Natures Niagara A Walk On The Wild Side:

Nature's Niagara Paul Gromosiak, 2000 Learn how glaciers left their indelible marks on the landscape and find out why the falls have moved seven miles since the last ice age Prominent Niagara Falls author Paul Gromosiak has done it again Nature's Niagara showcases one of the world's most majestic wonders from a unique perspective using color photos charts and user friendly maps to capture the power and beauty of the mighty Niagara Included are chapters about earthquakes and known fault lines Niagara's wild animals and Niagara's splendid wildflowers **A Lifetime Nature Walk** Andrew Dequasie, 2000-09-20 This book is a collection of essays and anecdotes about 19 animals 18 birds 15 fish 10 reptiles 31 insects 39 plants 17 trees and 6 other subjects encountered in nature by the author mostly in the region from West Virginia to Vermont Hopefully it lends personality to these subjects and leaves the reader with a sense of the changing view of our natural world during the 20th century It is not encyclopedic being limited to things the author has had experience with On the other hand it contains many off beat details not to be found in other references Among stone age peoples one of the important duties the hunter had to fulfill when he returned home was to tell the other members of his tribe where he had been what he had seen and what he had done That is what the author attempts to do in this book For instance he tells of Dealings with raccoons both tame and wild How to rescue a skunk from a storm drain Home made animal traps What constitutes a successful backwoods fox hunt How kingfishers and sparrow hawks mourn their dead Why bluebirds are scarce Why a killdeer will tease a dog Where to find bluegills in the Ohio River or smelt in the Niagara River A box turtle's prediction of dry weather and rain Living where copperheads live Playing with garter snakes How to find a bee tree The very different lives and habits of hornets brown wasps and mud dauber wasps Sleeping with bedbugs The psychological warfare of the deer fly When to look for snow fleas How to recognize chamomile by its aroma The scarcity of ginseng Trouble with jack in the pulpit Using jimson weed to kill flies The forms and effects of poison ivy Why black raspberries grow in smaller patches than red raspberries Making use of elderberries How Indians used acorns as food Growing black walnut trees from seed There are no pictures in this book Those would greatly increase the size and nbs **Nature Trails** Dietrich Lange, 1927 Observation by author of birds animals plants and trees in Minnesota Making Nature Sacred John Gatta, 2004-10-14 Since colonial times the sense of encountering an unseen transcendental Presence within the natural world has been a characteristic motif in American literature and culture American writers have repeatedly perceived in nature something beyond itself and beyond themselves In this book John Gatta argues that the religious import of American environmental literature has yet to be fully recognized or understood Whatever their theology American writers have perennially construed the nonhuman world to be a source in Rachel Carson's words of something that takes us out of ourselves Making Nature Sacred explores how the quest for natural revelation has been pursued through successive phases of American literary and intellectual history And it shows how the imaginative challenge of reading landscapes has been influenced by biblical

hermeneutics Though focused on adaptations of Judeo Christian religious traditions it also samples Native American African American and Buddhist forms of ecospirituality It begins with Colonial New England writers such as Anne Bradstreet and Jonathan Edwards re examines pivotal figures such as Henry Thoreau and John Muir and takes account of writings by Mary Austin Rachel Carson and many others along the way The book concludes with an assessment of the spiritual renaissance underway in current environmental writing as represented by five noteworthy poets and by authors such as Wendell Berry Annie Dillard Marilynne Robinson Peter Matthiessen and Barry Lopez This engaging study should appeal not only to students of literature but also to those interested in ethics and environmental studies religious studies and American cultural history
