

The Nazi Dictatorship and the Deutsche Bank

Harold James

Nazi Dictatorship And The Deutsche Bank

Knut Sogner, Andrea Colli

Nazi Dictatorship And The Deutsche Bank:

The Nazi Dictatorship and the Deutsche Bank Harold James, 2004-09-13 Examines the role of Deutsche Bank Germany's largest commercial bank during the Nazi dictatorship and asks how the bank changed and accommodated to a transition from democracy and a market economy to dictatorship and a planned economy Set against the background of the world depression and the German banking crisis of 1931 the book looks at the restructuring of German banking and offers material on the bank's expansion in central and eastern Europe As well as summarizing recent research on the bank's controversial role in gold transactions and the financing of the construction of Auschwitz the book also examines the role played by particular personalities in the development of the bank such as Emil Georg von Strauss and Hermann Abs **Deutsche Bank: The Global Hausbank, 1870 - 2020** Werner Plumpe, Alexander Nützenadel, Catherine Schenk, 2020-03-05 A comprehensive history of one of the major players in the world of international finance Over the course of its 150 year history Deutsche Bank has established itself as a major player in the world of international finance but has also been confronted by numerous challenges that have changed the face of Europe from two world wars to the rise and subsequent fall of communism In this major work on the bank's history Werner Plumpe Alexander Nützenadel and Catherine R Schenk deliver a vibrant account of the measures the bank undertook in order to address the profound upheavals of the period as well as the diverse and unusual demands it had to face These included the First World War which brought the world's first period of globalization to a sudden and dramatic end but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989 More recently the focus has shifted back to European and global activities with Deutsche Bank forging new paths into the Anglo American capital markets business so opening another extraordinary chapter for the bank **The Deutsche Bank and the Nazi Economic War against the Jews** Harold James, 2001-03-23 The Deutsche Bank Germany's largest financial institution played an important role in the expropriation of Jewish owned enterprises during the Nazi dictatorship both in the existing territories of Germany and in the area seized by the German army during World War II In this 2001 book Harold James uses new and previously unavailable materials many from the bank's own archives to examine policies which led to the eventual genocide of European Jews How far did the realization of the vicious and destructive Nazi ideology depend on the acquiescence the complicity and the cupidity of existing economic institutions and individuals In response to the traditional view that business co operation with the Nazi regime was motivated by profit this book closely examines the behaviour of the bank and its individuals to suggest other motivations No comparable study exists of a single company's involvement in the economic persecution of the Jews in Nazi Germany Hostile Takeovers of Large Jewish Companies, 1933-1935 William M. Katin, 2020-10-28 Opportunism combined with anti-Semitism led non Nazi businessmen to acquire the largest German Jewish companies in the period 1933-1935 These hostile takeovers were made possible by the Deutsche Bank and Dresdner Bank which recalled loans previously

extended to Jewish firms Thereby Germany's largest banks obtained new loan fees new supervisory board seats and became the house banks for the new Gentile owned firms The German judiciary did not defend Jewish property rights because judges shared the same conservative mindset Scholarship has previously not discovered this 1933 1935 paradigm because of a focus on Berlin government or Nazi Party actions instead of the Jewish companies In addition a failure to distinguish between multi million dollar enterprises and tiny shops caused scholars to emphasize the year 1938 when thousands of mom and pop shops became bankrupt

The TransAtlantic reconsidered Charlotte A. Lerg, Susanne Lachenicht, Michael Kimmage, 2018-10-05 Is the Atlantic World in a state of crisis At a time when many political observers perceive indeed a crisis in transatlantic relations critical evaluation of past narratives and frameworks in Transatlantic Relations and Atlantic History alike become crucial This volume provides an academic foundation to critically assess the Atlantic World and to rethink transatlantic relations in a transnational and global perspective The TransAtlantic reconsidered brings together leading experts such as Harvard historians Charles S Maier and Bernard Bailyn and former ERC scientific board member Nicholas Canny All the scholars represented in this volume have helped to shape re shape and challenge the narrative s of the Atlantic World and can thus re evaluate its conceptual basis in view of historiographical developments and contemporary challenges

Hitler and Nazi Germany Jackson J. Spielvogel, David Redles, 2020-05-05 Hitler and Nazi Germany A History is a brief but comprehensive survey of the Third Reich based on current research findings that provides a balanced approach to the study of Hitler's role in the history of the Third Reich The book considers the economic social and political forces that made possible the rise and development of Nazism the institutional cultural and social life of the Third Reich World War II and the Holocaust World War II and the Holocaust are presented as logical outcomes of the ideology of Hitler and the Nazi movement This new edition contains more information on the Kaiserreich Imperial Germany as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal Volksgemeinschaft people's community It takes a greater focus on the experiences of ordinary bystanders perpetrators and victims throughout the text includes more discussion of race and space and the final chapter has been completely revised Fully updated the book ensures that students gain a complete and thorough picture of the period and issues Supported by maps images and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further the book offers the perfect overview of Hitler and the Third Reich

