Present Hope Andrew E. Benjamin, 1997 Discusses the philosophical problem of how that which is different is to be understood Thinking the incomplete outside the oscillation between the complete and its opposite demands the introduction of another conceptual apparatus Differing conceptual moments can be clarified by allowing them to be conceptually present what becomes essential is tracing the effect of their work Relating to the Shoah contends that while there is an imperative to know it it can never really be known Ch 3 pp 56 74 Shoah Remembrance and the Abeyance of Fate Walter Benjamin's Fate and Character discusses how the themes in Benjamin's work e.g. hope remembrance written in 1919 can be applied to the Shoah Ch 5 pp 103 118 The Architecture of Hope Daniel Libeskind's Jewish Museum part of the Berlin Museum relates to the question of how Christian Europe has inscribed its Jews in art and architecture giving two examples the medieval sculpture of the Synagogue on the Strasbourg Cathedral and Libeskind's museum Discusses how these two works raise the question of the distinction between the identity of Jewish being and of being a Jew

**Present Hope** Andrew Benjamin, 1997-07-17 An understanding of what we mean by the present is one of the key issues in literature philosophy and culture today but also one of the most neglected and misunderstood Present Hope develops a fascinating philosophical understanding of the present approaching this question via discussions of the nature of historical time the philosophy of history memory and the role of tragedy Andrew Benjamin shows how we misleadingly view the present as simply a product of chronological time ignoring the role of history and memory Accordingly discussion of what is meant by the present disappears from philosophical concern To draw attention to this absence Andrew Benjamin introduces the notion of hope and asks what this concept can tell us about the present At the heart of the outstanding work is an emphasis on the relation between hope and the Jewish tradition Through discussions of philosophical responses to the Holocaust the work of Walter Benjamin Daniel Libeskind's Jewish Museum and the poetry of Paul Celan Present Hope shows how we must look beyond the purely philosophical horizon to understand the present we live in

in *Kenosis Creativity Architecture* Randall S. Lindstrom, 2021-03-21 *Kenosis Creativity Architecture* locates and explores creativity's grounding in the ancient concept of kenosis the emptying that allows creativity to happen that makes appearance possible It concretises that grounding through architecture a primal expression of human creativity critically examining for the first time kenotic instantiations evidenced in four iconic international projects works by Kahn Pei Ando and Libeskind Then in a final turn the potentiality of architecture's own emptying is probed Architect and author Randall Lindstrom draws on Western and Eastern philosophy including that of Heidegger Levinas Derrida Vattimo Nishida and Nishitani as well as on the theology of Christianity Judaism and aspects of Buddhism Hinduism and Islam Every chapter expands the argument that if responsiveness to our world is taken seriously if proper and sustainable responses are to be realised then a deeper understanding of creativity and so kenosis is essential This book opens up a way of thinking about creativity and humanity's readiness to be creative It thereby presents a crucial enquiry at the nexus of architecture philosophy and theology for researchers graduate and postgraduate students and practitioners alike *A Philosophical Analysis of Hope* J. Waterworth, 2003-12-16 Despite the familiarity of hope in human experience it is a phenomenon infrequently considered from a philosophical point of view This book charts the centrality of hope in thought and action from first second and third person perspectives From everyday situations to extreme circumstances of trial and endings in life the contours of hope are given a phenomenological description and subjected to conceptual analysis This consistently secular account of hope sheds a different light on questions of agency and meaning **Artmaking in the Age of Global Capitalism** Bryant Jan Bryant, 2019-09-11 Jan Bryant looks at the strategies visual artists and filmmakers are using to criticise the social and economic conditions shaping our historical moment She then assesses how the world is being positively re-imagined through their work today Located at the intersection of practice and theory Bryant argues that an effective contemporary political aesthetics encompasses more than just analysis of a work's conceptual or aesthetic reality It should also consider the impact the artwork has at the point of reception the methods adopted by the artists and the relationships they engender with communities **Narrative Therapy** Catrina Brown, Tod Augusta-Scott, 2006-08-03 *Narrative Therapy Making Meaning Making Lives* offers a comprehensive introduction to the history and theory of narrative therapy Influenced by feminist postmodern and critical theory this edited volume illustrates how we make sense of our lives and experiences by ascribing meaning through stories that arise within social conversations and culturally available discourses **The Future Jew** Michael Carin, 2001 Views the Holocaust as a pivotal event in history and concludes that God does not exist Argues for a secular humanistic Judaism of the future Jew Holocaust memory is central to this vision which aims at preventing another holocaust or any other genocide Presents an example of a Holocaust seder and stresses that every day should be Holocaust Day States that antisemitism is a constant in history and despite the utopian rationality and science based humanism espoused expresses a commitment to cut off the hands of any antisemitism that threatens before it can harm the Jews This

