## Natural History Essays:

Natural History Essays (hb) Henry David Thoreau, 2011-04 Celebrate the tradition of literary naturalists and writers who embrace the natural world as the setting for some of our most euphoric and serious experiences These books map the intimate connections between the human and the natural world Literary naturalists transcend political boundaries social concerns and historical milieus they speak for what Henry Beston called the other nations of the planet Their message acquires more weight and urgency as wild places become increasingly scarce Essays on Natural History and Rural Economy John Walker, 1812 Essays and Observations on Natural History, Anatomy, Physiology, Psychology, and Geology John Hunter, 1861 *Natural History Essays* Graham Renshaw, 1904 **Natural History Essays** Graham Renshaw, 1905

**Natural History Essays...** Renshaw Graham, 2013-12 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **More Natural History Essays** Graham Renshaw, 1905

**Leonardo's Mountain of Clams and the Diet of Worms** Stephen Jay Gould, 1999 This unique volume of 21 recent essays published in *Natural History* magazine consciously formulates a humanistic natural history telling how humans have learned to study and understand nature rather than a history of nature itself 41 illustrations **Final Natural History Essays**, 1907 **Eight Little Piggies: Reflections in Natural History** Stephen Jay Gould, 2010-11-29 There is no scientist today whose books I look forward to reading with greater anticipation of enjoyment and enlightenment than Stephen Jay Gould Martin Gardner Among scientists who write no one illuminates as well as Stephen Jay Gould does the wonderful workings of the natural world Now in a new volume of collected essays his sixth since *Ever Since Darwin* Gould speaks of the importance of unbroken connections within our own lives and to our ancestral generations Along with way he opens to us the mysteries of fish tails frog calls and other matters and shows once and for all why we must take notice when a seemingly insignificant creature is threatened like the land snail *Partula* from Moorea whose extinction he movingly relates **More Natural History Essays (Classic Reprint)** Graham Renshaw, 2016-12-18 Excerpt from *More Natural History Essays* The kind reception accorded by both Press and public to my previous book of *Natural History Essays* has encouraged the preparation of the present work as a companion volume Written on similar lines it differs from its predecessor in treating of mammalian types selected from the fauna of the world rather than from that of Africa only although examples of the latter also occupy a place in its pages graham rensshaw About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst

Wild Apples and Other Natural History Essays Henry D. Thoreau,2017-04 These essays show how Thoreau melded conventions of natural history writing with elements of two popular literary forms travel writing and landscape writing to explore concerns ranging from America s westward expansion to the figural dimensions of scientific facts and phenomena
