1 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December Race Neutrality
Samuel L. Myers, Inhyuck Ha, 2018-10-15 There are wide racial disparities in virtually every sphere of economic life African American workers earn less than whites They are more likely to be denied loans than whites Minority owned businesses are less likely to win lucrative bids on state and federal contracts than are white male owned businesses Black children are more likely than whites to be reported to child protective services for neglect or abuse There are even huge disparities in downing rates between blacks and whites What to do about these disparities There is a fundamental disagreement about the appropriate remedies to these varied indicators of racial inequality Part of the disagreement stems from differences in public perceptions about the underlying causes of the inequality But another form of disagreement relates to the opposition to the remedy of choice during much of the 1970s and 1980s Affirmative Action Race conscious remedies like affirmative action policies in hiring college admissions and business contracting suffer from legal and constitutional challenges compounded by hostility from the majority of Americans The alternative race neutral remedies attempt to address racial disparities without directly targeting benefits exclusively to racial minority group members In doing so race neutral remedies putatively help minorities without hurting majority group members The authors of Race Neutrality Rationalizing Remedies to Racial Inequality make the case that policy analysts should shift from a focus on whether a remedy is race conscious or not to a focus on the underlying problem that the alternative remedies is attempting to resolve This type of rethinking of the problem of racial inequality will reveal that sometimes race neutral remedies hold great promise in reducing disparities Often however race neutral remedies fail to do what they are intended to do The authors challenge the reader to think about why race neutral remedies while desirable on their face might fail to resolve protracted and persistent patterns of racial inequality in market and non market contexts **1967 Annual Supplement** John B. Martinson, 2013-12-01 **Ziskin's Coping with Psychiatric and Psychological Testimony** David Faust, 2012-01-12 This highly effective guide is designed to help attorneys differentiate expert testimony that is scientifically well established from authoritative pronouncements that are mainly speculative Building on the foundation of Jay Ziskin's classic work this updated text blends the best of previous editions with discussion of positive scientific advances in the field to provide practical guidance for experts and lawyers alike Major contributors in the field summarize the state of the literature in numerous key areas of the behavioral sciences and law Working from these foundations the text provides extensive guidance tips and strategies for improving the quality of legal evaluations and testimony appraising the trustworthiness of experts opinions and as follows bolstering or challenging conclusions in a compelling manner Distinctive features of this text include detailed coverage of admissibility and Daubert challenges with unique chapters written by an eminently qualified judge and attorney hundreds of helpful suggestions covering such topics as forensic evaluations discovery and the conduct of depositions and cross examinations and two chapters on the use of visuals to enhance communication and persuasiveness including a unique
