Psychoanalysis of Sense Guillaume Collett, 2016-10-26 Guillaume Collett questions to what extent we can locate Deleuze within the Lacanian School during the late 1960s prior to Guattari In so doing he offers a new integrated reading of Deleuze's *The Logic of Sense* 1969 by understanding it as a psychoanalysis of sense and gives a new interpretation of Deleuze's conception of philosophy itself The *Psychoanalysis of Sense* shows that Deleuze was not merely aware of the debates animating the Lacanian School during the 1960s he sought to contribute to them Emphasising his appropriation of the work of post Lacanian Serge Leclair Collett explains how Deleuze constructed a more singular and immanent theory of the linguistic structure of the unconscious granting the erogenous body a larger structuring role

Habitat Ecology and Analysis Joseph A. Veech, 2021-01-29 The identification and analysis of the particular habitat needs of a species has always been a central focus of research and applied conservation in both ecology and wildlife biology Although these two academic communities have developed quite separately over many years there is now real value in attempting to unify them

to allow better communication and awareness by practitioners and students from each discipline Despite the recent dramatic increase in the types of quantitative methods for conducting habitat analyses there is no single reference that simultaneously explains and compares all these new techniques This accessible textbook provides the first concise authoritative resource that clearly presents these emerging methods together and demonstrates how they can be applied to data using statistical methodology whilst putting the decades old pursuit of analyzing habitat into historical context Habitat Ecology and Analysis is written for senior undergraduate and graduate students taking courses in wildlife ecology conservation biology and habitat ecology as well as professional ecologists wildlife biologists conservation biologists and land managers requiring an accessible overview of the latest methodology
