**The H.E.R.B.A.L. Guide** Robert Alan Bonakdar,2012-03-28 The H E R B A L Guide will greatly assist clinicians in counseling patients about use of herbal and dietary supplements and integrating these supplements into the comprehensive clinical management of common conditions The opening section offers practical advice on the clinician patient dialogue about supplements Subsequent chapters discuss key issues regarding labeling dosing regulation interactions and reactions efficacy clinical trials and the role of each member of the health care team in management of supplements Major sections present case studies of patients with common conditions and quick reference guides to the use of natural medicines in clinical management of specific disorders

*The Pharmacist's Guide to Evidence-Based Medicine for Clinical Decision Making* Patrick J. Bryant,Heather A. Pace,2008-08-31 Take the Practical Approach to Applying EBM Principles Pharmacists who make clinical decisions based on experience alone overestimate the efficacy and underestimate the safety risks of drugs This leads to variations in services and treatment that result in inappropriate care lack of care and increased healthcare costs Evidence based medicine EBM employs the scientific method as the key source of knowledge for making clinical decisions This easy to use new guide provides a practical approach for

confidently applying EBM principles in daily practice It s a straightforward process that allows pharmacists to incorporate their own clinical judgment while they make firm decisions and recommendations based on results of rigorously conducted clinical trials Based on a five step process perfected over 10 years at the University of Missouri Kansas City School of Pharmacy this exciting new method makes it easy to apply the EBM approach in clinical settings The new process streamlines the highly technical and complex original EBM method greatly reducing its complexity while maintaining rigor Categorizing quality of the evidence in a simple and logical manner it provides critical time sensitive support for clinical decision making
