

Many moral philosophers, social scientists, theologians and others have addressed the nature of human nature

1. One view is that humans in their natural state are hedonistic, selfish, uncaring, greedy, etc and rules/laws are needed to rein in our natural propensities
2. Second view is that humans are generally good and should be left unfettered, that good will emerge from their individual decisions.

**Philosophical Theology: The soul & its faculties** Frederick Robert Tennant,1928      Kant as Philosophical Theologian Bernard M.G. Reardon,1988-07-26 This book sets out to present Kant as a theological thinker His critical philosophy was not only destructive of natural theology with its attempt to prove divine existence by logical argument it also left no room for revelation in the traditional sense Yet Kant himself who was brought up in Lutheran pietism certainly believed in God and could fairly be described as a religious man But he held that religion can be based only on the moral consciousness and in his last major work Religion within the Limits of Reason Alone discussed here in detail he interpreted Christianity purely in terms of moral symbolism It would be no exaggeration to claim that Kant s influence has been decisive for modern theology

**The Philosophical Theology of Jonathan Edwards** Sang Hyun Lee,2020-12-08 This book demonstrates the originality and coherence of Jonathan Edwards philosophical theology using his dynamic reconception of reality as the interpretive key The author argues that what underlies Edwards writings is a radical shift from the traditional Western metaphysics of substance and form to a new conception of the world as a network of dispositions active and abiding principles that possess reality apart from their manifestations in actions and events Edwards dispositional ontology enables him to restate the Augustinian Calvinist tradition in theology in a strikingly modern philosophical framework A prime example of Edwards innovative reconstruction in philosophical theology is his conception of God as both eternal actuality and a disposition to repeat that actuality within God and also through creation This view is a compelling alternative to the traditional Western doctrine of God as changeless actuality on the one hand and the recent process theologians excessive stress on God s involvement in change on the other Edwards achievement was that he saw dynamic movement as essential to God s own life without compromising the traditional Christian tenets of God s prior actuality and transcendence The author of this volume also explicates the way in which Edwards dynamic reconception of reality informs his theories of imagination aesthetic perception the knowledge of God and the meaning of history This expanded edition includes a new preface and a new appendix titled Jonathan Edwards on Nature

**Philosophy, Theology, and Politics** Paul Bagley,2008-05-31 The interpretation of Spinoza s theologico political teaching remains a matter of controversy Is Spinoza simply addressing contemporary difficulties in The Netherlands of the late 1660s Or is he attempting to solve a more basic and enduring human problem In this book it is argued that against the background of contemporary concerns Spinoza treats the more fundamental natural problem of reconciling those who live by the dictates of reason with those who live by the urgings of the passions Based upon his accounts of theology human nature and politics Spinoza fashions a theocratic or theologico political solution to the natural problem by holding that the universal religion and the democratic liberalism of the treatise share a common purpose Thus Spinoza becomes a new Moses

**Philosophy, Theology and Mysticism in Medieval Islam** Richard M. Frank,2020-08-26 The first volume of the collected major articles of Richard M Frank pioneering student of

Islamic theology kalam contains fifteen essays It includes his early studies classic but inaccessible for many in their original publication on the text and terminology of Graeco Arabic translations De anima Themistius on the Metaphysics Plotinus in Syriac anniya and the terminology of early kalam Other articles deal with Islamic theology and its early development especially in its relation to philosophy in particular the kalam of Jahm ibn Safwan and al Ghazali and the text and translation of two short dogmatic works by the mystic al Qushayri The collection is prefaced by a fascinating autobiographical memoir which traces the intellectual development of the author and the reasoning that led him from study to study to his discovery of the way of thinking of the theologians and to an understanding of the essential core of Islamic theology
