## **Preoccupations Selected Prose 1968 1978:**

**Preoccupations** Seamus Heaney, 2025-08-22 Nobel laureate Seamus Heaney's first collection of prose *Preoccupations* begins with a vivid account of his early years on his father's farm in Northern Ireland and his coming of age as a student and teacher in Belfast. Subsequent essays include critical work on Gerard Manley Hopkins, William Wordsworth, John Keats, Robert Lowell, William Butler Yeats, John Montague, Patrick Kavanagh, Ted Hughes, Geoffrey Hill, and Philip Larkin. **The Revisions of Englishness** David Rogers, John McLeod, 2004. Diverse and often competing notions of Englishness have been critiqued by a variety of writers and critics who have become concerned about received visions of Englishness in the post-war period. An exciting and provocative collection of essays which registers the changes to Englishness since the 1950s, this book explores how Englishness has been revised for a variety of aesthetic and political purposes and makes a ground-breaking contribution to the contemporary debates in literary and cultural studies. **Seamus Heaney** Harold Bloom, 2009. **A Chastened Communion** Andrew J. Auge, 2013-12-03. *A Chastened Communion* traces a new path through the well-traversed field of modern Irish poetry by revealing how critical engagement with Catholicism shapes the trajectory of the poetic careers of Austin Clarke, Patrick Kavanagh, John Montague, Seamus Heaney, Eilís Ní Chuilleanáin, Paul Durcan, and Paula Meehan. Underlying their divergent poetic styles and thematic concerns, Auge discerns a common pattern. He shows how a demythologizing critique of some elemental features of Irish Catholicism—the sacraments of confession and the Eucharist, the pilgrimages to holy wells and Lough Derg, the veneration of the Blessed Virgin, the imperative to self-sacrifice—the narrowly patriarchal nature of the institution elicit for each of these poets a radical reshaping of these traditional religious phenomena. Auge provides compelling new readings of major Irish poets and establishes a basis for distinguishing modern Irish poetry from its Anglophone counterparts. **The Poet's Mistake** Erica McAlpine, 2020-06-09. Northern Irish Poetry and the Russian Turn S. Schwerter, 2013-02-07 Seamus Heaney Tom Paulin and Medbh McGuckian are the three most influential poets from Northern Ireland who have composed poems with a link to the Tsarist Empire and the Soviet Union Through their references to Russia the three poets achieve a geographical and mental detachment allowing them to turn a fresh eye on the Northern Irish situation

**The Palgrave Handbook of Artistic and Cultural Responses to War since 1914** Martin Kerby, Margaret Baguley, Janet McDonald, 2018-12-05 This handbook explores a diverse range of artistic and cultural responses to modern conflict from Mons in the First World War to Kabul in the twenty first century With over thirty chapters from an international range of contributors ranging from the UK to the US and Australia and working across history art literature and media it offers a significant interdisciplinary contribution to the study of modern war and our artistic and cultural responses to it The handbook is divided into three parts The first part explores how communities and individuals responded to loss and grief by using art and culture to assimilate the experience as an act of survival and resilience The second part explores how conflict exerts a powerful influence on the expression and formation of both individual group racial cultural and national identities and the role played by art literature and education in this process The third part moves beyond the actual experience of conflict and its connection with issues of identity to explore how individuals and society have made use of art and culture to commemorate the war In this way it offers a unique breadth of vision and perspective to explore how conflicts have been both represented and remembered since the early twentieth century

*Yeats as Precursor* S. Matthews, 2000-01-27 As both a late Romantic and a modern W B Yeats has proved to be perhaps the most influential poet of the early twentieth century In this original study Steven Matthews traces through close readings of significant poems the flow of Yeatsian influence across time and cultural space By engaging with the formalist criticism of Harold Bloom and Paul de Man in their dialogues with Jacques Derrida he also considers Yeats's significance as the founding presence within the major poetry criticism of the century

