Nabis Bonnard Vuillard And Their Circle

Claire Frèches-Thory, Antoine Terrasse

Nabis Bonnard Vuillard And Their Circle:

The Nabis Claire Frèches-Thory, Antoine Terrasse, 1990 Inspired by contemporary Symbolist theory and the art of Paul Gauguin the Nabis set out to revolutionize traditional aesthetics turning their talents to painting printmaking posters book illustration textiles furniture and theatre design Their common aim was to make art part of everyday life [The Nabis and Intimate Modernism](#) Katherine M. Kuenzli, 2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sérus and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres [The Nabis and Intimate Modernism](#) is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority

Bonnard and the Nabis Albert Kostenevitch, 2012-05-08 Pierre Bonnard was the leader of a group of post impressionist painters who called themselves the Nabis from the Hebrew word meaning prophet Bonnard Vuillard Roussel and Denis the most distinguished of the Nabis revolutionized the spirit of decorative techniques during one of the richest periods in the history of French painting Influenced by Odilon Redon and Puvis de Chavanne by popular imagery and Japanese etchings this post impressionist group was above all a close circle of friends who shared the same cultural background and interests An increasing individualism in their art often threatened the group s unity and although tied together by a common philosophy their work clearly diverged This publication lets us compare and put into perspective the artists within this fascinating group The works presented in this collection offer a palette of extraordinary poetic expressions candid in Bonnard ornamental and mysterious in Vuillard gently dream like in Denis grim and almost bitter in Vallotton the author shares with us the lives of these artists to the very source of their creative gifts

Nature's Experiments and the Search for Symbolist Form Allison Morehead, 2017-02-27 This provocative study argues that some of the most inventive artwork of the 1890s was strongly influenced by the methods of experimental science and ultimately foreshadowed twentieth century modernist practices Looking at avant garde figures such as Maurice Denis Edouard Vuillard August Strindberg and Edvard Munch Allison Morehead considers the conjunction of art making and experimentalism to illuminate how artists

echoed the spirit of an increasingly explorative scientific culture in their work and processes She shows how the concept of nature's experiments the belief that the study of pathologies led to an understanding of scientific truths above all about the human mind and body extended from the scientific realm into the world of art underpinned artists' solutions to the problem of symbolist form and provided a ready-made methodology for fin de siècle truth seekers By using experimental methods to transform symbolist theories into visual form these artists broke from naturalist modes and interrogated concepts such as deformation automatism the arabesque and madness to create modern works that were radically and usefully strange Focusing on the scientific psychological and experimental tactics of symbolism *Nature's Experiments and the Search for Symbolist Form* demystifies the avant-garde value of experimentation and reveals new and important insights into a foundational period for the development of European modernism

Radical Art and the Formation of the Avant-Garde David Cottington, 2022-03-08 An authoritative redefinition of the social cultural and visual history of the emergence of the avant-garde in Paris and London Over the past fifty years the term avant-garde has come to shape discussions of European culture and modernity ubiquitously taken for granted but rarely defined This ground-breaking book develops an original and searching methodology that fundamentally reconfigures the social cultural and visual context of the emergence of the artistic avant-garde in Paris and London before 1915 bringing the material history of its formation into clearer and more detailed focus than ever before Drawing on a wealth of disciplinary evidence from socio-economics to histories of sexuality bohemia consumerism politics and popular culture David Cottington explores the different models of cultural collectivity in and presumed hierarchies between these two focal cities while identifying points of ideological influence and difference between them He reveals the avant-garde to be at once complicit with resistant to and a product of the modernizing forces of professionalization challenging the conventional wisdom on this moment of cultural formation and offering the means to reset the terms of avant-garde studies

Medievalism in Technology Old and New Karl Fugelso, Carol L. Robinson, 2008 Medievalism examined in a variety of genres from fairy tales to today's computer games As medievalism is refracted through new media it is often radically transformed Yet it inevitably retains at least some common denominators with more traditional responses to the middle ages This latest volume of *Studies in Medievalism* explores this phenomenon with a special section on computer games examining digital echoes of the medieval past in subjects ranging from the sovereign ethics of empire in *Star Wars* to gender identity in on-line role playing Medievalism in more conventional venues is also addressed ranging from early French fairy tales to nineteenth-century neo-Byzantine murals Great innovation and extraordinary continuity are thus juxtaposed not only within each article but also across the volume as a whole in yet further testimony to the exceptional flexibility and enduring relevance of medievalism

the Nineteenth Century Laura Morowitz, William Vaughan, 2017-11-01 This title was first published in 2000 The nineteenth century saw the emergence of numerous artistic brotherhoods groups of artists bound together in communal production sharing spiritual and aesthetic aims Although it is widely acknowledged that this is an unique feature of the period there has not previously been a separate study of the phenomenon This collection of essays provides a thorough and wide ranging exploration of the issue Situating artistic brotherhoods within their historical context it offers unique insights into the social political economic and cultural milieu of the nineteenth century It focuses on the most celebrated and influential brotherhoods while also bringing to light lesser known or forgotten artists The essays explore the artistic fraternity from a wide variety of perspectives probing issues of gender identity professional practices and artistic formation in Europe and the United States This book investigates the Nazarenes the Pre Raphaelites the Russian Abramatsova the Primitifs the Nabis as well as other leading groups The book contains a substantial introduction which establishes the key questions and issues surrounding the phenomena of the artistic brotherhood including their relation to the larger artistic community their association with other social and political organizations of the period and the ways in which mythologies have been built around them in subsequent histories and recollections of the period

Beyond the Easel Gloria Lynn Groom, Nicholas Watkins, Jennifer Paoletti, Thérèse Barruel, Metropolitan Museum of Art (New York, N.Y.), 2001-01-01 The Contributions of Artists Pierre Bonnard Edouard Vuillard Maurice Denis and Ker Xavier Roussel to the French avant garde of the 1890s as members of the Nabis are widely recognized What is less known about these artists careers is their extraordinary work in decorative painting work on a large or unusual scale for private interiors This illustrated book focuses on the many decorative works carried out by the four artists between 1890 and 1930 During these years they moved beyond the narrow parameters of easel painting and applied their wholly untraditional aesthetic of decoration to a wide range of works for domestic interiors from wall size ensembles to folding screens The cosmopolitan group of patrons who made this work possible ranged from the avant garde circle of La Revue Blanche to prominent members of the French establishment An examination of their role and tastes is another fascinating feature of this publication The book and accompanying exhibition reunite paintings that have long been dispersed introducing contemporary viewers to a group of bold and evocative works which had a wide ranging though little recognized influence on modern art As the book s authors argue the aesthetic embodied by these works indeed helped set the stage for the large non narrative paintings by artists as diverse as Rothko and Lichtenstein that came to dominate the avant garde after World War II
