**1750-1850** Helen Cowie, 2017-02-01 This book examines the study of natural history in the Spanish empire in the years 1750-1850. During this period Spain made strenuous efforts to survey inventory and exploit the natural productions of her overseas possessions, orchestrating a series of scientific expeditions and cultivating and displaying American fauna and flora in metropolitan gardens and museums. This book assesses the cultural significance of natural history, emphasising the figurative and utilitarian value with which eighteenth-century Spaniards invested natural objects, from globetrotting elephants to three-legged chickens. It considers how the creation, legitimisation and dissemination of scientific knowledge reflected broader questions of imperial power and national identity. This book will be of particular interest to scholars and students of Spanish and Latin American History, the History of Science and Imperial Culture. **The Spirit of Yellowstone** Judith L. Meyer, 2003-06-23 Yellowstone National Park's famous geysers, exotic landscape and beautiful wildlife partially explain its enormous popularity, but there is something more to the Yellowstone experience: a powerful spirit to the place that is more than the sum of its parts. This fascinating history of America's favorite national park shows how that spirit has endured over Yellowstone's 127-year existence. Meyer shows that Yellowstone has consistently evoked awe in different generations of Americans, even as our attitudes toward nature have changed over the years. That awe is also captured in photographer Vance Howard's evocative images, which alongside historic photographs and other early artistic interpretations of the Park's wonders support Meyer's view that Yellowstone's unique sense of place makes it worth preserving not only for its ecological value but for its lasting importance in American culture. **History of Fresno County, California, with Illustrations, Descriptions of Its Scenery, Farms, Residences, Public Buildings, Factories, Hotels, Business Houses, Schools, Churches, and Mines**, 1882 **The Pageant of Nature; Nature's Program** Gaylord Johnson, 1926 *Old Jack* [comprising *The early life of old Jack and Old Jack, a man-of-war's man*].
