## Naval Operations Volume 5:

### History of United States Naval Operations in World War II: The struggle for Guadalcanal, August 1942-February 1943

Samuel Eliot Morison, 2001 During the six months covered by Volume 5 The Struggle for Guadalcanal August 1942 February 1943 the U S Navy fought six major engagements in waters surrounding Guadalcanal more bitter and bloody than any naval battle in American history since 1814 From the Solomon Islands campaigns to the courageous action of Edson's Raiders at the Battle of the Bloody Ridge from the great three day Naval Battle of Guadalcanal to the Battle of Tassafaronga Morison describes the events of these excruciating months in thrilling heartbreaking detail from the shipdecks cockpits and exposed ridge tops where the fate of thousands of soldiers and sailors was decided *History of the Great War* Henry Newbolt, 1931

### *Conquer We Must* Robin Prior, 2022-12-13 A major new account of Britain's military strategy between 1914 1945

including the two world wars and everything between The First and Second World Wars were separated by a mere two decades making the period 1914 1945 an unprecedentedly intense and violent era of history But how did Britain develop its complex military strategy during these wars and how were decisions made by those at the top Robin Prior examines the influence politicians had on military operations in the first history to assess both world wars together Drawing uniquely on both military and political archives and previously unexamined sources Prior explores the fraught relationships between civilian and military leaders from Lloyd George's remarkably interventionist stance on military tactics during the First World War to Churchill's near constant arguments with American leaders during the Second Conquer We Must tells the complex story of this military decision making revealing how politicians attempted to control strategy but had little influence on how the army navy and air force actually fought **List of National Archives Microfilm Publications** National Archives (U.S.), 1953

### Americans in Egypt, 1770-1915 Cassandra Vivian, 2012-08-16

The voices of Americans have long been absent from studies of modern Egypt Most scholars assume that Americans were either not in Egypt in significant numbers during the nineteenth century or had little of importance to say This volume shows that neither was the case by introducing and relating the experiences and attitudes of 15 American personalities who worked lived or traveled in Egypt from the 1770s to the commencement of World War I Often in their own words explorers consuls tourists soldiers missionaries artists scientists and scholars offer a rare American perspective on everyday Egyptian life and provide a new perspective on many historically significant events The stories of these individuals and their sojourns not only recount the culture and history of Egypt but also convey the domination of the country by European powers and the support for Egypt by a young American nation **The Russo-Japanese War in Global Perspective** John Steinberg, 2006-12-01

Like Volume one Volume two of *The Russo Japanese War in Global Perspective* examines the Russo Japanese War in its military diplomatic social political and cultural context In this volume East Asian contributors focus on the Asian side of the war to flesh out the assertion that the Russo Japanese War was in fact World War Zero the first global conflict of the 20th

century The contributors demonstrate that the Russo Japanese War largely forgotten in the aftermath of World War I actually was a precursor to the catastrophe that engulfed the world less than a decade after the signing of the Treaty of Portsmouth This study also helps us better understand Japan as it emerged at the beginning of its fateful 20th century **List of National Archives Microfilm Publications, 1961** United States. National Archives and Records Service,1961 **List of National Archives Microfilm Publications** United States. Superintendent of Documents,1988 **Scratch One Flattop** Robert C. Stern,2019-05-14 A study of the historic World War II naval battle the first involving aircraft carriers and first in which neither warship was in sight of the other By the beginning of May 1942 five months after the Pearl Harbor attack the US Navy was ready to challenge the Japanese moves in the South Pacific When the Japanese sent troops to New Guinea and the Solomon Islands the Americans sent the carriers Lexington and Yorktown to counter the move setting the stage for the Battle of the Coral Sea In this book historian Robert C Stern analyzes the Battle of the Coral Sea the first major fleet engagement where the warships were never in sight of each other Unlike the Battle of Midway the Battle of the Coral Sea has received remarkably little study Stern covers not only the action of the ships and their air groups but also describes the impact of this pivotal engagement His analysis looks at the short term impact as well as the long term implications including the installation of inert gas fuel system purging on all American aircraft carriers and the push to integrate sensor systems with fighter direction to better protect against enemy aircraft The essential text on the first carrier air campaign *Scratch One Flattop* is a landmark study on an overlooked battle in the first months of the United States engagement in World War II His research into sources on both sides is exhaustive and he has used Japanese translators where necessary and appropriate to best illuminate materials His effort has taken years of meticulous scholarship and it shows Highly recommended Lisle A Rose *The Northern Mariner* Le marin du nord Gallipoli Paul Neumann, Shortly and formally the Battle of Gallipoli also known as the Dardanelles Campaign can be described as a failed amphibious operation launched by the Allies in a strategically important region of Turkey in 1915 1916 It was a battle very unusual for the First World War It stood apart from the gruesome picture of bloody and ineffectual battles of the Western front and resembled rather colonial wars of the preceding century *The Military Dimension* I. Gow,Y. Hirama,J. Chapman,2003-02-04 The five volumes in the series entitled *The History of Anglo Japanese Relations 1600 2000* explore the history of the relationship between Britain and Japan from the first contacts of the early 1600s through to the end of the twentieth century This volume presents 19 original essays by Japanese British and other international historians and covers the evolving military relationship from the 19th century through to the end of the 20th century The main focus is on the interwar period when both military establishments shifted from collaboration to conflict as

well as wartime issues such as the treatment of POWs seen from both sides the Occupation of Japan and war crimes trials

Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations *MacArthur's Air Force* Bill Yenne, 2019-09-19 General Douglas MacArthur is one of the towering figures of

World War II and indeed of the twentieth century but his leadership of the second largest air force in the USAAF is often overlooked When World War II ended the three numbered air forces the Fifth Thirteenth and Seventh under his command possessed 4004 combat aircraft 433 reconnaissance aircraft and 922 transports After being humbled by the Japanese in the Philippines in 1942 MacArthur and his air chief General George Kenney rebuilt the US aerial presence in the Pacific helping Allied naval and ground forces to push back the Japanese Air Force re take the Philippines and carry the war north towards the Home Islands Following the end of World War II MacArthur was the highest military and political authority in Japan and at the outbreak of the Korean War in June 1950 he was named as Commander in Chief United Nations Command In the ten months of his command his Far East Air Forces increased dramatically and saw the first aerial combat between jet fighters

Written by award winning aviation historian Bill Yenne this engrossing and widely acclaimed book traces the journey of American air forces in the Pacific under General MacArthur's command from their lowly beginnings to their eventual triumph over Imperial Japan followed by their entry into the jet age in the skies over Korea **Infantry** , 1988
