ever elected surpassed the number of male MPs in a single parliament The achievements of these political pioneers have been remarkable Britain has now had two female Prime Ministers and women MPs have made significant strides in fighting for gender equality from the earliest suffrage campaigns to Barbara Castle's fight for equal pay to Harriet Harman's recent legislation on the gender pay gap Yet the stories of so many women MPs have too often been overlooked in political histories In this book Rachel Reeves brings forgotten MPs out of the shadows and looks at the many battles fought by the Women of Westminster from 1919 to 2019 Nancy Astor Maurice Collis, 1982 *The Cliveden Set* Norman Rose, 2011-02-28 Lloyd George once spoke of a very powerful combination in its way the most powerful in the country Its proceedings were invariably conducted at Cliveden the country estate of the fabulously wealthy Nancy and Waldorf Astor Collectively dubbed God's Truth Ltd the group included leading politicians academics writers and newspaper editors Its pedigree impeccable its social standing beyond reproach its persuasive powers permeated the clubs and institutions of London the senior common rooms of Oxbridge colleges the quality press and the great country houses of England Suddenly in the late 1930s the Cliveden Set was catapulted into uncalled for notoriety It had been identified as a cabal that sought to manipulate even determine British foreign policy in order to uphold its narrow class interests It would use any means however devious even negotiate a humiliating dishonourable settlement with Nazi Germany to maintain its privileges those of a decaying ruling class But was the Cliveden Set a traitorous cabal challenging the constitutional structures of British democracy or simply an unstructured think tank of harmless do gooders Norman Rose discerningly probes this fascinating tale brilliantly disentangling fact from fiction and setting this privileged clique in the wider perspective of its times **The 20th Century A-GI** Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **Black Apollo of Science** Kenneth R. Manning, 1985-01-03 This biography illuminates the racial attitudes of an elite group of American scientists and foundation officers It is the story of a complex and unhappy man It blends social institutional black and political history with the history of science
