Translating Warhol Reva Wolf, 2024-07-11 The first study of the translations of Andy Warhol s writing and ideas Translating Warhol reveals how translation has alternately censored exposed or otherwise affected the presentation of his political and social positions and attitudes and in turn the value we place on his art and person Andy Warhol is one of the most influential artists of the 20th century and a vast global literature about Warhol and his work exists Yet almost nothing has been written about the role of translations of his words in his international reputation Translating Warhol fills this gap developing the topic in multiple directions and in the context of the reception of Warhol s work in various countries The numerous translations of Warhol s writings words and ideas offer a fertile case study of how American art was and is viewed from the outside Both historical and theoretical aspects of translation are taken up and individual chapters discuss French German Italian and Swedish translations Warhol s translations of his mother s native Rusyn language and culture the Indian artist Bhupen Khakhar s performative translations of Warhol and Warhol as translated for documentary television Translating Warhol offers a fascinating multi faceted perspective on Warhol contributing to our understanding of his place in history as well as to translation theory and inter cultural exchange

PaintingDigitalPhotography Carl Robinson, 2019-01-29 We live in a digital age where the mediums of art are inextricably bound to the binary code and painting and photography are redefined in their interconnected relationship through digital reconfiguration As digitisation unmoors these mediums from their traditional supports their modes of production display and dissemination shift These changes bring about new ways of creating and engaging with artworks Through this the innate qualities of the mediums previously anchored in their analogue nature are re evaluated through their connection with the digital Born out of the PaintingDigitalPhotography conference held at QUAD Derby UK in May 2017 this anthology of essays investigates aspects of interconnectivity between painting digital and photography in contemporary art practices It contributes to critical discourses around networks of associations by examining where syntheses occur and differences remain between these mediums at the beginning of the twenty first century
