Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a

universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated **Handbook of Positive Psychology** C. Snyder,Shane J. Lopez,2001-12-20 Psychology has long been enamored of the dark side of human existence rarely exploring a more positive view of the mind What has psychology contributed for example to our understanding of the various human virtues Regrettably not much The last decade however has witnessed a growing movement to abandon the exclusive focus on the negative Psychologists from several subdisciplines are now asking an intriguing question What strengths does a person employ to deal effectively with life The Handbook of Positive Psychology provides a forum for a more positive view of the human condition In its pages readers are treated to an analysis of what the foremost experts believe to be the fundamental strengths of humankind Both seasoned professionals and students just entering the field are eager to grasp the power and vitality of the human spirit as it faces a multitude of life challenges The Handbook is the first systematic attempt to bring together leading scholars to give voice to the emerging field of positive psychology *Love, Desire and Transcendence in French Literature* Paul Gifford,2016-12-05 European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford s book allows this considerable contemporary phenomenon to be observed steadily and whole with strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato s Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche s declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Val ry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French literature but to all those interested in the cultural upheavals of the twentieth century

Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton

Love, Reason, and Will Anthony Rudd, John Davenport, 2015-10-22 Love Reason and Will Kierkegaard After

Frankfurt introduces and investigates themes common to Harry G Frankfurt and Søren Kierkegaard focusing particularly on their understanding of love. Several distinguished contributors argue that Kierkegaard's insights about love, volition and identity can help us to evaluate aspects of Frankfurt's well-known arguments about love and caring. Similarly, Frankfurt's analyses of the higher-order will, valuing and self-love help clarify themes in Kierkegaard's *Works of Love* and other books. By bringing these two key thinkers into conversation with each other, we may glean a new understanding of the structure of love, reasons for love or deriving from loving and more broadly the central ethical questions of how to live and to develop an authentic identity and meaningful life. Love, Reason and Will will appeal to readers interested in the philosophy of action and emotions, continental thought, especially in the existential tradition, the study of character in psychology and theological work on neighbor love and virtues.

Love & Eroticism Mike Featherstone, 1999-03-19 This major collection explores the contested nature of love and eroticism, examining the ways in which erotic, bodily pleasures have become central to contemporary consumer culture. It investigates the spatial dimension of erotic life through considerations of Bohemian love, the gay city and the ways in which the urban landscape and everyday life have become sexualized issues which have become central to the emergence of queer as a new form of gender politics and more general questions of sexual citizenship. Drawing on the work of feminists, sociologists and cultural theorists, this book contains a wide-ranging and accessible set of contributions to contemporary debates on sexuality, love and eroticism. *Love, Eroticism* is simultaneously published as volume 15, issue 3-4 of *Theory & Culture Society*.

The Possible South R. Bruce Brasell, 2015-11-09 Using cultural theory, author R. Bruce Brasell investigates issues surrounding the discursive presentation of the American South as biracial and explores its manifestation in documentary films, including such works as *Tell About the South*, *Broken Ground* and *Family Name*. After considering the emergence of the region's biraciality through a consideration of the concepts of racial citizenship and racial performativity, Brasell examines two problems associated with this framework. First, the framework assumes racial purity and second, it assumes that two races exist. In other words, biraciality enacts two denials: first, the existence of miscegenation in the region and second, the existence of other races and ethnicities. Brasell considers bodily miscegenation, discussing the racial closet and the southeastern expatriate road film. Then he examines cultural miscegenation through the lens of racial poaching and 1970s southeastern documentaries that use redemptive ethnography. In the subsequent chapters, using specific documentary films, he considers the racial in-betweenness of Spanish-speaking ethnicities, *Mosquitoes* and *High Water*. *Living in America*, *Nuestra Comunidad* probes issues related to the process of racial negotiation experienced by Asian Americans as they seek a racial position beyond the black and white binary. *Mississippi Triangle* and *engages the problem of racial legitimacy confronted by federally nonrecognized Native groups as they attempt the same feat*. *Real Indian*

Looking for Love in the Legal Discourse of Marriage Renata Grossi, 2014-09-01 This book examines the invisibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of

modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage This examination raises two key issues If love has become central to people's understanding of marriage then it is important for the legitimacy of law that love is reflected in both the content and application of the law More fundamentally it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them Along the way this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them This book will be of interest to everyone working on love marriage and sexuality in the disciplines of law sociology and philosophy *The Meanings of Love* Robert E. Wagoner, 1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author's presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life *Lovescapes, Mapping the Geography of Love* Duncan S. Ferguson, 2012-12-06 Lovescapes introduces the reader to the various meanings and manifestations of love and its many cognates such as compassion caring altruism empathy and forgiveness It addresses how love and compassion have been understood in history and the religions of the world It goes on to explore the ways that our environments and heredity influence our capacity to love and suggests ways to cultivate love and compassion in one's life The book shows how the values of love and compassion are integral to finding humane solutions to the daunting problems we face as individuals as a human family and as an earth community a world in crisis Lovescapes has the following features Describing how love is the essence of the divine and therefore the ground of reality Understanding the meaning of love and its place in our lives Learning how love and compassion have been understood across history culture and tradition Gaining insight about how to increase our capacity to love and show compassion Discerning how love and compassion can be applied in all aspects of our lives in the regions where we live and in our global setting **I Don't** Susan Squire, 2011-01-15 For 10 000 years marriage and the idea of marriage has been at the very foundation of human society In this provocative and

ambitious book Susan Squire unravels the turbulent history and many implications of our most basic institution Starting with the discovery long before recorded time that sex leads to paternity and hence to couplehood and leading up to the dawn of the modern love marriage Squire delves into the many ways men and women have come together and what the state of their unions has meant for history society and politics especially the politics of the home This book is the product of 13 years of intense research but even more than the intellectual scope what sets it apart is Squire s voice and contrarian boldness Learned acerbic opinionated and funny she draws on everything from Sumerian mythology to Renaissance theater to Victorian housewife s manuals sometimes all at the same time to create a vivid kaleidoscopic view of the many things marriage has been and has meant The result is a book that will provoke and fascinate readers of all ideological stripes feminists traditionalists conservatives and progressives alike

The Priority of Love Timothy P. Jackson, 2021-06-08 This book explores the relation between agape or Christian charity and social justice Timothy Jackson defines agape as the central virtue in Christian ethical thought and action and applies his insights to three concrete issues political violence forgiveness and abortion Taking his primary cue from the New Testament while drawing extensively from contemporary theology and philosophy Jackson identifies three features of Christian charity unconditional commitment to the good of others equal regard for others well being and passionate service open to self sacrifice for the sake of others Charity prescribed by Jesus for his disciples and named by Saint Paul as the greatest theological virtue is contrasted with various accounts of justice Jackson argues that agape is not trumped by justice or other goods Rather agape precedes justice without the work of love society would not produce persons capable of merit demerit and contract the elements of most modern conceptions of justice Jackson then considers the implications of his ideas for several questions the nature of God the relation between Christian love and political violence the place of forgiveness and the morality of abortion Arguing that agapic love is to be construed as a gift of grace as well as a divine commandment Jackson concludes that love is the eternal life that makes temporal existence possible and thus the first Christian virtue Though foremost a contribution to Christian ethics Jackson s arguments and the issues he takes up will find a broader readership
