Nanxun Legacy And Chinas Development In The Postdeng Era:

The Nanxun Legacy And China's Development In The Post-deng Era John Wong, Yongnian Zheng, 2001-06-14 In the spring of 1992 Deng Xiaoping made a historical tour of south China popularly known as the Nanxun southern tour During the tour he boldly called for more radical economic reform and further opening up of China The Nanxun has become a political landmark in the history of the People s Republic of China much like great events such as the Great Leap Forward the Cultural Revolution and the 1989 Tiananmen crackdown Deng Xiaoping has left his own legacy for the country The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat sen and the communist revolution to Mao Zedong In this collection of articles leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country

China's Post-Jiang Leadership Succession John Wong, 2002 As the 16th Congress of the Chinese Communist Party October 1st 2002 draws near China watchers in Washington Tokyo Taipei and many other places have their eyes intently fixed on the political scene in Beijing Most are predicting problems involved in the transition process as well as speculating on the final leadership line up Nevertheless such speculation is intellectually rather futile To avoid being too speculative the contributors to this book have focused instead on two key aspects of China s leadership transition first changes in the politics of leadership transition and second real and potential problems and challenges that China s younger fourth generation leaders have to grapple when they take over

Zhu Rongji And China's Economic Take-off John Wong, 2016-04-25 Following Deng Xiaoping s economic reform and opening Gaige Kaifang policy China experienced unprecedented high growth for over three decades Crucial in the process was the role of Zhu Rongji who was hand picked by Deng initially as Executive Vice Premier and later full Premier to carry through the needed reform and manage the critical marketization process through the turbulent 1990s when China s economy suffered many ups and downs Dubbed as China s Economic Czar Zhu tackled many thorny problems associated with the country s then half reformed economy ably and effectively thereby laying the ground for subsequent periods of greater dynamic growth Zhu was instrumental in preparing China s economy for its final take off The chapters in this volume were originally written as policy briefings for the Singapore government from 1997 to 2003 when Zhu was Premier They cover a wide variety of topics including how he had applied his own way of macroeconomic control Hongguan Tiaokong how he went about reforming taxation foreign exchange and state owned enterprises and finally his embrace of capitalism Each chapter is preceded by a detailed introduction highlighting the main issues and interpreting them from today s perspective based on updated information and additional new research

China's Regions in an Era of Globalization Tim Summers, 2018-06-19 The rise of China has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet China is a continent sized economy and society with substantial diversity across its different regions This means that its engagement with the global economy cannot just be understood at the national level but

requires analysis of the differences in participation in the global economy across China's regions. This book responds to this challenge by looking at the development of China's regions in this era of globalization. It traces the evolution of regional policy in China and its implications in a global context. Detailed chapters examine the global trajectory of what is now becoming known as the Greater Bay Area in southern China, the globalization of the inland mega city of Chongqing and the role of China's regions in the globally focused belt and road initiative launched by the Chinese government in late 2013. The book will be of interest to practitioners and scholars engaging with contemporary China's political economy and international relations.

Large Dams in Asia Marcus Nüsser, 2013-11-18. This book explores the multi-dimensional asymmetries of scale, time and directions in the large dam controversy with a regional focus on Asia, especially on India and China. Whereas the concept of large-scale transformation of fluvial environments into technological hydroscares originated in the West, widespread construction of large dams started in the countries of the Global South in the period after decolonisation. Construction and operation of large dams are amongst the most prestigious but also most sensitive development issues, often accompanied by massive resistance of adversely affected people and civil society organisations. Based on the notion of a contested politicised environment, various case studies are analysed to identify the dominant narratives and imaginations that shape the large dams debate. This volume largely contains contributions related to several subprojects from within the Cluster of Excellence Asia and Europe in a Global Context: Shifting Asymmetries in Cultural Flows, based at Heidelberg University, with several expert contributions from external researchers.

Historical Dictionary of the Chinese Communist Party Lawrence R. Sullivan, 2021-12-15. Covering the years 1921 to 2021, this Dictionary reviews the major events, leaders, ideologies and policies of the Chinese Communist Party (CCP). Topics range from the accomplishments of the CCP, most notably the establishment of the People's Republic of China (PRC) in 1949 and economic growth and prosperity beginning in 1978, to the major disasters of the Great Leap Forward (1958-60) and the Cultural Revolution (1966-76) under the leadership of Chairman Mao Zedong (1943-76). The *Historical Dictionary of the Chinese Communist Party*, Second Edition, contains a chronology, an introduction and an extensive bibliography. The dictionary section has more than 400 cross-referenced entries on key people, places and institutions. This book is an excellent resource for students, researchers and anyone wanting to know more about the Chinese Communist Party.

The Culture of Leadership in Contemporary China Paul Michael Linehan, 2017-12-06. The resurgence of Confucianism, Daoism and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders. The once-in-a-decade transition of China's leadership witnessed the ascendancy of a consensus-oriented fifth generation of leaders supporting a central authoritative figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism. How will Chinese Communist Party authority, ideology and control address the encroachment of Western values that are centered on Roman law, Greek philosophy and Christian religion, which prioritizes individual freedom and democracy? This book

examines the role of traditional Chinese values ideology and philosophy as a key determinant in modern China's leadership succession The author asserts that as communist ideology wanes Chinese leaders will turn to their own traditional values found in Confucianism Daoism and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence Since the inception of modern China at the beginning of the 20th century China's leadership transition has evolved from an authoritarian cult like dictatorship to a consensus oriented process In researching this metamorphosis this book offers social political cultural and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership including business organizations and government have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values
