three volumes which Frye proposed to the Guggenheim Foundation in 1949 Frye received a Guggenheim fellowship but never wrote the book nevertheless his application part of which is also included here is an important document The Guggenheim application not only reveals the outlines of Frye s thinking about literature it also uncovers his plans for his future creative life during the crucial period between his completion of *Fearful Symmetry* and his absorption in the writing of *Anatomy of Criticism* In addition to providing insight into Frye s thinking process the material collected into this key volume in the *Collected Works* is of particular importance because much of it has no direct counterpart in any of Frye s other published works
