Napoleonic Empire:

The Napoleonic Empire Geoffrey Ellis, 2017-03-03 Was Napoleon the heir of the French Revolution the great consolidator of its reforms or did he distort and even abandon its principles What were the aims and effects of Napoleonic rule in France and in conquered Europe more widely This second edition of *The Napoleonic Empire* offers a critical reassessment of these central issues and provides a fresh synthesis of the most important research during the past forty years Beginning with Napoleon's inheritance Geoffrey Ellis balances the conflicting evidence for change or continuity over the years from the Revolutionary upheaval to the height of the Grand Empire The new edition Covers the administrative military social and economic aspects of the subject Redefines the whole impact of Napoleonic imperialism in both the short and longer term Offers more extensive coverage of Napoleon's treatment of the annexed lands and subject states of his Empire as well as of military conscription desertion and the role of the Gendarmerie in the war against brigands and military defaulters Provides an expanded discussion of the institutional legacy of Napoleonic rule in France and Europe With an updated and more comprehensive bibliography this thoroughly revised text is an invaluable guide to Napoleon's Europe and is ideal for specialist and general readers alike [The Napoleonic Empire and the New European Political Culture](#) M. Broers, P. Hicks, A. Guimera, 2012-10-10 Napoleon's conquests were spectacular but behind his wars is an enduring legacy A new generation of historians have re-evaluated the Napoleonic era and found that his real achievement was the creation of modern Europe as we know it [Napoleon's Empire](#) Ute Planert, 2016-01-26 The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale When Napoleon died the map of many areas had completely changed making room for Russia's ascendancy and Britain's rise to world power

From the Napoleonic Empire to the Age of Empire Thomas Dodman, Aurélien Lignereux, 2023-03-28 This book explores imperial entanglements to reassess the Napoleonic Empire as a missing link or at least an important chain in the global and longue durée history of Empires In recent years Napoleonic studies have belatedly but resolutely embraced the transnational historiographical turn vastly expanding the field's geographical scope Its canonical chronological boundaries on the other hand appear increasingly narrow against this wider backdrop giving the impression of a parenthetical almost anachronistic aside from 1799 to 1815 What connects and what doesn't connect the Napoleonic Empire to the Age of Empire remains by and large an open question Put another way this book attempts to locate the Napoleonic empire in World History

Broers, 2004-12-07 Broers repositions the context in which the Napoleonic empire can be studied and reconfigures the political and historical geography of Italy in the century before its Unification in 1859 The Napoleonic Empire in Italy marks a fresh departure in the study of both modern Italy and Napoleonic Europe based on primary sources [Inside Napoleonic France](#) Gavin Daly, 2017-03-02 The first local history of Napoleonic France to

appear in the English language Inside Napoleonic France State and Society in Rouen 1800 1815 redresses the traditional neglect of regional history during this period Relying on extensive French archival sources Gavin Daly sets out to investigate the nature of the Napoleonic state and its short and longer term impact upon local society Specifically it examines the question of state power and its implementation and reception at a local level the relationship between central government and the regions the social and economic impact of war and how the Napoleonic regime addressed Rouen s revolutionary past Having carefully studied these issues Daly argues that despite an unprecedented degree of social control the Napoleonic state was not all powerful and that the central government s power was tempered by local considerations It is this interaction between the representatives of central government and the regional elites which provides the central focus of the book

The Napoleonic Empire Geoffrey James Ellis,1991 **Historical Dictionary of the Napoleonic Era** George F.

Nafziger,2001-12-11 The author covers one of the most explosive and most exciting periods of world history spanning the time from the eruption of the French Revolution through the end of the Napoleonic wars 1789 1815 These twenty six years of history saw the birth of nationalism and Western democracy economic crisis and political convulsion the growth of industrialism the death of ancient traditions and the birth and break up of empire It was the time of Napoleon who gave his name to this period of tremendous change the period in which the roots of modern Europe were planted This work is intended as a broad review devoting a majority of its attention to the military and political events and personalities of the period while also surveying the major artistic social and cultural events and personalities that formed this period