World Fascism Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes

Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

Current Federal Reserve Policy Under the Lens of Economic History Owen F. Humpage, 2015-03-05 A retrospective on the Federal Reserve these essays by leading historians and economists investigate how financial infrastructure shapes economic outcomes

The Ruling Elite Deanna Spingola, 2014 Providing a general overview of the accurate history of World War II which was essentially a continuation of World War I with the same saber rattling participants The Ruling Elite describes the circumstances leading up to World War II Author Deanna Spingola discusses how the diaspora distributed international bankers living and prospering in Britain France and America influenced greedy compromised and complicit politicians in those nations The Ruling Elite explains that through deceptive propaganda those politicians persuaded naïve citizens to wage war against Germany a peace loving nation whose leaders were uncooperative with the bankers which led to World War I Following that war German officials rejected the bankers and their money lending scheme to save their nation and its citizens from the burden of debt The aftermath of World War II a deadly war that killed millions and imposed communism in numerous countries impacted every banker occupied country in various ways culturally morally politically and economically Researched through historical documents and scholarly works The Ruling Elite describes how warmongers regularly project their criminal activities onto others frequently blaming the victim whether an individual or a nation Spingola offers an unbiased look at World War II beginning with Hitler and the rebirth of Germany through the aftermath of the war

John W. Thompson Paul Weindling, 2010 John W Thompson Psychiatrist in the Shadow of the Holocaust is the biography of a doctor whose revulsion at Nazi human experiments prompted him to seek a humane basis for physician patient relations As a military scientific intelligence officer in 1945 Thompson was the first to name medical war crimes as a category for prosecution His investigations laid the groundwork for the Nuremberg medical trials and for the novel idea of informed consent Yet Thompson has remained a little known figure despite his many scientific literary and religious connections This book traces Thompson's life from his birth in Mexico through his studies at Stanford Edinburgh and Harvard and his service in the Canadian Air Force It reconstructs his therapeutic work with Unesco in Germany and his time as a Civil Rights activist in New York where he developed his concept of holistic medicine Thompson was close to authors like Auden and Spender and inspirational religious figures like Jean Vanier founder of L'Arche He drew on ideas of Freud Jung and Buber The philosophical and religious dimensions of Thompson's response to Holocaust victims

suffering are key to this study which cites accounts of psychiatrists students and patients who knew Thompson personally war crimes prosecution records and unpublished personal papers Paul Weindling is Wellcome Trust Research Professor at the Centre for Health Medicine and Society Past and Present Oxford Brookes University UK *Making Sovereign Financing and Human Rights Work* Juan Pablo Bohoslavsky, Jernej Letnar Cernic, 2014-12-01 Poor public resource management and the global financial crisis curbing fundamental fiscal space millions thrown into poverty and authoritarian regimes running successful criminal campaigns with the help of financial assistance are all phenomena that raise fundamental questions around finance and human rights They also highlight the urgent need for more systematic and robust legal and economic thinking about sovereign finance and human rights This edited collection aims to contribute to filling this gap by introducing novel legal theories and analyses of the links between sovereign debt and human rights from a variety of perspectives These chapters include studies of financial complicity UN sanctions ethics transitional justice criminal law insolvency proceedings millennium development goals global financial architecture corporations extraterritoriality state of necessity sovereign wealth and hedge funds project financing state responsibility international financial institutions the right to development UN initiatives litigation as well as case studies from Africa Asia and Latin America These chapters are then theorised by the editors in an introductory chapter In July 2012 the UN Human Rights Council finally issued its own guidelines on foreign debt and human rights yet much remains to be done to promote better understanding of the legal and economic implications of the interface between finance and human rights This book will contribute to that understanding as well as help practitioners in their everyday work The authors include world renowned lawyers and economists experienced practitioners and officials from international organisations *A/AS Level History for AQA The Quest for Political Stability: Germany, 1871-1991 Student Book* Nick Pinfield, 2015-10-29 A new series of bespoke full coverage resources developed for the AQA 2015 A AS Level History Written for the AQA A AS Level History specifications for first teaching from 2015 this print Student Book covers The Quest for Political Stability Germany 1871 1991 Breadth component Completely matched to the new AQA specification this full colour Student Book provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes *Business in the Age of Extremes* Hartmut Berghoff, Jürgen Kocka, Dieter Ziegler, 2013-01-28 This collection of essays explores the impact that nationalism capitalism and socialism had on economics during the first half of the twentieth century Focusing on Central Europe contributors examine the role that businesspeople and enterprises played in Germany s and Austria s paths to the catastrophe of Nazism Based on new archival research the essays gathered here ask how the business community became involved in the political process and describes the consequences arising from that involvement Particular attention is given to the responses of individual businesspeople to changing political circumstances and their efforts to balance the demands of their consciences

