Financial Statement Analysis teaches readers the tricks that companies use to mislead so readers can more clearly interpret statements. Learn how to read and understand financial statements prepared according to GAAP and non GAAP standards. Compare CFROI, EVA, Valens and other non GAAP methodologies to determine how accurate companies' reports are. Improve your business decision making, stock valuations or merger and acquisition strategy. Develop the essential skill of quickly and accurately gathering and assessing information from financial statements of all types. Professional analysts, investors and students will gain valuable knowledge from this updated edition of the popular guide.
