Narration And Discourse In The Of Genesis:

Narration and Discourse in the Book of Genesis Hugh C. White, 1991 Implied Law in the Abraham Narrative James K. Bruckner, 2002-01-01 A study of the significance of implied law in the Abraham narrative Bruckner examines legal and juridical terminology in the text with a close reading of legal referents in Genesis 18 16 20 18 He demonstrates that the literary and theological context of implied law in the narrative is creational since the implied cosmology is based in Creator created relationships and the narrative referents are prior to the Sinai covenant The narrative s canonical position is an ipso jure argument for the operation of law from the beginning of the ancestral community The study suggests trajectories for further research in reading law within narrative texts pentateuchal studies and Old Testament ethics *Narrative Structure and Discourse Constellations* Roy L. Earl, 2017-03-03 Douglas Earl sets out a fresh perspective on understanding what is involved in reading Old Testament narrative as Christian Scripture Earl considers various narratives as examples that model different interpretive challenges in the form of exegetical ethical historical metaphysical and theological difficulties Using these examples the significance of interpretive approaches focused

on authorial intention history of composition canonical context reception history and reading context are considered in conjunction with spiritual literary structuralist existential historical critical and ethical critical approaches Christian interpretation of Scripture as Scripture is shown to be an inherently ad hoc task understood as a rule governed practice in Wittgenstein's sense an established goal directed activity for which no method hermeneutical principle or critical perspective discovers meaning or generates good interpretation Good interpretation involves exploration of various construals of the world of the text using hermeneutics of tradition and critique of ideology Ricoeur The interpreter's task is to discern faithful readings and develop their significance in a given intellectual or cultural context The interpretation of Scripture and its appropriation is seen to involve wisdom in forming judgments on a case by case basis learned through examples and experience on what constitutes good interpretation and use Earl shows how traditional hermeneutics and contemporary critical resources suggest that history ethics and theology can rarely be read off Old Testament narrative but also how Christians can appropriate ethically and historically problematic books such as Joshua faithfully adopt a minimalist approach to 1 2 Samuel and embrace a Trinitarian reading of Genesis 1

Interludes and Irony in the Ancestral Narrative

Jonathan A. Kruschwitz, 2020-12-18 The stories of Hagar Dinah and Tamar stand out as strangers in the ancestral narrative They deviate from the main plot and draw attention to the interests and fates of characters who are not a part of the ancestral family Readers have traditionally domesticated these strange stories They have made them familiar all about the ancestral family Thus Hagar's story becomes a drama of deselection Shechem and the Hivites become emblematic for ancestral conflict with the people of the land and Tamar becomes a lens by which to read providence in the story of Joseph This study resurrects the question of these stories strangeness Rather than allow the ancestral narrative to determine their significance it attends to each interlude's particularity and detects ironic gestures made toward the ancestral narrative These stories contain within them the potential to defamiliarize key themes of ancestral identity the ancestral divine relationship ancestral relations to the land and its inhabitants and ancestral self identity Perhaps the ancestral family are not the only privileged partners of God the only heirs to the land or the only bloodline fit to bear the next generation The Novel and
