**An Essay on the Nature, Age, and Origin of the Sanscrit Writing and Language** Charles William Wall,1838

Movements of Religious Thought in Britain During the Nineteenth Century John Tulloch,1901 *August Strindberg and*

*Visual Culture* Jonathan Schroeder, Anna Westerstahl Stenport, Eszter Szalczer, 2018-09-20 August Strindberg and Visual Culture addresses the multiplicity of Strindberg's artistic and literary output. The book charts the vital intersections between theatre aesthetic theory and visual elements in his work that have been left largely unexplored. Rather than following traditional genre bound critical approaches, this book focuses on the intermediality of individual works, the corpus as a whole, and their connections to a wide array of historical and contemporary artists, writers, photographers, film, theatre, and museum practitioners. The book is beautifully illustrated with many never before seen images from Strindberg's work and includes contributions from actress Liv Ullmann, director Robert Wilson, and curator and museum director Daniel Birnbaum. Essays in the History of Ideas Arthur O. Lovejoy, 2019-12-01 Originally published in 1948. In the first essay of this collection, Lovejoy reflects on the nature, methods, and difficulties of the historiography of ideas. He maps out recurring phenomena in the history of ideas which the essays illustrate. One phenomenon is the presence and influence of the same presuppositions or other operative ideas in very diverse provinces of thought and in different periods. Another is the role of semantic transitions and confusions of shifts and of ambiguities in the meanings of terms in the history of thought and taste. A third phenomenon is the internal tensions or waverings in the mind of almost every individual writer, sometimes discernible even in a single writing or on a single page arising from conflicting ideas or incongruous propensities of feeling or taste to which the writer is susceptible. These essays do not contribute to metaphysical and epistemological questions; they are primarily historical.

**The Wee Dog and Other Essays** Alan Durward Mickle, 1922 **Nature-Inspired Learning and Leading** Stephen B. Jones, 2017-07-03 Stephen B. Jones, a university president, lifetime champion of nature, and the founder of Great Blue Heron LLC, explores in this book of essays how individuals and organizations can apply nature's wisdom to achieve success. Expanding on the themes in his first book, *Nature Based Leadership: Lessons for Living, Learning, Serving, and Leading*, he points out that nature's routes, processes, options, and outcomes seem infinite. In many ways, they are, but all species, including humans, seek the same thing: to succeed, reproduce, and sustain. Jones draws upon his varied background as a natural resources scientist, educator, and philosopher to convert nature's time-tested wisdom into actionable insights that will help you live, learn, serve, and lead while engaging in responsible Earth stewardship. His personal reflections translate science through words that evoke comprehension, stir passion, elicit emotion, and prompt action. Above all else, he harnesses the wonder, magic, awe, beauty, and spirit of nature in the service of reason and the cause of humanity. Capitalize on the wisdom of the natural world with the lessons in *Nature Inspired Learning and Leading*. **The Whale and the Reactor** Langdon Winner, 2010-07-15 The questions he poses about the relationship between technical change and political power are pressing ones that can no longer be ignored, and identifying them is perhaps the most a nascent philosophy of technology can expect to achieve at the present time. David Dickson, New York Times Book Review. *The Whale and the Reactor* is the philosopher's equivalent of superb public history. In its pages, an analytically trained mind confronts some of the most pressing political