**Faith, Hope and Poetry** Malcolm Guite, 2020-04-15 Faith Hope and Poetry explores the poetic imagination as a way of knowing a way of seeing reality more

clearly Presenting a series of critical appreciations of English poetry from Anglo Saxon times to the present day Malcolm Guite applies the insights of poetry to contemporary issues and the contribution poetry can make to our religious knowing and the way we do theology This book is not solely concerned with overtly religious poetry but attends to the paradoxical ways in which the poetry of doubt and despair also enriches theology Developing an original analysis and application of the poetic vision of Coleridge Larkin and Seamus Heaney in the final chapters Guite builds towards a substantial theology of imagination and provides unique insights into truth that complement and enrich more strictly rational ways of knowing Readers of this book will return to their reading of poetry equipped with new insights and enthusiasm and will be challenged to integrate imaginative ways of knowing into their other academic and intellectual pursuits **Contemporary Irish**

**Poetry and the Pastoral Tradition** Donna L. Potts, 2012-01-01 In *Contemporary Irish Poetry and the Pastoral Tradition* Donna L. Potts closely examines the pastoral genre in the work of six Irish poets writing today Through the exploration of the poets and their works she reveals the wide range of purposes that pastoral has served in both Northern Ireland and the Republic a postcolonial critique of British imperialism a response to modernity industrialization and globalization a way of uncovering political and social repercussions of gendered representations of Ireland and more recently a means for conveying environmentalism s more complex understanding of the value of nature Potts traces the pastoral back to its origins in the work of Theocritus of Syracuse in the third century and plots its evolution due to cultural changes While all pastoral poems share certain generic traits Potts makes clear that pastorals are shaped by social and historical contexts and Irish pastorals in particular were influenced by Ireland s unique relationship with the land language and industrialization due to England s colonization For her discussion Potts has chosen six poets who have written significant collections of pastoral poetry and whose work is in dialogue with both the pastoral tradition and other contemporary pastoral poets Three poets are men John Montague Seamus Heaney Michael Longley while three are women Eavan Boland Medbh McGuckian Nuala Ní Dhomhnaill Five are English language authors while the sixth Ní Dhomhnaill writes in Irish Additionally some of the poets hail from the Republic while others originate from Northern Ireland Potts contends that while both Irish Republic and Northern Irish poets respond to a shared history of British colonization in their pastorals the 1921 partition of the country caused the pastoral tradition to evolve differently on either side of the border primarily because of the North s more rapid industrialization its more heavily Protestant population whose response to environmentalism was somewhat different than that of the Republic s predominantly Catholic population as well the greater impact of the world wars and the Irish Troubles In an important distinction from other studies of Irish poetry Potts moves beyond the influence of history and politics on contemporary Irish pastoral poetry to consider the relatively recent influence of ecology Contemporary Irish poets often rely on the motif of the pastoral retreat to highlight various environmental threats to those retreats whether they be high rises motorways global warming or acid rain Potts concludes by speculating on the future of pastoral in contemporary Irish poetry

through her examination of more recent poets including Moya Cannon and Paula Meehan as well as other genres such as film drama and fiction

*The Art of Translation in Seamus Heaney's Poetry* Edward T. Duffy, 2024-03-13

The Art of Translation in Seamus Heaney's Poetry is a critical study of the poet's later work. While exploring his practice as a translator, it also traces his increasing preoccupation with the possibilities and conditions of translation in the theological sense of being lifted up in spirit. To the work of this philosophical poet who would be both earthed and heady, this book brings the insights of ordinary language philosophy as practiced by Stanley Cavell. It devotes separate chapters to *Station Island* and three later collections: *Seeing Things*, *Electric Light*, and *Human Chain*. The first of these addresses the most fundamental change in Heaney's life when he acknowledges the need and chance to re-envisage his Irish Catholic upbringing; it is also replete with both the activity and the trope of translation. Published seven years later, *Seeing Things* begins with a translation of Virgil's golden bough episode and ends with a similar crossing over into the underworld by Dante. Heaney transforms both into poems about poetry. In *Electric Light*, Heaney returns to Virgil but now he concentrates not on the hero of the *Aeneid* but on Virgil's earlier efforts in pastoral, a mode of writing that Heaney takes as a model for his own time and place of devastated order. Heaney returns to the *Aeneid* in *Human Chain*, but this time around he gives all his attention to the scene of the human souls in Elysium seeking rebirth and turns it into an image for the need and chance of pronouncing a final Yes to our world and our place in it.

