

A serene sunset scene over a pond. The sun is low on the horizon, casting a warm, golden glow across the sky and reflecting on the water. The pond is filled with lily pads, and the surrounding landscape is dark with silhouettes of trees and foliage. The overall mood is peaceful and contemplative.

Communicating Environmental Patriotism Anne Marie Todd,2013-06-07 Environmental patriotism the belief that the national environment defines a country s greatness is a significant strand in twentieth century American environmentalism This book is the first to explore the history of environmental patriotism in America through the intriguing stories of environmental patriots and the rhetoric of their speeches and propaganda The See America First movement began in 1906 with the aim of protecting and promoting the landscapes of the American West In 1908 Gifford Pinchot and President Theodore Roosevelt hosted the White House Conservation Conference to promote the wise use of natural resources for generations of Americans In 1912 Pittsburgh s smoke investigation condemned the effects of coal smoke on the city s environment In World War II a massive propaganda effort mobilized millions of Americans to plant victory gardens to save resources for the war abroad While these may not seem like crucial moments for the American environmental movement this new history of American environmentalism shows that they are linked by patriotism The book offers a provoking critique of environmentalists communication strategies and suggests patriotism as a persuasive hook for new ways to make environmental issues a national priority This original research should be of interest to scholars of environmental

communication environmental history American history and environmental philosophy Wildlife Review ,1955 Desert Passages Patricia Nelson Limerick,1985 Traces the development of American attitudes toward the desert using case studies from many writers over the years *Pilgrimage to the National Parks* Lynn Ross-Bryant,2013 National Parks America's Best Idea were from the first seen as sacred sites embodying the God given specialness of American people and American land and from the first they were also marked as tourist attractions The inherent tensions between these two realities ensured the parks would be stages where the country's conflicting values would be performed and contested As pilgrimage sites embody the values and beliefs of those who are drawn to them so Americans could travel to these sacred places to honor experience and be restored by the powers that had created the American land and the American enterprise This book explores the importance of the discourse of nature in American culture arguing that the attributes and symbolic power that had first been associated with the new world and then the frontier were embodied in the National Parks Author Ross Bryant focuses on National Parks as pilgrimage sites around which a discourse of nature developed and argues the centrality of religion in understanding the dynamics of both the language and the ritual manifestations related to National Parks Beyond the specific contribution to a richer analysis of the National Parks and their role in understanding nature and religion in the U S this volume contributes to the emerging field of religion and the environment larger issues in the study of religion e.g cultural events and the spatial element in meaning making and the study of non institutional religion The Languages of Landscape ,1997 **Against Sustainability** Michelle Neely,2020-06-02 Against Sustainability responds to the twenty first century environmental crisis by unearthing the nineteenth century U S literary cultural and scientific contexts that gave rise to sustainability recycling and preservation Through novel pairings of antebellum and contemporary writers including Walt Whitman and Lucille Clifton George Catlin and Louise Erdrich and Herman Melville and A S Byatt the book demonstrates that some of our most vaunted strategies to address ecological crisis in fact perpetuate environmental degradation Yet Michelle C Neely also reveals that the nineteenth century offers useful and generative environmentalisms if only we know where and how to find them Henry David Thoreau and Emily Dickinson experimented with models of joyful anti consumerist frugality Hannah Crafts and Harriet Wilson devised forms of radical pet keeping that model more just ways of living with others Ultimately the book explores forms of utopianism that might more reliably guide mainstream environmental culture toward transformative forms of ecological and social justice Through new readings of familiar texts Against Sustainability demonstrates how nineteenth century U S literature can help us rethink our environmental paradigms in order to imagine more just and environmentally sound futures **Science and the Social Good** John P. Herron,2010-02-04 Using biographies of three natural scientists geologist Clarence King forester Robert Marshall and biologist Rachel Carson Science and the Social Good investigates the links between nature's scientific study and social improvement That Cunning Alphabet Richard S. Moore,2021-11-15 *American Studies* Jack Salzman,1986-08-29 This is an annotated bibliography of

20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00

Environmental Problems in America's Garden of Eden Gordon Morris Bakken, Brenda Farrington, 2001 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource

The Legacy of Conquest: The Unbroken Past of the American West Patricia Nelson Limerick, 2011-02-07 Limerick is one of the most engaging historians writing today Richard White The settling of the American West has been perceived throughout the world as a series of quaint violent and romantic adventures But in fact Patricia Nelson Limerick argues the West has a history grounded primarily in economic reality in hardheaded questions of profit loss competition and consolidation Here she interprets the stories and the characters in a new way the trappers traders Indians farmers oilmen cowboys and sheriffs of the Old West meant business in more ways than one and their descendents mean business today

Water, Land, and Law in the West Donald J. Pisani, 1996 The series presents an interdisciplinary approach to the use and misuse of resources in the American West This volume comprises essays written between 1982 and 1994 and previously published in journals such as Western Historical Quarterly J of American History and Environmental History Review Pisani one of the nation's leading environmental and Western historians highlights the central role played by land water and timber allocation in the American West and shows how efforts to achieve justice and efficiency were compromised by the region's obsession with achieving rapid economic growth Annotation copyright by Book News Inc Portland OR

Green Voices Richard D. Besel, Bernard K. Duffy, 2016-02-25 Essays addressing relatively unknown or unexamined speeches delivered by famous or influential environmental figures The written works of nature's leading advocates from Charles Sumner and John Muir to Rachel Carson and President Jimmy Carter to name a few have been the subject of many texts but their speeches remain relatively unknown or unexamined Green Voices aims to redress this situation After all when it comes to the leaders heroes and activists of the environmental movement their speeches formed part of the fertile earth from which uniquely American environmental

expectations assumptions and norms germinated and grew Despite having in common a definitively rhetorical focus the contributions in this book reflect a variety of methods and approaches Some concentrate on a single speaker and a single speech Others look at several speeches Some are historical in orientation while others are more theoretical In other words this collection examines the broad sweep of US environmental history from the perspective of our most famous and influential environmental figures

Game in the Garden George Colpitts,2010-10-01 Frontier and pioneer societies provide numerous unexplored avenues of social history Game in the Garden identifies the imaginative use of wild animals in early western society In what is now western Canada humans have long used wildlife in order to survive their surroundings better understand their natural world and form aspects of their identity The shared use of wild animals has helped to determine social relations between Native peoples and newcomers In later settlement periods controversy about subsistence hunting and campaigns of local conservation associations drew lines between groups in communities particularly Native peoples immigrants farmers and urban dwellers In addition to examining grassroots conservation activities Colpitts identifies early slaughter rituals iconographic traditions and subsistence strategies that endured well into the interwar years in the twentieth century Drawing primarily on local and provincial archival sources he analyzes popular meanings and booster messages discernible in taxidermy work city nature museums and promotional photography Environmental historians Native studies specialists history students conservationists nature enthusiasts and general readers alike will find fascinating how western attitudes to wild animals changed according to subsistence and economic needs and how wildlife helped to determine the social relations among people in western Canada