combination of humanism and perpetual memorializing of the Holocaust is seen as giving some redemptive meaning to the Holocaust Much attention is paid to arguing that God's failure to save the Jews proves His non existence Virtue in Being Andrew Benjamin, 2016-08-31 A radical rethinking of ethics set within the development of a philosophical anthropology In his last book *Towards a Relational Ontology* Andrew Benjamin provided a philosophical account of what he terms an original relationality demonstrating how this concept can be seen to be at work throughout the history of philosophy In *Virtue in Being* he builds on that project to argue for a new way of understanding the relationship between ontology and ethics through insightful readings of texts by Immanuel Kant Hannah Arendt and Jacques Derrida Structuring the book around the themes of violence evil and pardon Benjamin builds a convincing case for the connections he draws between thinkers not commonly associated with one another In this original and engaging study Benjamin opens a nuanced dialogue between the work of Kant Arendt and Derrida to create a conversation about virtue that illuminates our human condition Benjamin's innovative scholarship enriches our understanding of each of the figures he treats Elizabeth Mill n Brusslan author of *Friedrich Schlegel and the Emergence of Romantic Philosophy* **The New Berlin** Karen E. Till, An innovative exploration of German memory national identity and modernity embodied in the public spaces of the new capital *Redemptive Hope* Akiba J. Lerner, 2015-09-01 This is a book about the need for redemptive narratives to ward off despair and the dangers these same narratives create by raising expectations that are seldom fulfilled The quasi messianic expectations produced by the election of President Barack Obama in 2008 and their diminution were stark reminders of an ongoing struggle between ideals and political realities *Redemptive Hope* begins by tracing the tension between theistic thinkers for whom hope is transcendental and intellectuals who have striven to link hopes for redemption to our intersubjective interactions with other human beings Lerner argues that a vibrant democracy must draw on the best of both religious thought and secular liberal political philosophy By bringing Richard Rorty's pragmatism into conversation with early twentieth century Jewish thinkers including Martin Buber and Ernst Bloch Lerner begins the work of building bridges while insisting on holding crucial differences in dialectical tension Only such a dialogue he argues can prepare the foundations for modes of redemptive thought fit for the twenty first century **The Derrida Reader** Jacques Derrida, 1998-01-01 In the English speaking world Jacques Derrida's writings have most influenced the discipline of literary studies Yet what has emerged since the initial phase of Derrida's influence on the study of English literature classed under the rubric of deconstruction has often been disowned by Derrida What then can Derrida teach us about literary language about the rhetoric of literature and about questions concerning style form and structure *The Derrida Reader* draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language the idea of the literary and questions of poetics and poetry The essays discuss single tropes or concepts a figure such as metaphor the ideas of titles and signatures proper names and Derrida's thinking on such subjects as undecidability or aporia The editor's introduction is a demonstration in practice of how Derrida

reads and how he adapts the act of reading to the text or figure in question The introduction also outlines each essay's main points its usefulness for reading literary texts and its particular area of interest The Derrida Reader thus provides students of literature with a focused contextualized and readily understandable volume

**Critical Theory and Phenomenology** Christian Ferencz-Flatz, 2023-05-15 This book outlines the most important points of intersection between early phenomenology and critical theory It develops extensive analyses of specific instruments of the phenomenological method such as eidetic intuition and the procedures of genetic phenomenology These procedures were both criticized and reappropriated by some of the most notable early critical theorists such as Adorno Benjamin Kracauer and Marcuse As such the book offers the first extensive account of the important phenomenological heritage of critical theory This book also attests to the versatility of the phenomenological method which can be shown to have influenced a wide array of approaches within the critical tradition The chapters focus on these early critical theorists and also discuss the applications of their methods within the treatment of numerous media theory issues In so doing the book shows how fertile a critically reappropriated phenomenology may prove for tackling contemporary media phenomena such as television film and advertising This volume appeals to students and researchers working in the crosshairs of phenomenology critical theory and media studies

**Theorizing Modernity** Peter Wagner, 2001-03-20 This book argues that sociology has lost its ability to provide critical diagnoses of the present human condition because sociology has stopped considering the philosophical requirements of social enquiry The book attempts to restore that ability by retrieving some of the key questions that sociologists tend to gloss over inescapability and attainability The book identifies five key questions in which issues of inescapability and attainability emerge These are the questions of the certainty of our knowledge the viability of our politics the continuity of our selves the accessibility of the past and the transparency of the future The book demonstrates how these questions are addressed in different forms and by different intellectual