*Out of What Began* Gregory A. Schirmer, 2019-05-15

The first book of its kind, *Out of What Began* traces the development of a distinctive tradition of Irish poetry over the course of three centuries. Beginning with Jonathan Swift in the early eighteenth century and concluding with such contemporary poets as Seamus Heaney and Eavan Boland, Gregory A. Schirmer looks at the work of nearly a hundred poets. Considering the evolving political and social environments in which they lived and wrote, Schirmer shows how Irish poetry and culture have come to be shaped by the struggle to define Irish identity. Schirmer includes a large number of accomplished poets who have been unjustly neglected in standard accounts of Irish literature; many of these writers are women whose work has been kept in the shadows cast by that of well-known male poets. He also emphasizes the importance of political poetry in a country that continues to be torn by sectarian violence. With its rich selection of poetic voices, *Out of What Began* reveals the political, social, and religious diversity of Irish culture.

*Ruin Memories* Bjørnar Olsen, Þóra Pétursdóttir, 2014-04-24

Since the nineteenth century, mass production, consumerism, and cycles of material replacement have accelerated, increasingly larger amounts of things are increasingly victimized rapidly and made redundant. At the same time, processes of destruction have immensely intensified, although largely overlooked when compared to the research and social significance devoted to consumption and production. The outcome is a ruin landscape of derelict factories, closed shopping malls, overgrown bunkers, and redundant mining towns, a ghostly world of decaying modern debris normally omitted from academic concerns and conventional histories. The archaeology of the recent or contemporary past has grown fast during the last decade. This development has been concurrent

with a broader popular artistic and scholarly interest in modern ruins in general *Ruin Memories* explores how the ruins of modernity are conceived and assigned cultural value in contemporary academic and public discourses reassesses the cultural and historical value of modern ruins and suggests possible means for reaffirming their cultural and historic significance Crucial for this reassessment is a concern with decay and ruination and with the role things play in expressing the neglected unsuccessful and ineffable Abandonment and ruination is usually understood negatively through the tropes of loss and deprivation things are degraded and humiliated while the information knowledge and memory embedded in them become lost along the way Without even ignoring its many negative and traumatizing aspects a main question addressed in this book is whether ruination also can be seen as an act of disclosure If ruination disturbs the routinized and ready to hand to what extent can it also be seen as a recovery of memory as exposing meanings and presences that perhaps are only possible to grasp at second hand when no longer immersed in their withdrawn and useful reality Anybody interested in the archaeology of the contemporary past will find *Ruin Memories* an essential guide to the very latest theoretical research in this emerging field of archaeological thought *The Flexible Lyric* Ellen Bryant Voigt, 1999 The author contends that the traditional form of writing lyric has been deprecated as a genre in favor of modern narrative and drama She presents her views that lyrics are as powerful and poignant an artform as they have ever been by examining structure and meaning in the verse form

**Forgetful Remembrance** Guy Beiner, 2018-11-09 *Forgetful Remembrance* examines the paradoxes of what actually happens when communities persistently endeavour to forget inconvenient events The question of how a society attempts to obscure problematic historical episodes is addressed through a detailed case study grounded in the north eastern counties of the Irish province of Ulster where loyalist and unionist Protestants and in particular Presbyterians repeatedly tried to repress over two centuries discomfiting recollections of participation alongside Catholics in a republican rebellion in 1798 By exploring a rich variety of sources Beiner makes it possible to closely follow the dynamics of social forgetting His particular focus on vernacular historiography rarely noted in official histories reveals the tensions between professed oblivion in public and more subtle rituals of remembrance that facilitated muted traditions of forgetful remembrance which were masked by a local culture of reticence and silencing Throughout *Forgetful Remembrance* comparative references demonstrate the wider relevance of the study of social forgetting in Northern Ireland to numerous other cases where troublesome memories have been concealed behind a veil of supposed oblivion ***The Cambridge Companion to Irish Poets*** Gerald Dawe, 2018 A fresh accessible and authoritative study that conveys the richness and diversity of Irish poets their lives and times
