Core Labour Standards and International Trade Kofi Addo, 2014-11-24 This book examines the labour standards provisions in a number of Regional and Bilateral Trade

Agreements and assesses the potential of using the relevant clauses in these trade agreements as a benchmark for a multilateral approach Based on the lessons learned from the Regional model the book proposes a Global Labour and Trade Framework Agreement GLTFA combined with a joint ILO WTO enforcement mechanism to resolve the contentious issue of the link between the CLS and international trade The history of the linkage between the Core Labour Standards CLS and international trade dates back roughly 150 years and has recently become one of the most vexing issues facing policy makers At the heart of the debate is the question whether or not trade sanctions should be imposed on countries that do not respect the CLS as embodied in multilateral conventions administered by the International Labour Organization ILO Concretely this would entail inserting a social clause in the World Trade Organization WTO rules and would trigger the imposition of sanctions on those countries that do not adhere to the CLS
