Understanding and Deploying LDAP Directory Services Tim Howes, Mark Smith, Gordon S. Good, 2003 Lightweight Directory Access Protocol LDAP is the standard for directory information access and is the underlying protocol for a variety of email systems Web systems and enterprise applications LDAP enables central management of users groups devices and other data thereby simplifying directory management and reducing the total cost of ownership Understanding and Deploying LDAP Directory Services written by the creators of the protocol is known as the LDAP bible and is the classic text for learning about LDAP and how to utilize it effectively The Second Edition builds on this success by acting as an exhaustive resource for designing deploying and maintaining LDAP directory services Topics such as implementation pitfalls establishing and maintaining user access to information troubleshooting and real world scenarios will be thoroughly explored

Deploying OpenLDAP Tom Jackiewicz, 2007-03-01 Focuses on open standards rather than proprietary systems which are expensive and incompatible with other systems Can be used by someone who already knows advanced programming and implementation but doesn't understand how everything fits together Scripting for network administrators who want to perform tasks but aren't necessarily programmers

The ABCs of LDAP Reinhard E. Voglmaier, 2003-11-13 This book explores the use of Lightweight Directory Access Protocol LDAP as an efficient protocol It combines all of the relevant information available on the Internet along with a number of arguments treated in the various books that are available and provides many examples of LDAP code

LDAP Metadirectory Provisioning Methodology Marlin Pohlman, 2003 Annotation This work provides system architects a methodology for the implementation of x 500 and LDAP based metadirectory provisioning systems In addition this work assists in the business process analysis that accompanies any deployment
