N G Chernyshevskii:

What is to be Done? Nikolay Gavrilovich Chernyshevsky, 1961 **What Is to Be Done?** Nikolai

Chernyshevsky, 2014-05-30 No work in modern literature with the possible exception of Uncle Tom's Cabin can compete with What Is to Be Done in its effect on human lives and its power to make history For Chernyshevsky's novel far more than Marx's Capital supplied the emotional dynamic that eventually went to make the Russian Revolution The Southern Review Almost from the moment of its publication in 1863 Nikolai Chernyshevsky's novel What Is to Be Done had a profound impact on the course of Russian literature and politics The idealized image it offered of dedicated and self-sacrificing intellectuals transforming society by means of scientific knowledge served as a model of inspiration for Russia's revolutionary intelligentsia On the one hand the novel's condemnation of moderate reform helped to bring about the irrevocable break between radical intellectuals and liberal reformers on the other Chernyshevsky's socialist vision polarized conservatives opposition to institutional reform Lenin himself called Chernyshevsky the greatest and most talented representative of socialism before Marx and the controversy surrounding What Is to Be Done exacerbated the conflicts that eventually led to the Russian Revolution Michael R Katz's readable and compelling translation is now the definitive unabridged English language version brilliantly capturing the extraordinary qualities of the original William G Wagner has provided full annotations to Chernyshevsky's allusions and references and to the sources of his ideas and has appended a critical bibliography An introduction by Katz and Wagner places the novel in the context of nineteenth century Russian social political and intellectual history and literature and explores its importance for several generations of Russian radicals **A**

Writer's Diary Volume 1 Fyodor Dostoevsky, 1997-07-20 Winner of the AATSEEL Outstanding Translation Award This is the first paperback edition of the complete collection of writings that has been called Dostoevsky's boldest experiment with literary form it is a uniquely encyclopedic forum of fictional and nonfictional genres The Diary's radical format was matched by the extreme range of its contents In a single frame it incorporated an astonishing variety of material short stories humorous sketches reports on sensational crimes historical predictions portraits of famous people autobiographical pieces and plans for stories some of which were never written while others appeared in the Diary itself Materialism and

Empirio-criticism Vladimir Il'ich Lenin, 1927 **Revisiting Russian Radicals** Andrew M. Drozd, Brendan G.

Mooney, 2024-12-13 Revisiting Russian Radicals is a collection of ten articles that seeks to promote a revisitation of the Russian Radicals who have been somewhat unjustly forgotten in the aftermath of the fall of the Soviet Union Rather than viewing the radicals through the lens of the 1917 October Revolution the authors seek to analyze them on their own terms and explore new aspects of their legacy The chapters provide a fresh look at some well known radicals like Chernyshevsky Dobrolyubov and Pisarev as well as examinations of lesser known figures and offer an interdisciplinary approach to their investigations combining historical and literary analysis A lengthy introduction is included for those who are non Slavists and

for the newer generation of Slavists who may not be as familiar with these figures **N.G. Chernyshevsky, an Intellectual Biography** Norman G. O. Pereira, 1970 *The Mathematical Mind of F. M. Dostoevsky* Michael Marsh-Soloway, 2024-11-19 The Mathematical Mind of F M Dostoevsky Imaginary Numbers Non Euclidean Geometry and Infinity reconstructs the curriculum and readings that F M Dostoevsky encountered during his studies and connects such sources to the mathematical references and themes in his published works Prior to becoming a man of letters Dostoevsky studied at the Main Engineering School in St Petersburg from 1838 to 1843 After he was arrested submitted to mock execution by firing squad and sentenced to penal servitude in Siberia for his involvement in the revolutionary Petrashevsky Circle in 1849 most of his books and journals from the period of his education were confiscated and destroyed by the Third Section of the Russian Secret Police Although most scholars discount the legacy of his engineering studies the literary aesthetics of his works communicate an acute awareness of mathematical principles and debates This book unearths subtexts in works by Dostoevsky communicating veins of mathematical thought that evolved throughout Classical Antiquity the Renaissance and the Scientific Revolution History of Management Thought Vadim I. Marshev, 2021-01-13 This book describes the millennia long process of the genesis formation struggle and change of views on the management of social organizations in various countries around the world in other words it characterizes the worldwide evolution of the History of Management Thought HMT ideas concepts theories paradigms and scientific schools from Antiquity to the present The book is the outcome of extensive research based on the analysis generalization and systematization of foreign and domestic published literature as well as on the gathering and analysis of unique archival materials For the first time in the historical and managerial literature the book puts forward original definitions of three historical and managerial sciences the History of Management the History of Management Thought and the Historiography of Historical and Managerial Research It addresses the main challenges in pursuing Historical and Scientific Research HSR the main subject levels of HSR and specific methodological problems concerning HMT as well as epistemological methods for identifying key factors in and causes of the advent and evolution of HMT This book presents both the origins of management thought dating back to the 5th millennium BC and the latest management concepts of the early 21st century In particular it traces the origins and sources of management thought reflected in the works of thinkers and statesmen of the Ancient World Egypt Western Asia China India Greece and Rome the era of feudalism and the Middle Ages Byzantium Western Europe and England the era of inception capitalism Western Europe and the USA as well as the new and recent history of management thought of the 20th and 21st centuries In addition for the first time in History of Management literature it presents the history of Russian management thought from the 9th century to modern concepts and scientific schools *The Rise of the Russian Novel* Richard Freeborn, 1973-01-04 This introduction to the study of the Russian novel demonstrates how the form evolved from imitative beginnings to the point in the 1860s when it reached maturity and established itself as part of the European tradition

Professor Freeborn considers selected novels by Pushkin Lermontov Gogol Dostoyevsky and Tolstoy Extended introductory sections to the studies of Dostoyevsk and Tolstoy deal with their earlier works A final chapter summarises the principal points of contrast between Crime and Punishment and War and Peace and argues that in certain specific ways they represent the peaks in the evolution of the form of the Russian novel Quotations are translated but key passages are also given in the original Professor Freeborn treats the novel as a literary form and avoids the overworked formulae on which much historical writing on Russian literature has been based He is concerned with the literary development of a great form
