Naming The Birds

James A. Jobling

Naming The Birds:

Naming the Birds , *Naming the Birds at a Glance* Lou Blachly,Randolph Jenks,1963 **Helm Dictionary of Scientific Bird Names** James A. Jobling,2010-06-30 A comprehensive dictionary of the meaning and derivation of scientific bird names Many scientific bird names describe a bird s habits habitat distribution or a plumage feature while others are named after their discoverers or in honour of prominent ornithologists This extraordinary work of reference lists the generic and specific name for almost every species of bird in the world and gives its meaning and derivation In the case of eponyms brief biographical details are provided for each of the personalities commemorated in the scientific names This fascinating book is an outstanding source of information which will both educate and inform and may even help to understand birds better *Bird is the Word* Gary H. Meiter,2020 More than 900 species of birds are known from North America an avifauna made up of native year round residents and seasonal migrants modestly enhanced by introduced exotics and neighboring vagrants Bird Is the Word is an unequalled compilation of the names of almost 800 of those birds and the record of how when where and by whom those names were created and became parts of the history and science of North America s avifauna This book is made up of three parts Part I provides an introduction to the discovery and recording of North American birds by Europeans and to the scope and structure of avian taxonomy Part II which consists of 26 chapters and makes up most of the book is devoted to the names of the individual species and the historical and cultural context of those names Part III includes three appendixes the largest of which introduces more than a hundred naturalists and other persons who participated searching for finding recording naming describing or illustrating the birds of North America Bird Is the Word is a rich and readily accessible collection of information about finding and naming the birds of North America It is much more than a reference book it is a journey of discovery that will enrich the reader s birding experience [Australian Bird Names](#) Ian Fraser,Jeannie Gray,2019-09-02 This second edition of Australian Bird Names is a completely updated checklist of Australian birds and the meanings behind their common and scientific names which may be useful useless or downright misleading For each species the authors examine the many and varied common names and full scientific name with derivation translation and a guide to pronunciation Stories behind the name are included as well as relevant aspects of biology conservation and history Original descriptions translated by the authors have been sourced for many species As well as being a book about names this is a book about the history of the ever developing understanding of birds about the people who contributed to this understanding and most of all about the birds themselves This second edition has been revised to follow current taxonomy and understanding of the relationships between families genera and species It contains new taxa updated text and new vagrants and will be interesting reading for anyone with a love of birds words or the history of Australian biology and bird watching **The Bird Name Book** Susan Myers,2022-10-25 A marvelously illustrated A to Z compendium of bird names from around the globe The Bird Name Book is an alphabetical reference book on the origins and meanings of common group

bird names from accentor to zeledonia A cornucopia of engaging facts and anecdotes this superbly researched compendium presents a wealth of incisive entries alongside stunning photos by the author and beautiful historic prints and watercolors Myers provides brief biographies of prominent figures in ornithology such as John Gould John Latham Alfred Newton and Robert Ridgway and goes on to describe the etymological history of every common group bird name found in standardized English She interweaves the stories behind the names with quotes from publications dating back to the 1400s illuminating the shared evolution of language and our relationships with birds and rooting the names in the history of ornithological discovery Whether you are a well traveled birder or have ever wondered how the birds in your backyard got their names The Bird Name Book is an ideal companion

Birds in Sanskrit Literature K. N. Dave, 2005-01-01 In his monumental research in ancient sanskrit literature the author has restored gaps in lexicons and removed doubts in the later sanskrit works about the identity of a very large number of birds of the Indian sub continent The ancient sages of India were great lovers of nature with keen powers of observation and an extraordinary sensitivity about animal behaviour The Vedas Puranas Epics and Samhitas are full of descriptions of birds animals and plants but the exact identification of names had got lost or confounded over the centuries

The Eponym Dictionary of Birds Bo Beolens, Michael Watkins, Michael Grayson, 2020-03-19 A comprehensive dictionary listing all the people whose names are commemorated in the English and scientific names of birds Birdwatchers often come across bird names that include a person's name either in the vernacular English name or latinised in the scientific nomenclature Such names are properly called eponyms and few people will not have been curious as to who some of these people were or are Names such as Darwin Wallace Audubon Gould and Gilbert White are well known to most people Keener birders will have yearned to see Pallas's Warbler Hume's Owl Swainson's Thrush Steller's Eider or Brunnich's Guillemot But few people today will have even heard of Albertina's Myna Barraband's Parrot Guerin's Helmetcrest or Savigny's Eagle Owl This extraordinary work lists more than 4 000 eponymous names covering 10 000 genera species and subspecies of birds Every taxon with an eponymous vernacular or scientific name whether in current usage or not is listed followed by a concise biography of the person concerned These entries vary in length from a few lines to several paragraphs depending on the availability of information or the importance of the individual's legacy The text is punctuated with intriguing or little known facts unearthed in the course of the authors extensive research Ornithologists will find this an invaluable reference especially to sort out birds named after people with identical surnames or in situations where only a person's forenames are used But all birders will find much of interest in this fascinating volume a book to dip into time and time again whenever their curiosity is aroused

Naming The Birds Introduction

In today's digital age, the availability of Naming The Birds books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Naming The Birds books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Naming The Birds books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Naming The Birds versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Naming The Birds books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Naming The Birds books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Naming The Birds books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library.

lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Naming The Birds books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Naming The Birds books and manuals for download and embark on your journey of knowledge?
