Native Languages of the Americas Thomas Sebeok,2013-11-11 Thirteen of the chapters that comprise the contents of this first volume of Native Languages of the Americas were originally commissioned by the undersigned in his capacity as Editor of the fourteen volume series 1963 1976 Current Trends in Linguistics All appeared in 1973 under Part Three of the quadripartite Vol 10 subtitled Linguistics in North America Two additional chapters are being held over for the volume to follow shortly devoted to Central and South American languages and linguistics where they more appropriately belong A fourteenth chapter on the Historiography of native North American linguistics was written similarly by invitation for Vol 13 subtitled Historiography of Linguistics published in 1975 Both Volumes 10 and 13 were jointly financed by the United States National Science Foundation and National Endowment for the Humanities with an enhancing contribution to the former by the Canada Council The generosity of these funding agencies was of course previously acknowledged in my respective Editor s Introductions to the two books mentioned but cannot be repeated too often without their welcome and timely assistance the global project could scarcely have been realized on so comprehensive a scale The Current Trends in Linguistics series was a long term venture of Mouton Publishers of The Hague under the imaginative in house direction of Peter de Ridder Various spin offs were foreseen and some of them happily realized

Compendium of the World's Languages: Ladakhi to Zuni George L. Campbell,2000 Many languages particularly those which have achieved literary status have been studied in great detail and specialized descriptions of these are plentiful What has not been so readily available however is a general survey covering a wide spectrum of the world s languages on a comparative basis It is this kind of comparative cross section of languages ranging from the familiar and well documented to the relatively obscure that the Compendium of the World s Languages presents

Resources in Education ,1968 **Quantification in Natural Languages** Emmon Bach,E. Jelinek,A. Kratzer,Barbara B.H. Partee,2013-11-11 This volume of papers grew out of a research project on Cross Linguistic Quantification originated by Emmon Bach Angelika Kratzer and Barbara Partee in 1987 at the University of Massachusetts at Amherst and supported by National Science Foundation Grant BNS 871999 The publication also reflects directly or indirectly several other related activities Bach Kratzer and Partee organized a two evening symposium on cross linguistic quantification at the 1988 Annual Meeting of the Linguistic Society of America in New Orleans held without financial support in order to bring the project to the attention of the linguistic community and solicit ideas and feedback from colleagues who might share our concern for developing a broader typological basis for research in semantics and a better integration of descriptive and theoretical work in the area of quantification in particular The same trio organized a six week workshop and open lecture series and related one day conference on the same topic at the 1989 LSA Linguistic Institute at the University of Arizona in Tucson supported by a supplementary grant NSF grant BNS 8811250 and Partee offered a seminar on the same topic as part of the Institute course offerings Eloise Jelinek who served as a consultant on the principal grant and was a participant in the LSA symposium and the Arizona workshops joined the group of editors for this volume in 1989 **The American Indian Language and Literature** Jack W. Marken,1978 *The Half-White Album* Cynthia J. Sylvester,2023-04-01 This powerful debut collection explores lives lived between worlds Sylvester masterfully weaves together fiction poetry and nonfiction to give readers a poignant though fractured view of her characters lives their loves and their struggles Told from the perspective of an urban Native the work details a journey led by the nomadic band the Covers It is an experience meant to heal generational trauma and bring back into the light people who may otherwise be forgotten At its heart The Half White Album is a healing ceremony of the author s own creation a process grounded in music that celebrates what it is to be human and imperfect and to love imperfectly Uncommon Anthropologist Nancy Mattina,2019-10-10 A trailblazer in Native American linguistics and anthropology Gladys Reichard 1893 1955 is one of America s least appreciated anthropologists Her accomplishments were obscured in her lifetime by differences in intellectual approach and envy as well as academic politics and the gender realities of her age This biography offers the first full account of Reichard s life her milieu and most important her work establishing once and for all her lasting significance in the history of anthropology In her thirty two years as the founder and head of

Barnard College's groundbreaking anthropology department Reichard taught that Native languages written or unwritten sacred or profane offered Euro Americans the least distorted views onto the inner life of North America's first peoples. This unique approach put her at odds with anthropologists such as Edward Sapir, leader of the structuralist movement in American linguistics. Similarly, Reichard's focus on Native psychology as revealed to her by Native artists and storytellers produced a dramatically different style of ethnography from that of Margaret Mead, who relied on western psychological archetypes to crack alien cultural codes often at a distance. Despite intense pressure from her peers to conform to their theories, Reichard held firm to her humanitarian principles and methods. The result, as Nancy Mattina makes clear, was pathbreaking work in the ethnography of ritual and mythology. Wiyot, Coeur d'Alene, and Navajo linguistics, folk art, gender, and language, amplified by an exceptional career of teaching, editing, publishing, and mentoring. Drawing on Reichard's own writings and correspondence, this book provides an intimate picture of her small town upbringing, the professional challenges she faced in male-centered institutions, and her quietly revolutionary contributions to anthropology. Gladys Reichard emerges as she lived and worked: a far-sighted, self-reliant humanist sustained in turbulent times by the generous egalitarian spirit that called her yearly to the far corners of the American West.

Complex Ethnic Households in America, Laurel Kathleen Schwede, Rae Lesser Blumberg, Anna Y. Chan, 2005. This lively interdisciplinary book on complex households in six U.S. ethnic groups uniquely combines rich ethnographic description conveying the sights and smells of fieldwork with theory-linked overviews and Census 2000 data. It explores interactions of household structure, ethnicity, and gender, also illuminating factors affecting formation and dissolution of complex households, which are increasingly important as family and ethnic diversity and immigration grow. It's valuable for student and professional sociologists, anthropologists, demographers, research methodologists, policymakers, and interested public.
