golden Years of endless leisure and amusement Phil Burgess rejects retirement as he makes the case for returning to work in the post career years a time he calls later life Based on solid research from the social and medical sciences the author says It is better to die with your boots on fully engaged in helping others and repairing the world Reboot is partly autobiographical Indeed the author is working well into his own post career years following two failed retirements He is also convincing in his eye opening historically rooted and hope filled arguments for engaging in life long work that is productive and satisfying Reboot identifies five different types of work in kind volunteer Samaritan enrichment and paid work Booters who incorporate one or more of these types of work into their post career lifestyle will according to Burgess live longer live better and die faster avoiding boredom aimless busy ness diminished self worth and the anguish and cost of lingering death With America s 78 million boomers turning 65 at the rate of 10 000 a day for the next 18 years Reboot provides a timely and provocative alternative to the conventional idea of retirement With the promises of Social Security and Medicare about to be broken Reboot provides an upbeat and constructive way to deal with new financial realities For men and women navigating life s transitions striving to finish well Reboot provides a roadmap for living a life of meaning challenging the reader to be a booter not a retiree Burgess boldly asserts that retirement is a deadly disease and that work after a life of work is the best option for post career years that are meaningful productive healthy and satisfying See www.BooterNation.com Excerpts On retirement Not all ideas are good ideas Some are bad ideas Retirement is one of those bad ideas it makes no sense Retirement is not natural It is not historic It is not healthy It is not for most people fulfilling For many retirement is a widow maker On the value of work The social engagement and satisfaction that come from working in later life are keys to successful aging There is much work to do in this world where we are but temporary inhabitants We should find it and do it at least for as long as we re able In many ways our life depends on it On work and money Work is not only about money Even if you don t need the money and your financial situation is stable and comfortable returning to work in your post career life is the smart thing to do at least until sidelined by frailty or disability It s smart because good health and satisfaction in later life are most likely to come from working On different types of work For most of us post career work will be tailored work work customized to reflect our needs our deepest desires and the highest and best use of our gifts especially

time talent and treasure Work tailored to our gifts will be productive and satisfying Rolf Gardiner: Folk, Nature and Culture in Interwar Britain Mike Tyldesley, Professor Matthew Jefferies, 2013-07-28 Folk dancer forester poet and visionary Rolf Gardiner 1902-71 is both a compelling and troubling figure in the history of twentieth century Britain While he is celebrated as a pioneer of organic farming and co-founder of the Soil Association Gardiner's organicist outlook was not confined to agriculture alone Convinced that a healthy culture and society could only flourish when it was rooted in the soil Gardiner sought national regeneration too One of the most colourful and controversial figures of the interwar period Gardiner believed Britain's future lay not with its doomed empire but in ever closer union with its kin folk kin-tongued neighbours in Germany the Netherlands and Scandinavia Fascinated by the Weimar Republic's myriad youth leagues and life reform movements Gardiner became an important conduit between North Sea and Baltic Yet while an enthusiasm for hiking nudism folk dancing and voluntary labour camps must have appeared harmlessly eccentric to many in 1920s Britain by the late 1930s Gardiner's continued engagement with Germany was to have altogether darker connotations This volume which brings together seven scholars currently working on different aspects of Gardiner's life and work eschews a straightforwardly biographical approach and instead focuses on the decades when he was at his most dynamic and radical Situating Gardiner within the wider political and cultural contexts of the interwar years and exploring youth culture the origins of the organic movement Anglo-German relations and British cultural history it is an essential addition to modern history libraries *Michigan Authors*, 1993

Why Learn History (When It's Already on Your Phone) Sam Wineburg, 2018-09-17 A look at how to teach history in the age of easily accessible but not always reliable information Let's start with two truths about our era that are so inescapable as to have become clichés We are surrounded by more readily available information than ever before And a huge percent of it is inaccurate Some of the bad info is well meaning but ignorant Some of it is deliberately deceptive All of it is pernicious With the Internet at our fingertips what's a teacher of history to do In *Why Learn History When It's Already on Your Phone* professor Sam Wineburg has the answers beginning with this We can't stick to the same old read the chapter answer the question snoozefest If we want to educate citizens who can separate fact from fake we have to equip them with new tools Historical thinking Wineburg shows has nothing to do with the ability to memorize facts Instead it's an orientation to the world that cultivates reasoned skepticism and counters our tendency to confirm our biases Wineburg lays out a mine filled landscape but one that with care attention and awareness we can learn to navigate The future of the past may rest on our screens But its fate rests in our hands Praise for *Why Learn History When It's Already on Your Phone* If every K 12 teacher of history and social studies read just three chapters of this book Crazy for History Changing History One Classroom
