**Water Index**

Seth McDowell, 2017-10-01 In the wake of an escalating global crisis with water Water Index is the first critical inventory and analysis of innovative architecture landscape architecture and design solutions to address the rising disappearing and contamination of water As an ecological disaster complex ferments in contemporary architectural discourse design competition briefs conference topics and journal themes optimistically call for designers to reconcile or reimagine the relationship between water architecture and city Anxiety is elevated by the onslaught of extreme weather in the form of

super storms hurricanes tsunamis landslides floods and droughts whose frequencies and intensities continue to increase Couple the ever present exposure to disaster with scientific data that suggests a future characterized by climate change and population growth and then we have the ingredients for a full fledged paranoia the perfect motivation for absurd expansive and radical building projects Water Index examines three hydrological tragedies flood contamination and drought through strategies that offer methods for controlling escaping or adapting to the vital natural resource Water Index is a collective vision of the future that provides solutions for every continent and spans the disciplines of urban design landscape architecture and architecture The book works to create an enduring manual and manifesto for water development and design in the twenty first century and to acknowledge crisis initiated design as an important trajectory for architectural discourse Water Index highlights a moment when designers have linked formal concerns with social ecological and political agendas offering solutions for expanding global problems

**Drought in Arid and Semi-Arid Regions** Kurt Schwabe,Jose Albiac,Jeffery D. Connor,Rashid M. Hassan,Liliana Meza González,2013-07-08 Offering a cross country examination and comparison of drought awareness and experience this book shows how scientists water managers and policy makers approach drought and water scarcity in arid and semi arid regions of Spain Mexico Australia South Africa and the United States California's Drought of 2007-2009 Jeanine Jones,2010 *Implementing Domestic Tradeable Permits Recent Developments and Future Challenges* OECD,2002-08-05 This book presents the proceedings of an OECD workshop on domestic tradeable permits which provides an analysis of recent developments in the use of domestic TPs in new areas including climate change renewable energy transport solid waste management and water resources management
