Preparing For Grief:

Preparing for Grief Dorothy Childers, 1994-05-01 PREPARING FOR GRIEF is a self help with God's help guide book with a unique positive approach to coping with grief. Most books about grief deal with sorrow as it is experienced but seldom infer that we can prepare for it. The author believes there are things emotional as well as practical that people can do ahead of time to prepare themselves to cope with any possible sorrow. She has been sharing her ideas based on her personal experiences with grief. Her 20-year-old daughter was killed in a car accident in 1976 with church community groups since 1986. Although the author intends to reach people while grieving, situations are hypothetical or in the future; her ideas have also been well received by people who have experienced the recent loss of a loved one. The retail price is 13.95 plus postage 1.05 for one or two books, 1.45 for three or four books, postage free for five or more. Grief and Trauma Counseling Education: Preparing Future Counselors Cox, Michelle R., 2024-07-22 In the aftermath of the Covid-19 pandemic, the struggles faced by caregivers in navigating the depths of grief and trauma have become increasingly pronounced. The profound challenges inherent in this journey unfold starkly in the experiences of those who have shouldered the weight of caregiving responsibilities during these trying times. The emotional toll compounded by the complexities of the pandemic paints a picture of resilience and struggle. Amidst this narrative of hardship and endurance emerges a crucial resource that delves into the heart of this issue, providing insights and strategies for those grappling with the dual complexities of personal grief and professional counseling. This invaluable guide, titled *Grief and Trauma Counseling Education: Preparing Future Counselors*, encapsulates the essence of the caregiver's journey and offers a lifeline for those seeking understanding and support in the face of unprecedented challenges. Structured to cater to a diverse audience, this book is a valuable resource for graduate students in counseling programs, undergraduates in social science courses, and practicing counselors. It recognizes the scarcity of literature focusing on grief counseling from the perspective of a counselor educator undergoing personal recovery. The book provides essential tools for navigating the grief process from diagnosis to the end of life, making it an indispensable guide for those in the counseling profession. Furthermore, the targeted approach extends to policymakers responsible for healthcare system improvements, ensuring that the book's impact reverberates in spheres where systemic change is needed.

Death of a Loved One Brian Arcarese,2010-06 The journey you share with a dying loved one is the culmination of your life together How you view death affects your loved one's dying experience Your choices during this process have results that can linger long after the loved one is gone This journey can be one of fear and clinging or it can focus on love honoring them and providing a comforting peaceful atmosphere Much depends on your approach That's where this book comes in The author's professional experience as a hospice bereavement counselor and deaths of some close family members have given him firsthand experience in traveling through the dying process and grief He saw how people's approach to the process had a direct impact on their grief so he wrote this book to raise awareness of emotional factors around dying With awareness you're better attuned to your loved one's needs so you engage in the dying process instead of running from it You can then experience this as a time of greater intimacy and emotional richness and healing Preparing Your Children for Goodbye