*Shoah Presence: Architectural Representations of*

*the Holocaust* Eran Neuman, 2016-04-01 Through the analysis of several commemorative acts in space matter and image namely museums and memorials this book reflects on the ways in which architecture as a discipline a practice and a discourse represents the Holocaust In doing so it problematizes how one presents an extreme historical case in a contemporary context and integrates the historical into actuality By examining several cases the book defines the issues faced by various architects who dealt with this topic and discusses their separate and distinctive approaches In each case it analyses the ways in which the cultural and political contexts of commemoration led to a different interpretation of the condition Focusing on the Ghetto Fighters House the world's first Holocaust museum Yad Vashem Israel's national Holocaust memorial in Jerusalem the US Holocaust Memorial Museum in Washington and the Holocaust Memorial in Berlin the book discusses how the representation of history by architecture creates a dialectic process in which architecture mediates the past to the present while at the same time creating a present saturated with historical contexts It shows how together they are incorporated into one another and create a new reality past and present intertwined

**Theoretical Interpretations of the Holocaust**, 2021-10-25 This book aims to show the many resources at our disposal for grappling with the Holocaust as the darkest occurrence of the twentieth century These wide ranging studies on philosophy history and literature address the way the Holocaust had led to the reconceptualization of the humanities The scholarly approaches of Pierre Klossowski Georges Bataille and Maurice Blanchot are examined critically and the volume explores such poignant topics as violence evil and monuments

*The Violence of Organized Forgetting* Henry A. Giroux, 2014-07-21 Giroux refuses to give in or give up *The Violence of Organized Forgetting* is a clarion call to imagine a different America just fair and caring and then to struggle for it Bill Moyers Henry Giroux has accomplished an exciting brilliant intellectual dissection of America's somnambulant voyage into anti democratic political depravity His analysis of the plight of America's youth is particularly heartbreaking If we have a shred of moral fibre left in our beings Henry Giroux sounds the trumpet to awaken it to action to restore to the nation a civic soul Dennis J Kucinich former US Congressman and Presidential candidate Giroux lays out a blistering critique of an America governed by

the tenets of a market economy He cites French philosopher Georges Didi Huberman s concept of the disimagination machine to describe a culture and pedagogical philosophy that short circuits citizens ability to think critically leaving the generation now reaching adulthood unprepared for an inhospitable world Picking apart the current malaise of 21st century digital disorder Giroux describes a world in which citizenship is replaced by consumerism and the functions of engaged governance are explicitly beholden to corporations Publishers Weekly In a series of essays that explore the intersections of politics popular culture and new forms of social control in American society Henry A Giroux explores how state and corporate interests have coalesced to restrict civil rights privatize what s left of public institutions and diminish our collective capacity to participate as engaged citizens of a democracy From the normalization of mass surveillance lockdown drills and a state of constant war to corporate bailouts paired with public austerity programs that further impoverish struggling families and communities Giroux looks to flashpoints in current events to reveal how the forces of government and business are at work to generate a culture of mass forgetfulness obedience and conformity In *The Violence of Organized Forgetting* Giroux deconstructs the stories created to control us while championing the indomitable power of education democracy and hope Henry A Giroux is a world renowned educator author and public intellectual He currently holds the Global TV Network Chair Professorship at McMaster University in the English and Cultural Studies Department and a Distinguished Visiting Professorship at Ryerson University The Toronto Star has named Henry Giroux one of the twelve Canadians changing the way we think More Praise for Henry A Giroux s *The Violence of Organized Forgetting* I can think of no book in the last ten years as essential as this I can think of no other writer who has so clinically dissected the crisis of modern life and so courageously offered a possibility for real material change John Steppeling playwright and author of *The Shaper Dogmouth and Sea of Cortez* A timely study if there ever was one *The Violence of Organized Forgetting* is a milestone in the struggle to repossess the common sense expropriated by the American power elite to be redeployed in its plot to foil the popular resistance against rising social injustice and decay of political democracy Zygmunt Bauman author of *Does the Richness of the Few Benefit Us All* among other works Prophetic and eloquent Giroux gives us in this hard hitting and compelling book the dark scenario of Western crisis where ignorance has become a virtue and wealth and power the means of ruthless abuse of workers of the minorities and of immigrants However he remains optimistic in his affirmation of radical humanity determined as he is to relate himself to a fair and caring world unblemished by anti democratic political depravity Shelley Walia Frontline [Schooling and the Struggle for Public Life](#) Henry A. Giroux,2015-12-03 This book examines the relationship between democracy and schooling and argues that schools are one of the few spheres left where youth can learn the knowledge and skills necessary to become engaged critical citizens Not only is the legacy of democracy addressed through the work of John Dewey and others but the democratic possibilities of schooling are analyzed through a range of issues extending from the politics of teacher authority to the importance of student voices These issues have only become

more vital in an era of neoliberalism and smaller government as Giroux discusses at length in this new updated edition