with the pursuit for profit **Business and Industry in Nazi Germany** Francis R. Nicosia, Jonathan Huener, 2004 During the past decade the role of Germany's economic elites under Hitler has once again moved into the limelight of historical research and public debate This volume offers a brief but focused introduction to the role of German businesses and industries in the crimes of Hitler's Third Reich *The Rise of the Global Company* Robert Fitzgerald, 2016-01-07 This is the first full account of how an influential form of commercial organization the multinational enterprise drove globalization and contributed to the making of the modern world Robert Fitzgerald explores the major role of multinational enterprises in the events of world history from the nineteenth century to the present revealing how the growth of businesses that operated across borders contributed to an unprecedented worldwide transformation and deepening interdependence between countries He demonstrates how international businesses shaped the economic development and competitiveness of nations their politics and sovereignty and the balance of power in international relations The Rise of the Global Company uses the lessons of history to question prominent contemporary interpretations of multinationals and their consequences and offers a truly wide ranging survey of multinational enterprise spanning two hundred years and five continents Offshore Finance and State Power Andrea Binder, 2023-01-13 Offshore financial centers such as Luxembourg the Cayman Islands or the City of London provide non residents with a legal framework that is strong on property rights and soft on taxation and regulation Building on a historical institutionalist comparison of Britain Germany Brazil and Mexico Offshore Finance and State Power asks how these offshore financial services affect the power of the state Combining a concept analysis with empirical research the book finds that economic actors go offshore to create money more than to hide it Legal offshore banking trumps tax planning or money laundering in its impact on state power Offshore Finance and State Power also reveals that the relationship between the two is not straightforward Offshore finance can limit state power by transmitting the volatility of unregulated offshore banking into the domestic economy Yet counterintuitively offshore finance can also enhance state power It provides governments with an extraterritorial vehicle to cover up political conflicts over how to finance the state and to mitigate class conflict To which extent a state can put offshore finances at its own service depends on a country's domestic elite constellation and the tax and bank bargains they have forged throughout history *International Business and National War Interests* Ben Wubs, 2008-06-11 This book ties together business history the history of the Nazi economic administration and European history It is relevant to several disciplines including international relations economic and business history European history and political science How the War Was Won Phillips Payson O'Brien, 2015-02-12 An important new history of air and sea power in World War II and its decisive role in Allied victory **The International Aluminium Cartel** Marco Bertilorenzi, 2015-09-16 Aluminium was one of most cartelised industries in the international economic panorama of the 20th century Born following the discovery of electrolytic smelting process in 1886 this industry even in its infancy established a cartel which characterised its history until nearly 1980 Managers of the aluminium industry

from various historical eras and countries shared the same vision about the development of their industry to keep prices as stable as possible in order to encourage expansions and to provide return on investments Price instability which characterised the trade of other commodities was unknown to the aluminium industry This book neither argues that cartels are fundamentally evil nor attempts to demonstrate that cartels are optimal business organisations It instead provides an in depth and frank analysis of the internal working of industrial organisations and of the interplay between cartels and political powers and institutions The International Aluminium Cartel offers explanations for the construction and collapse of cartels descriptions of their operations and an historical interpretation of their experiences Incorporating information gleaned from a unique collection of private and public archives from several countries this unique study will appeal to a wide variety of readers including academics interested in industrial and business history

Four Days in Hitler's Germany Robert Teigrob, 2019-05-09 In 1937 Canadian Prime Minister Mackenzie King travelled to Nazi Germany in an attempt to prevent a war that to many observers seemed inevitable The men King communed with in Berlin including Adolf Hitler assured him of the Nazi regime's peaceful intentions and King not only found their pledges sincere but even hoped for personal friendships with many of the regime's top officials Four Days in Hitler's Germany is a clearly written and engaging story that reveals why King believed that the greatest threat to peace would come from those individuals who intended to thwart the Nazi agenda which as King saw it was concerned primarily with justifiable German territorial and diplomatic readjustments Mackenzie King was certainly not alone in misreading the omens in the 1930s but it would be difficult to find a democratic leader who missed the mark by a wider margin This book seeks to explain the sources and outcomes of King's misperceptions and diplomatic failures and follows him as he returns to Germany to tour the appalling aftermath of the very war he had tried to prevent

Embracing the Track of Phrase: An Psychological Symphony within **Nazi Dictatorship And The Deutsche Bank**

In a world consumed by displays and the ceaseless chatter of quick connection, the melodic elegance and psychological symphony created by the published term often fade into the backdrop, eclipsed by the constant sound and disturbances that permeate our lives. Nevertheless, located within the pages of **Nazi Dictatorship And The Deutsche Bank** a charming literary treasure brimming with organic emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that interesting masterpiece conducts viewers on a mental trip, skillfully unraveling the concealed melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this moving evaluation, we can investigate the book is central harmonies, analyze their enthralling writing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
